

THE WINGFOOT CLAN

GOODYEAR ATOMIC CORPORATION A Subsidiary of THE GOODYEAR TIRE & RUBBER COMPANY

VOLUME IX

PIKE COUNTY, OHIO, WEDNESDAY, JUNE 6, 1962

NUMBER 17

YOUR EFFORTS EARNED THIS TITLE. At midnight last night (June 5), the employees of this plant had worked an estimated 7,320,000 manhours without a lost-time injury. Upon completion of the workday this Friday, June 8, you will have worked two consecutive years since the last disabling injury. All Goodyear employees have a right to be proud of this accomplishment.

Dates Are July 10 - 11

Headquarters For Next Bloodmobile Visit Changed To South Wing - X-100 Building

Goodyear Atomic employees are reminded of the next Bloodmobile visit to plantsite.

The Huntington Regional Bloodmobile will make its semi-annual visit to GAT July 10 and 11. Headquarters will be set up in the south wing of the X-100 building, first floor, adjacent to the utilities operations offices.

Goodyear's philosophy on the American Red Cross program is summed up in a statement by E. J. Thomas, Chairman of the Board, The Goodyear Tire & Rubber Company, when the Summit County Red Cross Bloodmobile visited GT&R in Akron last April.

"I hope each member of management will encourage employees who have not donated before as well as veteran donors to make their price-

less contribution when the Bloodmobile visits us next month.

"The Red Cross cannot be successful in the work of mercy and charity, which has saved the lives of hundreds of our neighbors, unless we pitch in and help. This means we must not only meet our quota for this visit, but we must do everything to surpass the quota as far as possible."

Only once since the Bloodmobile has been visiting Goodyear Atomic Corporation have the employees failed to contribute at least 200 pints toward the Huntington Regional Blood Center.

At the last visit, in January, 1962, the employees of this plant set a record by contributing 339 pints.

WILL WE DO AS WELL NEXT MONTH?

GAT Will Sell Government Surplus Property This Friday

This Friday, June 8, Goodyear Atomic Corporation will conduct a surplus property sale beginning at 2 p. m. The property will be sold by sealed bid at the Surplus and Salvage Warehouse No. 4.

Property to be sold consists of the following: 200 tons scrap steel; 50,000 lbs. scrap copper; 10,000 lbs. scrap monel; 11,900 lbs. Aluminum ingots; 380 ozs. scrap silver; 2 Monarch lathes (10"); 1,000 lbs. scrap plastic; 10,000 lbs. cotton rags; two 1954 Dodge Pickup trucks; one 1955 Chevrolet Sedan Delivery; three 1955 Ford Sedans; one lot of miscellaneous electrical hardware; and one lot of miscellaneous mechanical hardware.

Bid forms will be furnished at the

sale site. A bid deposit of 10% is required.

Inspection of the material to be sold may be made between 8 a. m. and 2 p. m. up to and including the day of the sale.

Further information may be obtained by contacting C. F. Ray, telephone extension 2253.

THE SEATTLE WORLD'S FAIR

A "magic carpet" introduction to Monorail and the Century 21 Exposition has been provided for visitors traveling from downtown Seattle to the World's Fair.

The magic carpet is a pair of moving rubber ramps that carry passengers from the ground level to the elevated station, where they board high-speed trains for the exhibit area.

Two more ramps, built by Stephens-Adamson Manufacturing Com-

pany, Aurora, Illinois, are provided for the return to street level.

The Seattle installation is the second union of Speedramp passenger belt units with the modernistic train system. At Disneyland, in Southern California, passengers have been riding on special passenger belts for four years as they move to and from trains.

In each case, the moving sidewalks provide passenger convenience, according to engineers of The Goodyear Tire & Rubber Company who designed the belts. Safety in all

weather is assured by a ribbed surface on the belts, which are mated with special supporting structure and mechanical equipment.

While the new moving sidewalks are a first for Seattle, eight similar units are in use in nearby Tacoma where downtown hills have been flattened for pedestrians who now ride up and down the steep inclines on the belt sidewalks.

Some 60 other installations in department stores, shopping centers, airport terminals and sports arenas also have been made throughout the United States.

