245 Pints Donated

Employees Respond During Semi-Annual Bloodmobile Visit

The January visit of the Huntington Regional Bloodmobile once again proved that GAT employees recognize the value of the American Red Cross Blood Program. A total of 245 pints of blood were collected during the two-day visit. The employees of this plant continue to play a very important part in the success of the Huntington Regional Blood Center. More important, is the assurance that GAT families will have the needed blood if serious illness develops and blood transfusions become necessary.

Blood collections for the Regional Blood Center which serves Southern Ohio, West Virginia, and Kentucky have been satisfactory to the point that the Center has been able to satisfy the hospital requests. The demand for Negative blood has sometimes been in short supply.

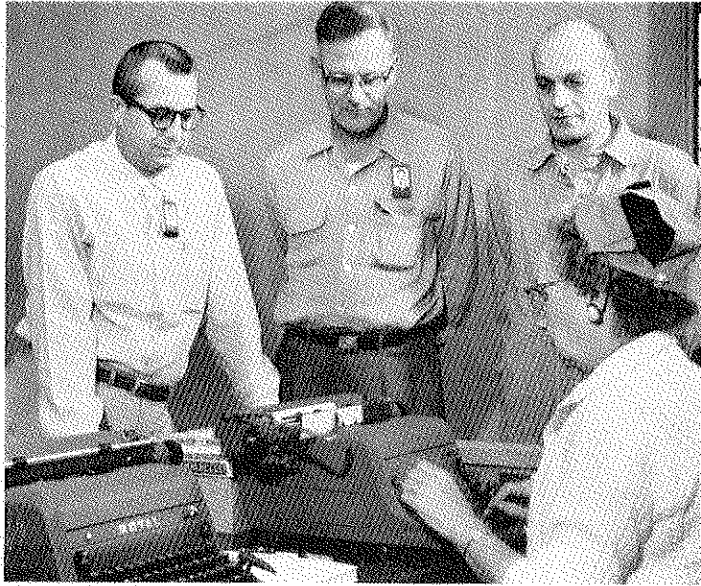

Since the Bloodmobile began making regular visits to the plant, GAT employees have contributed 3,566 pints to the GAT Blood Bank. The first visit was in 1953 and was a 1-day stop. In 1954, 2 one-day visits were made to the plant. Then in 1955, the Bloodmobile began the regular January-July visitations remaining for a two-day visit each time.

The 3,566 pints of blood have been collected during sixteen visits to plantsite. This averages 223 pints per visit. This is an excellent record for GAT employees.

At various times the community relations department receives inquiries concerning who is covered and the procedure to obtain blood when needed. To review the procedure, the GAT Blood Bank covers the employee, members of his family, his mother and father, mother-in-law and father-in-law, or anyone who is a permanent resident of the same household as the employee. If your physician prescribes blood, the hospital should be advised that you are a member of the GAT Blood Bank. The hospital has blood request cards which they use to notify the community relations department giving the name of the patient and the physician and the amount of blood to be replaced. If the employee knows that a member of his family will be hospitalized and that blood will be needed, he should contact the community relations department to process the request.

Goodyear Atomic Corporation is

(Continued on Page 2)

FIRST DONORS. R. O. Neff, "A" Shift Superintendent, W. A. Smith, Code Inspection, and W. H. Charlton, Utilities Maintenance, were the first employees to register as blood donors when the Huntington Regional Bloodmobile made its semi-annual visit to plantsite last month. At the typewriter is Mrs. Leo W. Lorbach, voluntary Red Cross worker from Waverly.

Your GAT Blood Bank

Blood Bank Program Depends On Employees

The employee response at the last Bloodmobile visit, to the special request, for increased numbers of blood donors was excellent. One hundred fifty-eight pints of blood were donated on January 18th. This amount, added to the 87 pints donated January 17th, exceeded the minimum required to remain eligible for participation in the Red Cross Blood Bank program by 20 pints. However, only 217 pints were donated during the July, 1960, Bloodmobile visit. Therefore 8 pints of the present overage will be applied to this deficit.

