Banquet of Champions

Review **Labor Relations**

The following is taken from a let ter dated October 20, 1960 from J. K. Stevenson, President, Local 10-689, OCAW to D. W. Doner, Manager, Industrial Relations Division, Goodyear Atomic Corporation:

"Local 10-689, in conformance with its By-Laws and Constitution, has amended the same By-Laws and Constitution to provide monthly dues in the amount of \$5.00 per month.

We request the Company in accordance with Arricle III of the agreement between Goodvear Atomic Corporation and Local 10-689, to deduct these dues from the wages of the members of Local 10-689, who have signed voluntary check-off authorizations as of December 1, 1960,"

Massie Receives Army Promotion

Carl B. Massie, standard practice department, has been promoted to Lieutenant Colonel in the United States Army Reserve, effective September 30, 1960.

Massie's military service dates to March 26, 1942. He received his commission as Second Lieutenant in May, 1943. He served with the Sixteenth Armored Division in Europe in World War II. During the Kore-

Carl B. Massie

an Conflict he was recalled to active duty and commanded a tank company in the 3rd Infantry Division. He was promoted to Major October 1, 1953. In 1959, he graduated from the Command and General Staff School, Fort Leavenworth, Kansas.

Active in the Army Reserve program in Portsmouth, he is presently assigned as Operations and Training Officer for the 2355th Logistical Command, located in the Army Reserve Training Center.

Massic is married and the father of two daughters, Carla, 16, and Paula, 13. He has two brothers employed by Goodyear Atomic, Dale M. is in the utilities maintenance department, and Clarence F. is a member of the mass spectrometry depart- Popularization of Science. Champions Honored At Annual Banquet

Annual Banquet of Champions last with the GAT children in mind.

Over two-hundred and fifty were duced the greatest number of champions in the history of the employee activity program. Many employees time. Several were participating as a champion for the sixth consecutive

"B" Shift winners, who were working second shift last week, were pated in the 18 leagues surrounding honored at a separate banquet at the Scioto Motel Wednesday, October

Following the dinner last week, R. F. Jones, supervisor of GAT's recreation department, reviewed the past year's employee activity program. He pointed out that employees travel a great many miles to participate in the various recreational activities. Yet, he said, participation in the GAT recreational program is second to none. He cited two "firsts" at sufficient interest is displayed in any this year's banquet ... married couples and the presence of other plant site employees. OVEC girls won first, that activity to the GAT employee second, and third flights in the Women's Flight Golf Championship. 'Next Year," Jones said jokingly, "I understand the GAT Women's Golf-Committee will rule them out."

Following his introductory remarks, and with the aid of a viewgraph and transparencies, Jones gave a pictorial review of the various employee activities. He cited two clubs which have had a major project from their beginning the GAT Women's Club of Portsmouth, which assist the Happy Hearts School, and the GAT Outdoorsman Club of Jackson, which continually promote firearm safety among the teenagers in laundry department. the community.

form by percentage. Over lifty per

The highlight of GAT's recreation of the recreational budget goes tional program came at the Sixth toward two major activities designed week at the Portsmouth Elks Coun- the annual Picnic and the annual Christmas Party.

Trophy awards at the Banquet eligible to receive a trophy at this of Champions have increased year's banquet. The past year pro-through the years from approximate ly 150 to over 300. This increase is due to more activities being added to the over-all program. This year attended the banquet for the first for example, archery and the mixed golf outing were added to the program. Bowling continues to lead the way in the number of participants. Last year over 600 bowlers participlant site. Increased bowler interest is a national trend. This caused W A. Brown to quip: "I guess we have finally whipped the juvenile problem ... we have taken the kids off the streets and put them in the AL LEYS."

> The last transparent slide shown on the viewgraph asked the question, what can be expected in the future? Jones commented on this by stating that "it's up to you." "Whenever given activity," he said, "we will do everything we can to help add activity program." "The GAT recreational program depends on employee interest," he said, "Top management of Goodyear has always believed in the philosophy that well organized leisure time activities benefits the employee and the company."

Receiving a special word of thanks were four employees who assisted the recreation department in supervising the recreational activities after working hours. The employees were Ray McNaughton, cashier's department; Peg Ellsesser, plant engineering; Bill Stump, engineering costs & property records; and Dewey Wright,

Exercise Caution On Perimeter Road

Employees are reminded that wild deer inhabit the woods surrounding plant-site. Recently, several deer have been injured or killed while on the perimeter road.

GAT employees are urged to drive at low speeds and observe extreme caution to avoid hitting one of these animals. Extra caution should be exercised by those employees using the perimeter road at night.

No well meaning individual would want to hit one of these animals. In addition to the hazards of personal injury to the driver and the occupants of the car, property damage should be considered.

Election Day . . . A Day Of Choice!

This is my big day. They've made all the speeches, and debated all the promises. The issues have all been thrashed out. Now there's a strange kind of lull, and the leaders look at me. Who's made the best case? They want me, as a voter, to decide.

Once arguments weren't settled that way. The winner was usually the strongest. But that never proved who was right. Then somebody thought of voting instead of fighting, and we owe that man a monument.