College Admission Story

Goodyear Atomic employees, who have a high school upperclassman in the family interested in going to college, should be interested in a film entitled, "The Days of Confusion: The College Admission Story."

There are over 1,300 senior, medical, professional and teachers' colleges in the country. It is becoming more and more difficult for a student to gain admittance to the college of his choice.

for Chamber of Commerce. He also served as secretary for this organization. Currently, he is vice-president of the Waverly Toastmaster's Club.

A graduate of the University of Colorado, he holds a bachelor's degree in chemical engineering and a professional engineer's license from the State of Ohio. He is a member of the American Institute of Chemical Engineers.

Murray is married and the father of three children.

With the ever increasing enrollment figures in the colleges and universities, it takes planning and it takes know-how to gain college admittance, at least to the reputable schools with select admittance requirements.

The Armstrong Circle Theatre recently presented a timely account of this increasingly-frustrating circumstance during an hour-long television program. GAT has obtained a kinescope of the program for showing in three areas June 11-12-13, 1962.

On June 11, the film will be shown in the Chillicothe West Fifth Street School; in the Portsmouth High School on June 12; and in the Waverly High School on June 13. All showings begin at 8 p. m.

Goodyear Atomic employees with high school juniors or seniors in the family are urged to see this film.

The show points up problem areas frequently encountered by the student seeking college admittance.

Murray Promoted To Dept. Supervisor

Robert G. Murray

Robert G. Murray, mechanical development department, was recently promoted to supervisor of the department replacing D. B. Crandall who resigned from the

Company.

Murray joined Goodyear Atomic Corporation in September, 1953.

A resident of Lake White, he is past-president of the Waverly Jun-

FROM THE FAIR. Seattle World's Fair visitors returning to downtown are carried to street level from an elevated Monorail station on Stephens-Adamson moving rubber sidewalks as a high-speed train zips by overhead. The Speedramp passenger conveyor system featuring special Goodyear belts provides a magic carpet introduction to the fair and Monorail.

CONGRATULATIONS & BEST WISHES TO CLASS OF 1962

The *Clan* is proud to recognize the sons and daughters of Goodyear Atomic employees who have graduated from area high schools. The young men and women pictured on this page represent several high schools in the surrounding area as members of the graduating class of 1962. Goodyear extends congratulations and wishes them a very successful future.

NAMES OF GRADUATES FROM LEFT TO RIGHT. ROW ONE: Thomas B. Carter, Wheelersburg High School, son of K. L. Carter, D/422; Carol Ann Lallow, Portsmouth High School, daughter of F. J. Lallow, D/813; Michael D. Hyland, South Webster High School, son of F. D. Hyland, D/202; Karen Kelley, Chillicothe High School, daughter of H. E. Kelley, Subdivision 850; Walter W. Weeks, Jr., Portsmouth East High School, son of W. W. Weeks, Sr., D/811; Sara Beth Gillespie, Jackson High School, daughter of R. H. Gillespie, D/512; Richard W. Pritchett, Piketon High School, son of R. C. Pritchett, D/732; Sandra Jo Thompson, Chillicothe High School, daughter of W. B. Thompson, D/817; Bill Brooks, Beaver High School, son of J. O. Brooks, D/252.

ROW TWO: Mary Isaman, Coalton High School, daughter of Virginia Isaman, D/311; Pat Simpson, Chillicothe High School, son of W. R. Simpson, D/421; Mary Lou Watts, Chillicothe High School, daughter of H. Watts, Purchasing Subdivision; Billy Eakins, Millersburg (Ky.) Military Institute, son of W. P. Eakins, D/815; Lois Ann Baker, Jackson High School, step-daughter of L. M. Woolum, D/856; Dave Baughman, Coalton High School, son of A. L. Baughman, D/815; Carol Ann Eberts, Hamden High School, daughter of J. R. Peters, D/732; Stephen C. Bowman, Jackson High School, son of C. E. Bowman, D/527; Patricia Newell, Valley High School, daughter of J. F. Newell, D/858.