According to Dr. Paul F. Bliss, who administers the GAT Blood Bank, the Company has followed the concept that an individual's blood needs are extremely personal and should be treated as confidential. Therefore, no publicity has been given to the illness cases which have required blood transfusions. It is hoped that this type of personal need will always remain confidential. However, perhaps all of us should be aware of the activity of the GAT Blood Bank. For example, last July 217 pints of blood were donated. Employees requested 208 pints of blood. The surplus, therefore, was only 9 pints.

At this time the majority of GAT employees are in the 30 years of age range. We are told that men and women in this age range are basically healthy. Still, the surplus of blood in our GAT Bank is constantly di-

minishing year by year. There are probably many reasons for the increased use of blood by GAT employees. Undoubtedly the physicians and surgeons use transfusions in an ever-increasing number of illnesses. Open-heart surgery, for example, requires 26 pints of blood. This once rare operation is now done with greater frequency. Three open-heart machines are now available to the surgeons serving the area in which we live.

When it is realized that our GAT Blood Bank covers the blood needs of approximately 18,000 persons, it is not difficult to understand why, in the past 6 months period employees' families used 95% of the blood donated for use during that period.

It might also be worthwhile to outline the cost, administrative procedures, distribution, etc. concerned with blood collection. The local cost for Bloodmobile visits to GAT are borne by the Pike County Chapter, American Red Cross. All of the "gray ladies" who help with the clerical, administrative, and canteen service (plus one or two registered Nurses) are from Pike County. The Nurses who actually draw the blood, the attending physician, and the men who pack the drawn blood are all employees of the American Red Cross Huntington Regional Blood Center. It is estimated that the

JOINT RELEASE — OCAW AND GAT

January 12, 1961

Of interest to all employees is this joint release by the OCAW 10-689 and the Company, which grew out of an incident which occurred in the latter part of December, 1960, wherein an employee violated plant rules by bringing an intoxicating beverage into the plant. This employee resigned rather than face discharge for the offense.

Discussions between the Company and Union have resulted in rehiring this employee with service, but with no pay or service for the period of 30 calendar days during which he was off the payroll. These discussions have also resulted in the following understanding.

Any employee who violates plant rules by bringing contraband, such as cameras, firearms, or intoxicants into the plant will, by his act, be subject to immediate discharge.

OIL, CHEMICAL AND ATOMIC WORKERS INTERNATIONAL UNION, LOCAL 10-689 /s/ J. K. Stevenson, President
GOODYEAR ATOMIC CORPORATION /s/ D. W. Doner, Manager Industrial Relations Division

Atomic Employees Credit Union

Payment of 5½ per cent dividend on all share accounts has been declared twice within the last year by the Board of Directors of the Atomic Employees Credit Union. The total of these dividends amount to \$30,793.67. The total dividends declared since the beginning of the Credit Union amounts to \$75,308.14. Total loans made as of November 30, 1960 amount to \$2,315,497.71.

DALE SCHUMACHER
Heads Credit Union 2nd Year

At the Annual Shareholders Meeting on January 24th, held in the Waverly High School, the Board presented the financial statement for the Credit Union as of November 30, 1960. This statement disclosed an increase of \$88,433.82. in assets over the previous year and a total membership which shows that 75% of all Goodyear Atomic employees now authorize payroll deductions.

On November 30, 1960, employee Credit Union Savings totaled \$862,941.37. During the year, more than \$700,000 in loans were granted to members. Net profit amounted to \$45,973.17. A total of 1,032 loans

to the sum of \$783,822.45 were in the hands of the borrowers on December 31, 1960.

Tabulation of ballots in the Annual Election conducted at the Shareholders' meeting revealed that D. E. Schumacher, C. A. Romine, and C. P. Work will serve three year terms on the Board of Directors. E. T. Crace will serve as a Director for two years. Other Directors are A. H. Clary, W. L. Juhn, M. T. Trowbridge, J. E. Hale, and L. T. Oyler. J. O. Brooks was elected to serve on the Credit Committee for a three year period. W. McKee was elected to work with the Audit Committee for the next three years. P. E. Rodecap will be a member of the Audit Committee for one year. C. A. Cottle is also a member of the Audit Committee.

