

GAT Management Newsletter

GOODYEAR ATOMIC CORPORATION

a subsidiary of

THE GOODYEAR TIRE & RUBBER COMPANY

August 7, 1968

CONGRATULATIONS are in order for every one on "D" Shift for winning the annual Shift Safety Award. Under R. B. ENGLER's leadership, they worked the entire fiscal year without an injury requiring the services of a doctor. This is the first year "D" Shift has won the award since they shared it with "A" Shift in 1955 and 1956.

G. H. REYNOLDS and C. D. TABOR made presentations before Mr. DeYoung and about 70 other top executives of the parent company on August 5. The presentations were designed to better acquaint the group with our plant and its part in the expected bright future of atomic energy.

NEW EMPLOYEES include: DAVID A. DONOVAN, Adm. Squad. He graduated from Rowe High School in Geneva, Ohio, and has a B.A. in Accounting from Ohio U. GREG J. SMITH, D-311, graduated from Chillicothe High School, has had several courses at Ohio U, and is now taking a programming course at the Institute of Americas in Chillicothe. ELIZABETH A. ENGLAND and PAULA J. WINDLE are new members of the Steno Pool, D-224. Elizabeth is the daughter of Q. ENGLAND, D-711. She is a graduate of Jackson High School and has an Associate (2 years) degree in Secretarial work at Eastern State College in Kentucky. Paula graduated from Portsmouth West High School. She has taken courses at Franklin U in Columbus and has a certificate for finishing an IBM Key Punch course at Mata College in the same city. ROBERT L. ETTLING, JR., D-423, graduated from Chillicothe High School. His father works in D-858.

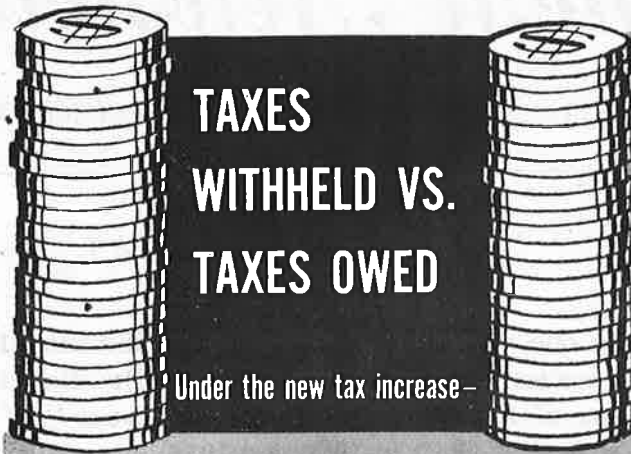

THE 199 PINTS contributed during the Bloodmobile's semiannual visit in July was the most for any visit since July, 1966.

RECENT PROMOTIONS of Tech. Squad Trainees to permanent assignments include: JAMES H. HIPPLE to D-533, ROBERT S. NEELY to D-533, DANNY R. SHELLEY to D-532, JAMES B. FORD to D-523.

THE ORO-AEC Safeguards Survey Team (6 men) were on plantsite for three days last week for their annual visit to check nuclear accountability procedures. A. H. WERNECKE was in charge of arrangements; at least 15 other GAT employees handled part of the three-day program.

CLYDE FRENCH is in the Chillicothe Hospital recovering from a heart attack. He will probably be there for several weeks, can't have visitors yet but is allowed to look at "get well" cards -- and appreciates getting them.

BECAUSE OF THE SURTAX, the amount of money presently being deducted from your pay may need to be increased to avoid paying a large additional amount next spring. The table below will give you a quick check.

TAXES WITHHELD VS. TAXES OWED

Under the new tax increase—

MARRIED COUPLE, NO CHILDREN

Annual Earnings	Total Income Tax on 1968 Pay	Amount of Tax To Be Withheld From Pay	Amount of Tax Remaining To Be Paid
\$3,000	\$200	\$198	\$2
\$5,000	\$533	\$516	\$17
\$8,000	\$1,075	\$1,052	\$23
\$10,000	\$1,443	\$1,424	\$19
\$15,000	\$2,510	\$2,401	\$109
\$20,000	\$3,745	\$3,541	\$204
\$25,000	\$5,156	\$5,001	\$155
\$35,000	\$8,597	\$8,072	\$525
\$50,000	\$15,011	\$12,780	\$2,231