ROW THREE: Allen Gattrell, Piketon High School, son of

W. R. Gattrell, D/711; Billie Jean Bloomfield, Portsmouth High School, daughter of W. H. Bloomfield, D/815; Phillip Thompson, Russell (Ky.) High School, son of W. D. Thompson, D/726; Mary Sharon Neal, Beaver High School, daughter of G. L. Neal, D/732; Larry J. Allen, Beaver High School, son of J. L. Allen, D/852; Judy Ray Peters, Huntington (Ross Co.) High School, daughter of J. R. Peters, D/732; James B. Wood, Valley High School, son of J. W. Wood, D/561; Judy Scott, Waverly High School, daughter of C. V. Scott, D/301; Richard H. Zigler, Chillicothe High School, son of M. R. Zigler, 420 Subdivision.

ROW FOUR: Jane Lee Bullard, Portsmouth High School, daughter of John Bullard, D/734; Reed H. Walters, Jr.,

JUNE SAFETY CONTEST WINNERS

Walter Friend

The period April 21, through May 20, was a lean period of time for the safety slogan contest. Only 17 slogans and 7 safety telephone messages were submitted for consideration in the June contests.

The winning slogan for the June Safety Slogan Contest was presented by Walter J. Friend, carpenter & paint shop.

Mr. Friend's winning slogan is:

"Be Careful
Spring May Be Your
Fall Season"

The winning telephone message for June was submitted by Charlotte L. Webb, industrial relations division.

She presented the following message:

"Many factors have entered into our outstanding safety record. Of prime importance has been the preplanning of safety into all operations of this plant, compliance with safe working procedures, and using the prescribed protective equipment for our respective jobs.

Each of us has the responsibility of avoiding unsafe acts. Remember — NO job is so important nor so urgent that we cannot take the time which is necessary to perform our work safely."

Each winning employee will receive a \$10 cash award and the winning slogan and message becomes eligible for the annual award.

Charlotte Webb

Waverly High School, son of R. H. Walters, Sr., D/724; Janet Smith, Wheelersburg High School, daughter of P. E. Smith, D/375; William C. Darst, Jr., Waverly High School, son of W. C. Darst, Sr., D/721; Pam Ostroski, Chillicothe Catholic Central High School, daughter of A. S. Ostroski, D/527; Edward E. Mills, Portsmouth Notre Dame High School, son of Mary A. Mills, D/531; Cynthia S. Beall, Waverly High School, step-daughter of R. L. Farr, D/535; Billy M. Farmer, Pike-ton High School, son of L. Farmer, D/424; Lenna Shawkey, Waverly High School, daughter of Marian Shawkey, D/301.

ROW FIVE: Jack Bush, Portsmouth High School, son of A. J. Bush, D/732; Margaret Elaine Redman, Waverly High School, daughter of C. E. Redman, D/814; Thomas P. Salsman, Portsmouth Notre Dame High School, son of R. L. Salsman, D/512; Diane Doyle, Waverly High School, step-daughter of V. J. DeVito, Subdivision 510; Larry G. Throckmorton, Portsmouth High School, son of Jan Throckmorton, D/522; Edith Chase, Waverly High School, daughter of R. W. Chase, D/817; James W. Johnson, Jr., Wellston High School, son of I. W. Johnson, Sr., D/722; Carolyn K. Hall, Minford High School, daughter of J. F. Hall, D/514; Richard E. Egbert, Portsmouth High School, son of Wyvetta Allen, 4/422.

ROW SIX: Jane Elizabeth Hacker, Jackson High School, daughter of W. J. Hacker, D/721; Daniel K. Justice, Portsmouth Clay High School, son of Broxie Justice, D/426; Judith Linn Bennett, Huntington (Ross Co.) High School, daughter of A. H. Bennett, D/731; Kenneth B. Woodrum, Portsmouth High School, son of Kenneth P. Woodrum, D/731; Judith Rhea, Portsmouth High School, daughter of J. T. Rhea, D/111; Gary D. Burggraf, Chillicothe High School, son of R. C. Burggraf, D/535; Phyllis Ann Lee, Minford High School, daughter of A. E. Lee, D/426; Chris Gibbs, Piketon High School, son of R. D. Gibbs, D/731; Priscilla Jean Stambaugh, Chillicothe High School, daughter of R. B. Stambaugh, Subdivision 520.