Officers for the coming year were elected by members of the Board of Directors as follows: D. E. Schumacher, President; C. A. Romine, Vice President; W. L. Juhn, Secretary; and L. T. Oyler, Treasurer.

Service Anniversaries

The following employees will receive five-year service emblem awards during the month of February:

L. McNeal	J. A. Fraley
P. J. Geichman	C. Conley
F. J. Musil	A. G. Willis
J. H. Jones	G. W. Oliver
J. E. Biscanto	C. C. Hamilton

1960 GAT's Safest Year

Goodyear Atomic Corporation Faces Great Challenge In 1961 To Improve Safety

How do you beat previous records? This question was asked of the Industrial Relations Division January 20, at the division's quarterly safety meeting. The question was posed by D. W. Doner, division manager, and then he proceeded with his answer.

"Our Division . . . and our Company," Mr. Doner said, "faces the greatest challenge that we have ever faced." "The Industrial Relations Division has been a part of past records . . . and certainly will play an important part in future accomplishments."

He then reviewed the responsibilities of each subdivision. The personnel services subdivision has the responsibility for training GAT employees . . . aiding in developing a safe attitude among our employees. The medical subdivision provides protective health measures. The community relations department shares in the responsibility to publicize and disseminate safety information. Finally, but not least by any means, the safety & fire protection subdivision is the very heart of the entire safety program.

Mr. Doner presented the Division Manager's Safety and Housekeeping trophy to C. L. Stewart, superintendent, safety & fire protection in recognition of this subdivision's excellence as recorded during the recent inspection. Mr. Stewart, in turn, gave credit to the subdivision employees . . . "especially the fire department." Mr. Doner pointed out that the percentage of difference between the

highest and lowest in the division was a mere 2.3 percent.

J. O. Brooks, safety department, reviewed the safety program from 1953 through 1960 . . . pointing out that 1960 was GAT's safest year of operation. During the year the frequency rate was 0.24 and the severity rate 92. A total of 1673 minor injuries were reported, 10 temporary partial disabilities, and only 1 disabling injury. "This steady and marked improvement," Brooks said, "indicates a sincere effort and honest desire of every GAT employee to make Goodyear Atomic Corporation a safe and pleasant place to work."

As of January 30, 1961, GAT employees have worked 2,655,000 manhours without a disabling injury.