SINGLE PERSON

Annual Earnings	Total Income Tax on 1968 Pay	Amount of Tax To Be Withheld From Pay	Amount of Tax Remaining To Be Paid
\$3,000	\$354	\$342	\$12
\$5,000	\$721	\$710	\$11
\$8,000	\$1,376	\$1,337	\$39
\$10,000	\$1,873	\$1,808	\$65
\$15,000	\$3,391	\$3,199	\$192
\$20,000	\$5,287	\$4,826	\$461
\$25,000	\$7,506	\$6,395	\$1,111
\$35,000	\$12,499	\$9,534	\$2,965
\$50,000	\$20,672	\$14,242	\$6,430

MARRIED COUPLE WITH TWO CHILDREN

Annual Earnings	Total Income Tax on 1968 Pay	Amount of Tax To Be Withheld From Pay	Amount of Tax Remaining To Be Paid
\$3,000	\$0	\$0	\$0
\$5,000	\$290	\$296	-\$6*
\$8,000	\$830	\$798	\$32
\$10,000	\$1,198	\$1,171	\$27
\$15,000	\$2,217	\$2,108	\$109
\$20,000	\$3,397	\$3,196	\$201
\$25,000	\$4,743	\$4,563	\$180
\$35,000	\$8,094	\$7,631	\$463
\$50,000	\$14,392	\$12,339	\$2,053

*Refund.

Note: Tax figures shown assume deductions equal to 10 per cent of income, or the minimum standard deduction, whichever is larger.

IF THE TWO major presidential candidates run a close race, a third party candidate could prevent either from getting a majority. In that event, the 12th Amendment to the Constitution provides that the election would revert to the House of Representatives where each state, regardless of the size of its Congressional delegation, would have one vote. The decision would be made from among the top three Presidential candidates. The winning candidate would need only a simple majority -- 26 of the 50 votes -- to win the Presidency. The Vice Presidency would be decided by the U.S. Senate from among the top two Vice Presidential candidates. This opens up the distinct possibility of having a President of one party and a Vice President of another.

DONALD C. BOWMAN is director of Purchasing, Goodyear International Corporation. Don worked in our Purchasing Department from 1953-1956. Thirteen GAT alumni are now G.I.C. employees.

DO YOU KNOW about the Dawes Arboretum? It is five miles south of Newark on Route 13 and admission is free. It was endowed in 1929 by oil company executive B. G. Dawes and there are 500 acres including a lake, forest, shrubs and a Japanese garden. Plants are labeled with their scientific names. It is open from dawn to dusk. There are picnic tables, grills and a shelter house.

NEW YORK CITY is the first major city to have "911" as the emergency number for police and ambulance service. AT&T wants to make it the standard number all over the U.S.

VERNON C. SQUIRES, who is manager of Engineering Services for the parent company, is on a 10-member committee named by the mayor of Akron to investigate that city's recent civil disturbances. Vern is also chairman of Coalition for Action -- a civic action group. Vern was a GAT employee from 1954-1958.

THOUGHTS ON MANAGEMENT

URANIUM ENRICHING is now the only major step in the fuel cycle which is dependent on the government. The possibility of private industry becoming involved in this function has been under study by both the AEC and the Atomic Industrial Forum, a nuclear industry association. The Forum has looked into the questions of whether it is feasible and desirable for the AEC to lease or sell any of its gaseous diffusion plants to industry, and if so, when and how this transfer could best be accomplished.

- AEC Commissioner J. T. Ramey

THEY REALLY shouldn't ban praying in the public schools -- that's the only way some of us got through.

- TWA's Jest Stream

WHEN A COMMUNITY of seven million persons spends \$400 million a year in welfare payments, something must change . . . Never in our history has there been a better time to assist the unemployed. The unemployment rates in the various states are lower now than ever before . . . We cannot afford to tell our employment managers: "Hire the best man for the job." We must instruct him to "Hire the man who is only just qualified" . . . I believe that we can produce more profits by training our underprivileged workers to perform a limited job fast and well, rather than have skilled, highly trained personnel perform a total job

- E. Lloyd Considine, Consultant

MODERN MATHEMATICS: The number of blasts that come from auto horns in a traffic jam is equal to the sum of the squares at the steering wheels.