ROW SEVEN: Fred P. Bice, Waverly High School, step-son of G. H. Moore, D/732; Susan Parker, Chillicothe High School, daughter of L. E. Parker, D/351; Kenneth H. Edwards, Jr., Piketon High School, son of K. H. Edwards, Sr., D/731; Cindy Fleming, Portsmouth High School, daughter of R. C. Fleming, D/224; Charles V. Barr, Portsmouth High School, son of G. M. Barr, D/851; Cheryl A. Cook, Minford High School, daughter of Ruth Cook, D/211; Dee Hacquard, Portsmouth High School, son of L. D. Hacquard, D/551.

IN MEMORIAM

Marion Casari, 34, died May 23, 1962, in Chillicothe, Ohio. Her husband, Robert B., is in plant engineering.

Zane Johnson Wins Superior Rating At State Science Fair In Toledo

Zane Johnson, son of G. F. Johnson, electrical maintenance department, won state honors with his Science Fair project.

Zane exhibited a project on the "Magnetic Amplifier" at the State Science Fair sponsored by the Ohio Academy of Science at the University of Toledo last month. He won a rating of superior. This is the highest given in statewide competition.

Johnson, a freshman, along with three other Minford students, Patri Stone, Helen Brisker, and Bonnie Wheeler, all seniors, qualified for the State Fair after winning superior ratings in the district judging at Ohio University. Johnson was a winner earlier at the regional fair at Marshall University.

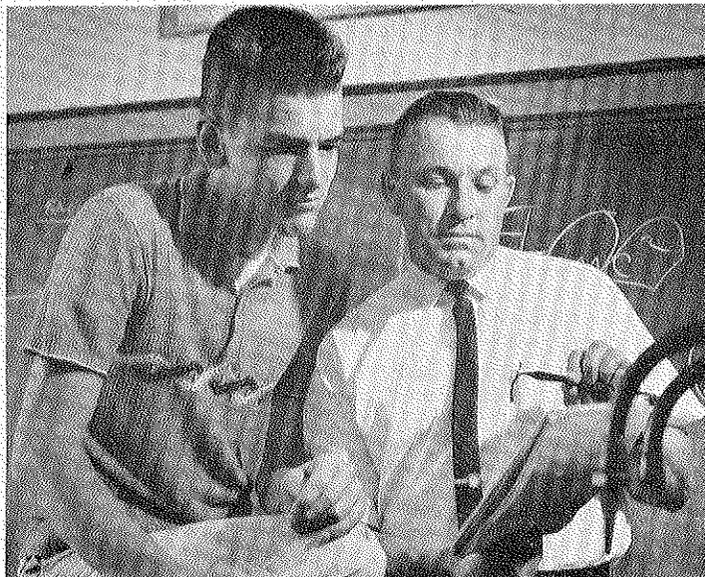

He has been invited to exhibit his project at the Scioto County Fair in August and the Ohio State Fair in Columbus in September. He will be a member of the sophomore class at Minford this fall.

Service Anniversaries

The following employees will receive their five-year service emblem awards this month.

D. Y. Hutton	G. D. Althouse
G. H. Johnson	K. W. Schucker
V. E. Hughes	W. C. Darst

WINS STATE HONOR. Zane Johnson (left), discusses his winning Science Fair Project with H. E. Everling, Minford High School Principal. Johnson's project won a superior rating in State Science Fair competition at the University of Toledo. His father, G. F. Johnson, is in the Electrical Maintenance Department.

THE WINGFOOT CLAN

GOODYEAR ATOMIC CORPORATION

Portsmouth Area Gaseous Diffusion Plant

Published semi-monthly in the interest of employees of the Goodyear Atomic Corporation.

You Are A Receptionist!

RHETHA MASSIE . . . GAT Receptionist

When a visitor calls at Goodyear Atomic Corporation, the first person he meets is our receptionist . . . Miss Rhetha Massie. The visitor, therefore, gets the first impression of our Company from her.