Appointed Governor Ohio Archers Ass'n

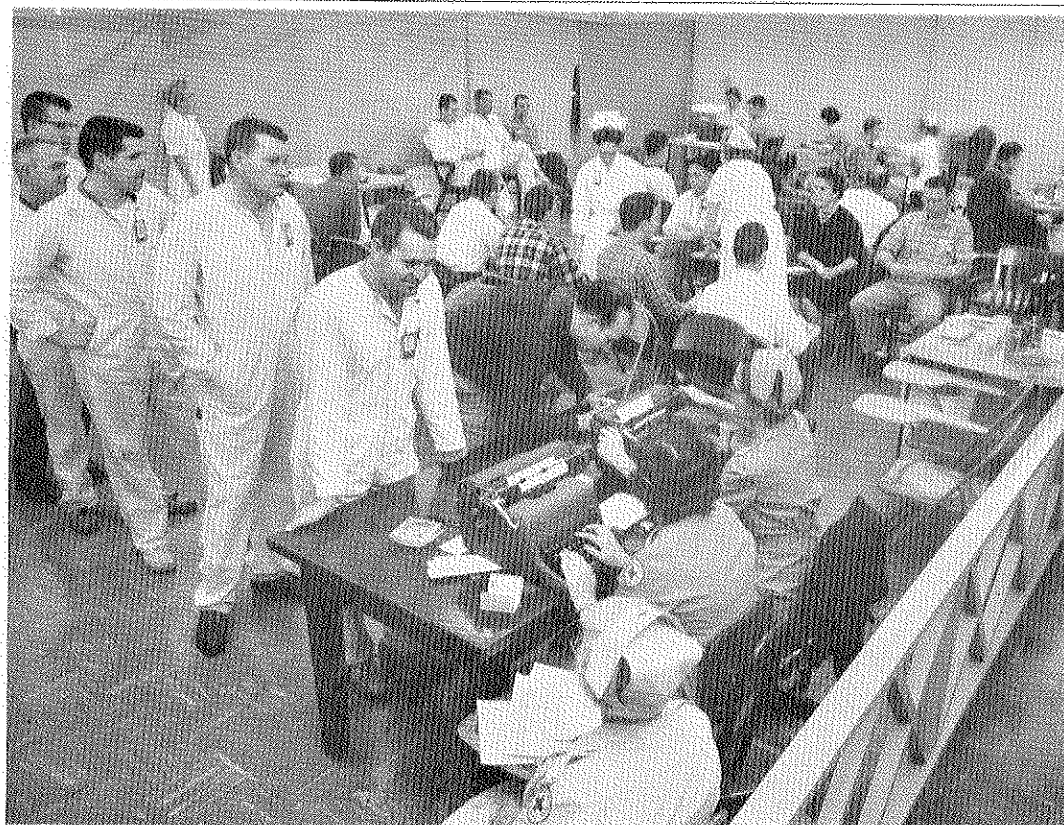

J. P. Hortel, utilities maintenance department, has been appointed Governor, District 7, of The Ohio Archery Association. His appointment is for calendar year 1961.

The Ohio Archery Association has more than two-hundred affiliated clubs throughout Ohio. The Association promotes state championship tournaments in field archery, target archery, and archery golf.

Hortel has been active in local archery groups for the past five years. He is a past-president of the Pike Bowhunters (now Forest Hills Archery Club) and is presently the secretary-treasurer. He is the acting president of the Ohio River Archery Association.

WINS SAFETY TROPHY. C. L. Stewart (right), Superintendent, Safety & Fire Protection Subdivision, is presented the Division Safety & Good Housekeeping Trophy by D. W. Doner, Manager, Industrial Relations Division. The Division includes the Medical, Personnel Services, and the Safety & Fire Protection subdivisions; also the Industrial Relations Staff which includes Community Relations and Recreation Departments.

THE BLOODMOBILE visit on January 17-18 resulted in a collection of 245 pints despite a disappointing total the first day of only 87 pints. Pictured above are GAT employees who were among the 158 donors the second day. In the foreground are voluntary Red Cross work-

ers handling registrations. From left with back to camera: Mrs. Elmer Shoemaker, Mrs. Henry Steinhauer, and Mrs. George Smith. Nurses in the center are Miss Bertha Rice, ARC, Huntington, and Mrs. H. A. Ford of Waverly.

TAXES AND YOUR FAMILY RECORDS

Family record keeping probably comes under the same heading as mowing the lawn and cleaning out the attic, and are among the things you would most like to avoid in your leisure time. However, carefully prepared family records can pay off in dividends . . . tax-refund type dividends. In order to take advantage of any of the many legitimate tax deductions you are allowed, you must have adequate records.

Perhaps the possibility of cash savings will prompt you seriously considering the suggestions given here by the American Institute of Certified Public Accountants.

You can deduct medical and dental expenses in excess of 3 per cent of your adjusted gross income. Medical and dental expenses include not only doctor and dentist bills, but also such things as X-rays, hospital aids.

Drugs in excess of 1 per cent of your adjusted gross income can be deducted as a medical expense. However, you must be sure to segregate drug purchases from other things you buy at the drug store. Toothpaste, cosmetics, and toiletries can't be included. Neither can vitamins, iron supplements, or other formulas taken to preserve your general health. However, there are many drugs and medicines you can buy without a prescription that will allow a deductible expense. Such things as headache and cold remedies, lotions to heal cuts and bruises, and so on.

The federal tax law allows a very liberal deduction for charitable giving. An important point to think about here is that your charitable contributions can be made in forms other than cash. For example, you

can give shares of stock, land, furniture, clothing, and so on. The deduction you are allowed for items other than cash is measured in terms of the value of the item at the time you give it.

The Internal Revenue Service has prepared a taxpayers' guide for figuring out sales tax deductions on itemized income tax returns.

Taxpayers will not be asked to produce records to support sales tax deductions unless they are more than the amount on the guide table.