We can get as excited as we like during an election. We can argue at the top of our voices. We can disagree right down the line. To other nations, this uproar looks and sounds trightening. They think we're coming apart.

But the day after, we close ranks and go forward. That's DEMOCRACY, and we think it's pretty wonderful. So do millions of others who wish they had it.

This business of making a choice now and then is one DUTY of the free man to his way of life. Because freedom isn't just the absence of tyranny. It's the presence of the square deal and helping hand, and the idea that our children can do better than we did. Freedom gives a man a chance to do his best. We have to work at freedom to stay free.

We say YES to all that every time we VOTE. We say YES to all the hopeful things freedom means to us and will mean to generations of Americans yet unborn.

GAT MALE CHORUS

The GAT Male Chorus, which rehearses each Tuesday beginning at 4:15 p. m., is in need of a piaco accompanist.

Any GAT employee desiring to participate with the Chorus as accompanist should contact R. A. Hook, chemical analysis department, or Marian Shawkey, finance division.

Rehearsals are held in a room adjacent to the safety department, 2nd floor, X-100 building.

THE CLAN COVER

GAT photographers Don Landstrom and Harlie Cantwell collaborated in producing the Class cover. The photograph of the trophies was taken with a 1/2" lens on 4x5 film exposed for 25 seconds at F45. Two bare spoilights were used to give the shadow effect.

STEADY NOW. Delores Hoover, SS Engineering Department, receives the first of two influenza inoculations from Nurse Helen Lewis, Medical Services Department, Delores will receive the last "shot" of the series next Monday. To date over 40% of the GAT employees have taken advantage of the flu immunization program.

INFLUENZA IMMUNIZATION PROGRAM

A recent check at the GAT hosof the 2-shot series. 685 employees able at GAT's hospital, had received both shots.

One measure of the success of an influenza vaccination program is its effect on absenteeism. A survey which was conducted last spring as a follow-up to the immunization program, to evaluate the effectiveness of the GAT Influenza Vaccination Program showed that the influenza vaccine had the apparent effect in reducing the number of cold-like and respiratory illnesses. Also, within the limitations imposed by the survey there appeared to be evidence that the use of influenza vaccine did reduce absentee hours due

Director. During this assignment Goodyear began manufacturing operations in New Zealand, which was and is roday responsible to the Production Director of the Australian

Hochberg, in his career with Goodyear, has helped to start five plants --- Argentina, Java, Woonsockett, New Zealand, and Goodyear Atomic, He assisted in the changeover of the New Bedford plant from textile to rubber production.

Hochberg and his wife Gladys have resided in Jackson since coming to Goodyear Atomic. During his residence in Tackson he has been active in the GAT Outdoorsman Club of Jackson. He is a member of the GAT Foremen's Club; Past-President and an honorary life member of the Goodyear Foremen's Club in Akron: and a Fellow of the Australian Instirute of Management which is comparable to membership in the American Management Association.

The organization in which he has been most active since coming to southern Ohio is the Southeastern Ohio Regional Council. He is past president of this group. The Council represents eight counties in Southeastern Ohio promoting the development of industry, transportation, mercantile business; agriculture, health, education, and recreation.

He is a member of various Masonic Bodies including the Chapter, Council, Commandery (Knight Templar), and the Shrine.

Annual Science Talent Search Now Underway

Exceptional high school seniors are conducted by Science Clubs of America. Awards to the winners include forty all-expense-paid trips to Washington, D. C. for the Science Talent Institute and \$34,250 in Westinghouse Science Scholarships and Awards.

A critical shortage of scientists exists in America today. The discovery and development of scientific ability among boys and girls now in high school is a major need. Real ability for creative research is rare, Opportunity must be provided for those students who show this creariveness. The Science Talent Search is designed to locate those with an investigative turn of mind, inquiring attitude, love of fact and the rare gift of scientific research ability.

champions. He noted the increased number of participants and congratulated the group on behalf of Goodyear Atomic Corporation. Other members of the Operating Committee making presentation of trophies to team captains and managers were: D. W. Doner, manager, industrial relations, to golf champions; W. L Sams, manager, finance division, golf champions; W. A. Brown, manager, plant engineering & maintenance, bowling tournament champions; Dr. C. R. Milone, manager, technical division: bowling league champions: R. M. Rutherford, manager, production division, bowling league champions; and C. L. Jenkins, manager, purchasing & materials division, archery, basketball, and softball league champions.

Probably the biggest trophy winner at GAT is Dick Entler, laboratory services, Since 1954, he has won 17 trophies participating in golf, basketball, touch football, and bowling. In 1959 and 1960 he has won the Company Golf Championship. On two occasions he has been a member of the Company Championship basketball team, and still another Company Championship as a member of a Touch Football Team.

The 1960 Banquet of Champions big winner was Dewey Wright, who walked off with 5 trophies - 3 in golf and 2 in bowling, Barbara Zoellner, reproduction department, won 4 bowling trophics.

R M Rutherford expressed appreciation on behalf of the employers to the "behind the scene" efforts of Ester Speck and Mary Burks, who assist the employee activities program in the office of the recreation made this comment: "Good recreadepartment.