Miss Massie, who is a member of the GAT police department, represents all GAT employees as she greets the visitors in the main lobby of the X-100 building. When she smiles, the whole Company smiles so far as the visitor is concerned. People often unconsciously judge a Company by the first employee they meet.

WHETHER WE REALIZE IT OR NOT, ALL OF US ARE "RECEPTIONISTS"

A Company is people — *WHAT* people depends upon the point of view. To neighbors "the Company" is *YOU* and *ME*. To the job seeker, it is the interviewer. To the salesman, it is the receptionist, the buyer or the project engineer. To the outsider, "the Company" is many different things. It could be the general manager, the secretary, the maintenance mechanic, the production operator, the janitor, the chemist or the accountant.

Others may meet us by letter or telephone. They judge us — and therefore the Company — by the courtesy of our reply.

Whether we're speaking on the phone or dictating a letter — our personality — which in the end is the company's personality — is on public display.

When we talk about the Company we should think of whom we speak. "The Company" has many identities, and whether we are a materials man, lab technicians, department heads, clerks, foremen or operators — to the people we meet it is *US . . . YOU* and *ME . . .* who are "Goodyear Atomic Corporation, the Company." How we conduct ourselves on and off the job, and what our attitudes are toward those with whom and for whom we work determines what others think of the Company.

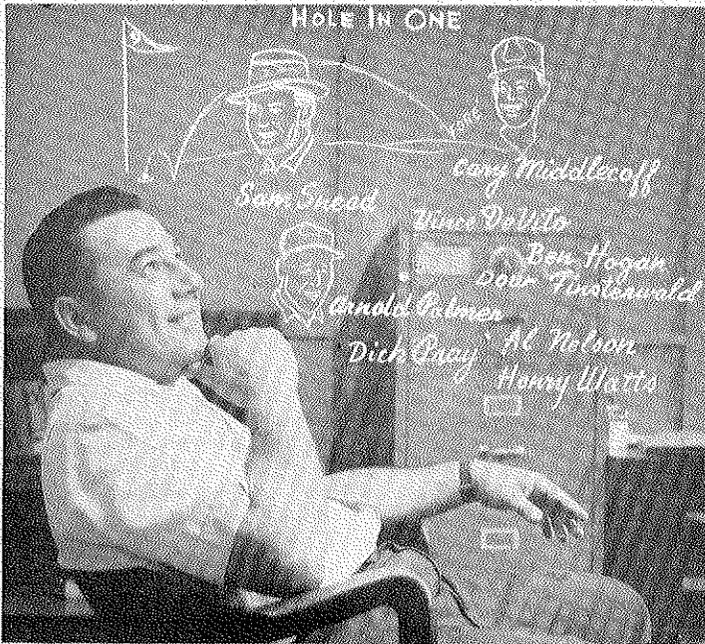

Don't sell the COMPANY short . . . "THE COMPANY" is *YOU!*

The Atomic Employees Credit Union

The Atomic Employees Credit Union is a million dollar business and growing each day. Recently, the State Division of Security, the governing body of all Ohio Credit Unions, ruled that ac-

A dividend of 5% has been declared for the period December 1, 1961, through May 31, 1962. This semi-annual dividend was payable June 1, 1962.

To comply with this ruling, the Atomic Employees Credit Union must terminate this type of account as soon as possible. No new accounts of this nature will be opened.

DAYDREAMING. Vince DeVito, Uranium Control Subdivision, reveals his thoughts while reflecting on the hole-in-one he recorded at the Waverly Skyline Golf Course.

Another GAT Golfer Registers A Hole-In-One On Area Golf Course

Vince DeVito, uranium control subdivision, is the most recent member of GAT's Hole-In-One Club. DeVito joins Al Nelson, Dick Pray, and Henry Watts as members of golfdom's "hall of fame."

"Clean living and professional skill," stated DeVito, with tongue in cheek, after he recorded his hole-in-one by using a No. 2 wood on the 253-yard ninth hole. He was playing the Waverly Skyline Course with Paul Rodecap, Merrill Oakley, and

Dick Schneider. DeVito finished the first nine with a 37, the second round with a very respectable 34 for a net score of 71.