Until now a taxpayer could claim as his sales tax deduction 1 per cent of his adjusted gross income—that is everything he earns or receives as a profit, less sick pay. Maximum deduction was \$100. Actual tax on major purchases during the year . . . such as home appliances or autos . . . could be added to the 1 per cent figure.

This meant that a taxpayer earning \$5,000 a year could claim \$50 as a deduction. If he bought a \$2,000 car he could add the \$60 in tax, totaling \$110.

Under the new guide, the same taxpayer would get \$62. If he claims more, he has to produce the records.

If you contribute to the support of a relative, it may be advantageous to list your contributions each month. You may be giving cash regularly, but other items such as food and clothing also count and may be important in showing that you contributed enough during the year to claim a dependency exemption for the relative.

You must keep a record of any additional income you receive. Such

(Continued on page 3)

BLOODMOBILE VISIT

(Continued from Page 1)

recognized as one of the better stops along the route of the Huntington Regional Bloodmobile. The credit for this recognition go to the employees. Because it is YOUR BLOOD BANK.

As long as we collect the number of pints of blood equal to 10% of our total employment your GAT Blood Bank will continue.

GAT BLOOD BANK

(Continued from Page 1)

total cost, per day, is approximately \$500.

The Huntington Regional Blood Center includes facilities to process and store whole blood. The whole blood can be kept for 21 days. If the blood is not used within the 21-day period, it is processed into plasma or other blood derivatives. The Huntington Regional Blood Center maintains an association with all other ARC Blood Centers and exchanges blood credits in much the same manner as the Federal Reserve System exchanges monetary credits. This system enables a GAT employee to secure needed blood from any one of the 55 Blood Centers throughout the United States.

The GAT Blood Bank receives blood credits equal to 70% of the total number of pints donated. The Huntington Regional Blood Center and the local Chapter of the American Red Cross hold 30% for use in case of a disaster and for use by the military.

The GAT Blood Bank offers two great advantages. First, and most important, it assures that blood will be available in time of need. Second, the blood is furnished without hospital charge and without the burden of securing replacement donors.

Member, Association of Nuclear Editors and affiliated with the International Council of Industrial Editors.

A GOOD NEIGHBOR

As a Company, and as individuals, Goodyear Atomic Corporation has accepted willingly the responsibility as a good neighbor in promoting good relations within surrounding communities.

Together, a joint contribution of \$20,054.10 was made to the area wide United Fund/Community Chest Campaigns last year.

Goodyear community relations is a continuous thing and requires the attention and support of every employee if the good neighbor policy is to continue to be effective.

Many employees, although not acting as official representatives of GAT, contribute their services throughout the year to schools, clubs, churches, and civic organizations in their communities. These services have ranged from formal addresses explaining the nuclear energy industry to meetings of local civic groups to acting as advisors for high school students contemplating a career in science; from serving as judges at a Science Fair, to holding office in various professional associations in the area. In addition many worthwhile community activities are supported by GAT employees. These activities include everything from Scouting and Little League Baseball, to municipal government.

It is important to remember that each of us, as an employee of Goodyear Atomic Corporation, is engaged in community relations. The people who live next to us, our families, associates and friends, all regard us as being representative of Goodyear Atomic Corporation. As such, we play an important role in determining what the people of the entire area think of us.

TAX RECORDS

(Continued from page 2)

income as interest on a savings account and a credit union account, gambling winnings, prizes, dividends and so on. Any additional income must be added to your wage or salary when determining your taxable income.

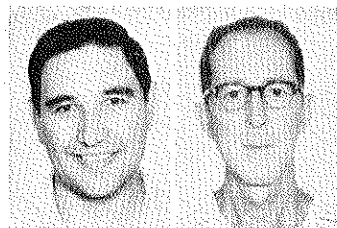

Always keep your cancelled checks, paid bills, and other records together. At the end of the year, simply tally up your deductible expenses and you will have most of the information you need to make your income tax filing an easier task. You will also be able to ensure for yourself the maximum amount of legitimate tax deductions.

Employees who have questions on this subject may telephone either the Chillicothe or Portsmouth Internal Revenue office. In Portsmouth the office is located in the Post Office building . . . telephone ELmwood 3-7769. The Chillicothe address is 81 South Paint Street, telephone PROspect 3-3386.