- Akron Beacon Journal

WE ARE NOW in a scientific revolution. In the life span of the youngest member of this audience we have sped through three eras -- the atomic age, the computer age, the space age -- and now we stand on the threshold of the most revolutionary of them all, the DNA age -- the unlocking of the very secret of life, of what makes us what we are. We soon will have the frightening knowledge of how to make man any way we want him -- smart or stupid, tall or short, black or white.

- Walter Cronkite, OSU commencement speaker

EVERYTHING comes to him who hustles while he waits.

- Thomas A. Edison (1847-1931)

ONE EXPLANATION for the manners of the modern child is that too many woodsheds have been converted into garages.

- Anonymous

WHAT A MAN KNOWS at 50 that he did not know at 20 boils down to something like this: The knowledge he has acquired with age is not a knowledge of formulas, or forms of words, but of people, places, actions -- a knowledge not gained by words, but by touch, sight, sound; victories, failures, sleeplessness, devotion, love -- the human experience and emotions of this earth and of one's own self and other men. Perhaps, too, a little faith, a little reverence for things you cannot see.

- Adlai Stevenson (1900 - 1965)

THE REASONABLE MAN adapts himself to the world; the unreasonable one persists in trying to adapt the world to himself. Therefore all progress depends on the unreasonable man.

- George Bernard Shaw (1856 - 1950)

BY THE TIME they reach age 30, many Americans have retreated into cocoons of non-involvement and cynicism. The ideals that fired them in their college years -- equal opportunity, the elimination of injustice, a more enlightened and humane society -- are placed in moth balls. All their energies are devoted to mortgage payments, job promotions, crabgrass and car pools.

- W. J. Cohen, secretary of H.E.W.

EVERY GOAL man reaches provides a new starting point, and the sum of all man's days is just a beginning.

- Lewis Mumford

THE CHANGES taking place in our Scientific Age as a result of scientific advances and their applications through technology are having a fundamental effect on many interrelated aspects of our economy, the future of our society, and the needs of our educational system. Ours is no longer primarily a manufacturing economy. The United States is the first nation in the history of the world in which less than half of the employed population is involved in the production of food, clothing, housing, and other tangible goods. Our economy is becoming more and more an economy concerned with services, research and development, education, and activities made possible by larger amounts of leisure time.

- Dr. Glenn T. Seaborg

WHO'S WHO IN MANAGEMENT

DELBERT E. PRICKETT, Department 224, Employment Services, does most of our college recruiting and also hires experienced technical employees. During the 1968 fiscal year he traveled more than 12,000 miles on company business. He reports to WILLIAM M. ARMSTRONG, supervisor.

Prickett graduated from the high school in Blanchester, O., and from Ohio State University with a B.S. degree in Business Administration. Previous to his work at GAT, he served as a 1st lieutenant in the U. S. Field Artillery, in public relations for Licking Rural Electrical Co., Utica, Ohio, and as a training coordinator for Owens Fiber Glass Company in Newark, Ohio. He started at GAT as an interviewer in 1953, was promoted to an industrial engineer in 1958, and served as a conference leader in 1964. He was promoted to his present position last year.

Del and his wife, Anne, with their two children, 20-year-old Rebecca and 15-year-old Dan, reside at 638 Allen Avenue in Chillicothe. Rebecca is a senior at Miami (Ohio) University. The Pricketts are members of the Chillicothe Walnut Street Methodist Church. Del is a member of several Masonic organizations and is on the Rainbow and DeMolay boards. He is also a member of the Midwest College Placement Association.

GAT NAMES AND FACES IN THE NEWS

R. W. BROWN, JR.

O. F. TUSSEY

J. W. CARVER

R. W. BROWN, JR., has been selected to attend the Executive Development Program at Ohio State University. The program is in two parts which are approximately a year apart. The first part is from August 25 to September 7. C. D. TABOR and H. E. McCOMB were the first GAT employees to attend. They attended in 1966-1967.

O. F. TUSSEY presented an American flag to the Shawnee District, Chief Logan Council, at a monthly dinner meeting on July 18 at the Boy Scout camp. The flag has flown over the Capitol in Washington and was obtained by Congressman Harsha through the efforts of American Legion Post #142. Chief Tussey is their immediate past commander.

J. W. CARVER is this year's Portsmouth River Days publicity chairman (for the third straight year). He is also a member of a three-man committee who will select Miss Ohio Festival Queen from 26 contestants, each a queen of a state festival.