DeVito, who is a former GAT Company Golf Champion, has captained the winning GAT Waverly team the past two years in the inter-league golf matches. His golf team won the GAT Waverly Golf League the past two seasons.

GAT now has four members in the exclusive Hole-In-One Club. Who will be the next?

Next Golf Tourney

Goodyear Atomic's Annual Mixed Best Ball Handicap Golf Tournament will be held Saturday, June 30, 1962, at the Waverly Skyline Course.

Tee-off time for the first foursome is 2 p. m. All others will follow at seven minute intervals.

Green fees are \$2 per person and must be paid to the recreation department when a starting time is reserved. Deadline for reservations is Saturday, June 23. The payment of green fees permits golfing the entire day.

Anyone desiring to participate in this tournament who does not have a partner should notify the recreation department.

The two top teams will receive trophies at GAT's Banquet of Champions.

A picnic is being planned for all golfers following the tournament. The cost of the picnic is \$1 per person.

McNaughton Named District Officer

R. E. McNaughton, cashier's department, has been elected State Vice-President for District 12 of the Junior Chamber of Commerce. McNaughton is immediate Past-President of the Waverly JayCee's. District 12 includes local chapters in Chillicothe, Circleville, Washington, C. H., Portsmouth, Ironton, Wellston, Jackson, Hillsboro, and Waverly.

R. T. Shelton, operations analysis department, has been elected to the Presidency of the Waverly JayCee's for the coming year. J. S. Murrell, SS engineering department, is the new External Vice-President. D. R. Waybright, technical review, is the Treasurer.

Ray McNaughton

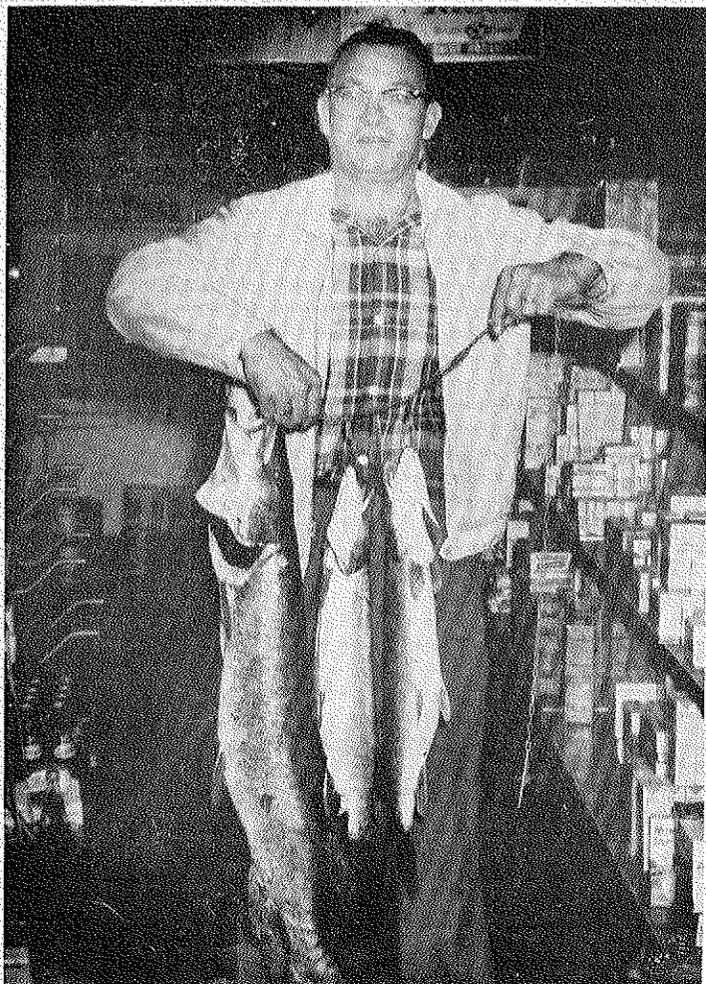

This Employee Didn't Lose The Big One

Using an artificial lure (jointed Pike), Carl Worthington, utilities operations department, recently proved that good sized fish inhabit Tygart's Creek, just across the Ohio River in Kentucky.