All income tax returns should be mailed to the District Director of Internal Revenue, Cincinnati, Ohio. The Columbus office no longer exists.

Following is the tax table:

Adjusted Gross Income	Sales Tax Deduction
Under \$1,000	\$ 19
\$ 1,000 to \$ 1,499	\$ 19

A. P. Romero J. G. Ewing

February Safety Slogan Winners

One-hundred and forty-five safety slogans were submitted during the period December 21, through January 20, which were considered for the February contest.

February winners are: A. P. Romero, process laboratory department, and J. G. Ewing, water treating department.

Mr. Romero's winning slogan is "Help Safety Help You."

The second winner for the month, Mr. Ewing, presented this winning slogan: "Your Best Safety Award Is Your Own Safety."

Each winning employee will receive the customary \$10 cash award. The slogans will be considered in the next six-month safety slogan contest.

New Worthy Advisor Rainbow For Girls

Donna Rae Gillespie, daughter of R. H. Gillespie, SS materials handling department, was recently installed as Worthy Advisor of Wellston Assembly 102, Order of the Rainbow for Girls.

Miss Gillespie became Worthy Advisor at an installation ceremony held on January 21, in the Christian Church at Jackson. She is a 1960 graduate of Jackson High School and a student at Ohio State University in the College of Education where she plans to major in educational guidance and counseling. She is a member of Kappa Phi, Methodist Women's Organization.

The Order of Rainbow for Girls was organized by W. Mark Sexson at McAlester, Oklahoma, in 1922. It is an international organization with assemblies throughout the United States and in a number of foreign countries. The Order, which is composed of teen-age girls, teaches ten basic precepts. Belief in the existence of a Supreme Being; the great truths in the Holy Bible; dignity of character; a concept of the higher things in life, effective leadership; church membership; patriotism, co-operation; love of home, and above all, service to humanity.

Next Week Marks Fifty-First Anniversary Of The Boy Scouts Of America

Boy Scout Week, marking the 51st anniversary of the Boy Scouts of America, will be observed from Tuesday, February 7, through Monday, February 13. This year's theme is "Strengthen America . . . Character Counts."

Top members of Boy Scout troops and Explorer posts will make reports to local organizations, service clubs, and school assemblies. A district representative from the Scioto Area Council and the Chief Logan Council will take part in ceremonies at the state capital.

Each of the twelve Boy Scout regions will select a Scout or Explorer to represent the regional service areas. The twelve selected become the Report To The Nation Group. The twelve will go to Washington, D. C., to deliver the National Report of the Golden Anniversary Year of Scouting to the White House and meet some of the nation's leaders.

Those chosen will be between 14 and 17 years of age, hold the rank of Eagle Scout and the Religious Award of his faith, and epitomize the best of Scouting as evidenced by his personal, scout, school, and church record.

Boy Scout Sunday will be observed February 12. Cub Scouts, Boy Scouts, Explorers, and their leaders will attend services in uniform and many will hear sermons emphasizing the national theme. Scouts of the Jewish faith will attend Scout Sabbath services Friday evening, February 10, and Saturday, February 11.

At these religious services, Scouts who have completed the requirements will receive the religious awards of their faith. The requirements include: a knowledge of church history, scriptures, participation in church activities, and service in special projects assigned by their minister, priest, or rabbi.

Nationally, more than 50% of the Scout units are sponsored by religious organizations. The religious awards are not Scout awards but are given by Churches and synagogues.

WISE OWL CLUB

L. E. Hayth, welding shop department, recently was awarded membership in the Wise Owl Club of America. The recommendation was made

L. E. Hayth

because his wearing safety glasses saved him from serious eye injury. Hayth was wearing his safety glasses while chiseling slag from a converter in the X-700 building. As he was chiseling the slag, the end of the chisel broke. One of the broken pieces struck Hayth on the left lens of his safety glasses. The fragments struck with such force, it knocked his glasses off and completely destroyed the left lens and broke the rim of the glasses.

The safety glasses saved his eyes from possible serious injury.

They are: Ad Altare Dei for Scouts of Roman Catholic faith; Alpha Omega, Eastern Orthodox Catholic Church; "Duty to God" Award of the Church of Jesus Christ of Latter-Day-Saints; Ner Tamid Award, Jewish; Pro Deo et Patria, Lutheran; God and Country Award for Protestant denominations; and the Sangha Award for Buddhists.

The sun never sets on the Boy Scouts of America. In addition to 531 local councils serving the 50 states, Puerto Rico, Virgin Islands, and the Canal Zone; the Transatlantic Council at Heidelberg, Germany, provides Scouting for 20,417 American boys and leaders in 15 European, North African, and Middle East countries. The far East Council provides Scouting for 7,105 American boys and leaders in four countries. In 36 other countries there are 168 other units with 6,720 Scouts and leaders who report direct to the National office.

The Chief Logan and the Scioto Area Councils derives the major portion of its financial support from Community Chest / United Fund. This year Chief Logan Council will receive \$16,242.27 from the Ross County United Fund. Scioto Area Council will receive \$23,000.

President Kennedy Active In Boy Scouts

When he took the oath of office as President of the United States, John F. Kennedy became the first President, who in his youth, was a Boy Scout.

President Kennedy was a Boy Scout in Troop 2, Bronxville, New York from October 1929 to June 1931.

He has been active in the Boston Council since 1946. He has served as a District Vice Chairman, member of its Executive Board for more than four years, Vice President one year, National Council representative for two years, and local council member since 1955.

His Bronxville troop has been active since 1917. Today it has 41 Scouts and 13 adult leaders and meets Tuesdays in the Bronxville Troop Cabin which was provided by the community many years ago. Donald A. MacKinlay, Scoutmaster when President Kennedy was in the troop, now resides at Urbanna, Virginia.

President Kennedy is the third President who has been active as an Adult Scouter in the Boy Scouts of America, before entering the White House.

President Franklin D. Roosevelt was President and one of those who helped organize the Greater New York Councils before his election in 1932. President Eisenhower, now Honorary Vice President, B.S.A., has been a member of the National Executive Board of the Boy Scouts of America since 1948 and became a Life Member of that board last October on his 70th birthday.

Fourth Annual Mixed Bowling Outing

The final results of the Fourth Annual Mixed Bowling Outing showed that Pat Henson and Howard Galloway came in first with a score of 1260. (See photograph this page). Mr. and Mrs. Bill Ellis were second with 1240. Winnie Chase and Paul Yinger had 1228 which was good for third place. All three winners earned the right to attend the Banquet of Champions next fall. Ellis is in the surplus and salvage sales department. Winnie Chase, is the wife of R. W. Chase, cascade coordination, and Yinger is in the stores department.

For what it's worth . . . the team of Opal Good and Dewey Wright had a combined total of 1112 good for 53rd place. This score evoked the comment from other bowlers that neither bowler felt their score to be: "GOOD or RIGHT!"

9 Strikes In A Row

Wilkerson Sets High Game And Series

Jack Wilkerson, plant engineering, came up with the season's high game and series last Wednesday night in the GAT Bowling League of Chillicothe.

He finished the first game with 4 straight strikes and a respectable 189. He began the second game with a strike, stringing 9 in a row, for a 275. Most GAT bowlers would settle for his score in the third game . . . a 202. In this game he had 4 misses including a 3rd frame split. In the middle of the game he had 5 strikes in a row, giving him 19 strikes for the evening's bowling. His series total was 666.

GAT BASKETBALL LEAGUE ACTION. Harlie Cantwell, GAT Photographer, snapped these candid shots of the GAT Basketball League in action. The above scenes were taken during the meeting of the "Untouchables" and the "Lab Techs". At the time both teams were undefeated. Pictured left is Bill Gundlah of the "Untouchables" driving in for a score. The center photograph shows a foul shot scene. Norm Christopher (15)

has just let go a successful free throw. Others along the lane are: Bill Gundlah (21), Hony Armstrong (12), and Bob Mays (10). On the right side of the free throw lane are Dick Entler, Don Scott, and George Kaut. Referees are Bob Ryan (foreground), Garage Department, and John Shupert. The "Untouchables" won 87-35 to take undisputed possession of first place in the league.