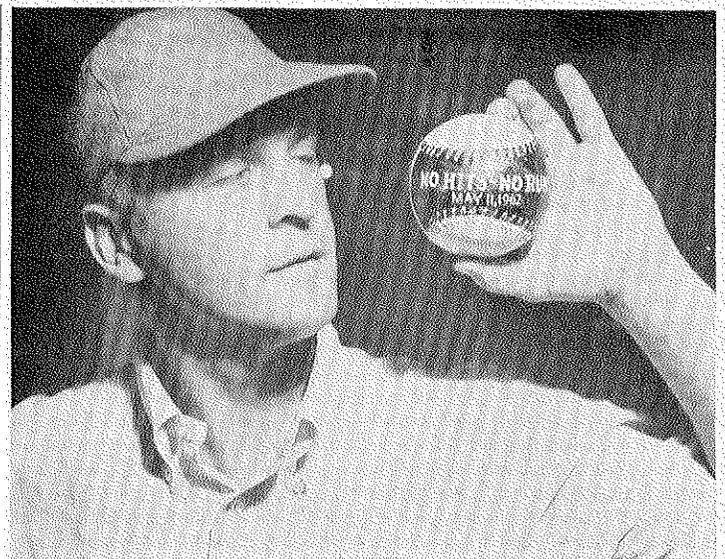

Carl was fishing approximately 15 miles from South Shore, up Tygart Creek, when he caught three Muskies. One weighed 15 pounds, one 5 pounds, and the third one 4 pounds.

"Just to prove that this is no fish story," said Carl, "here's a photograph showing the catch. Also, my good friend, Ken Ratliff, a well-known fisherman of the South Shore community was with me and will verify that I brought 'em in." Ratliff's skill with a dip net assisted us greatly in bringing the big one in the boat."

The 15 pounder was 37" in length. "A once-in-a-lifetime catch in Tygart Creek," beamed Carl.

ONCE IN A LIFETIME. This was the comment of Carl Worthington, Utilities Operations, as he displays his Muskie catch from Tygart Creek in Kentucky.

JACK HAYES, Utilities Operations, proudly displays the ball showing the date of his recent NO HIT - NO RUN game he achieved in the GAT Softball League.

"B" Shift Pitcher Hurls Season's First No Hit Game In GAT Softball League

A no-hit no-run game was accomplished by "B" Shift pitcher Jack Hayes, utilities operations department, as his team shut out the "Misfits" in GAT Softball League action. "B" Shift won 7-0.

"I don't know when I've received more kick out of playing softball

than I did upon the completion of this game," said Hayes. "The support given me by my teammates was tremendous. Norb Vulgamore and Rich Leeth both made outstanding defensive plays assisting me in the no-hitter. Les Brafford with a homer and Leeth with a triple gave us the hitting support we needed to win."

Hayes walked one batter (Ramey Hoskins) in the first inning. He did not allow another base runner until hitting a batter (Ramey Hoskins) in the 7th inning. The hit batsman was followed by an error putting two runners on base. He then retired the side to gain his no-hit game.

New Arrivals

Mr. and Mrs. P. L. Gulker, (fire department), son, John Douglas.

Mr. and Mrs. J. Ferguson, (process area 2), daughter, Amy Susan.

Mr. and Mrs. D. G. Matney, (machine shop), son, Gary Dean.

Mr. and Mrs. E. D. Addis, (police department), son, Mark Stephen.

Mr. and Mrs. E. D. Bradbury, (process area 2), daughter, Lorie Beth.

Mr. and Mrs. B. J. Clark, (electronics department), daughter, Diana Lynn.

Mr. and Mrs. W. Farley, (carpenter & paint shop), son, Glenn Scott. The mother is employed in the GAT cafeteria.

Mr. and Mrs. C. O. Langebrake, (mechanical development), daughter, Lori Susan.

Mr. and Mrs. W. R. Gatrell, (electrical maintenance department), son, James Howard.

Mr. and Mrs. H. E. Knichly, (fire department), son, Dale Glenn.
