VOLUME IX

PIKE COUNTY, OHIO, WEDNESDAY, SEPTEMBER 5, 1962

NUMBER 23

HOW ABOUT THAT DAD! E. V. Fraley, Cascade Maintenance Department, and his two sons, Tom & Dave, are spotted through a Goodyear Double Eagle tire, one of four Fraley won at the Tenth Anniversary Family Day Celebration. The tires were the top prize among 75 supplied by The Goodyear Tire & Rubber Company.

7200 In Attendance

GAT's Ninth Annual Picnic Begins Tenth Anniversary Celebration

"This is the first picnic we ever attended and Tommy really had an excellent time." This statement by one of the mothers following the Tenth Anniversary Family Day Celebration at Camden Amusement Park, August 25, just about summed up the family viewpoint toward the day's activities.

Approximately 7,200 persons attended the Ninth Annual Company Picnic which kicked-off the Tenth Anniversary Celebration. September 1962 marks ten years since the announcement that The Goodyear Tire & Rubber Company had been selected to operate the AEC's newest and largest gaseous diffusion plant.

The Park was reserved for Goodyear Atomic employees and their families from 12 noon until 4 p. m. At approximately 10:30 a. m., Goodyear families began filling the Park. By the time the rides were in operation, at noon, a steady line of GAT boys and girls began enjoying each of the rides. Many employees

brought a basket dinner and participated in a family outing on the picnic grounds inside the Park.

The planning of the Tenth Anniversary Committee and Picnic Committee; the cooperation of The Goodyear Tire & Rubber Company's personnel; the Exhibit Managers of the AEC's American Museum of Atomic Science; and Camden Park's management was excellent. The addition of the large number of gifts made possible by The Goodyear Tire & Rubber Company added much to the employee interest in the celebration. Also, GT&R's Product Exhibit and the AEC Exhibit, "This Atomic World", drew large crowds.

A near continuous line of employees strolled past the exhibit area to view the various exhibits and receive the colored aerial photograph of the plant, Tenth Anniversary brochure, and tire ashtray with the GAT Tenth Anniversary medallion, as mementos.

The GT&R Exhibit called the at-

ention of GAT employees to the multiple products and world-wide aspects of the parent company. This exhibit was drawn together from Goodyear facilities in the U. S.

Beginning at noon and every fifteen minutes thereafter until 2:30 p. m., the names of the employees who were winners of Tenth Anniversary prizes were announced. At 2:30 p. m., R. M. Rutherford, manager, production division, assisted by Max Warnock, cascade maintenance department, began the drawing of the picnic prizes. This drawing concluded with the top three prizes awarded by GT&R as Tenth Anniversary prizes. Rutherford and Warnock served as co-chairmen for picnic prize distribution.

The Ninth Annual Picnic goes down in the records as a most successful event. More important, however, was that the estimated 7,200 employees and their families who attended appeared to have a most enjoyable day.

Finance Division Promotions

Scott Transfers; Reed And Carver Promoted

Effective September 16, 1962, R. J. Reed, supervisor, timekeeping and payroll department, will assume the duties of assistant manager, finance division. He replaces C. V. Scott, who is being transferred as manager, general accounting, Kelly-Springfield Tire Company, Cumberland, Maryland. Kelly-Springfield is a wholly owned subsidiary of The Goodyear Tire & Rubber Company.

J. W. Carver is being promoted to supervisor, timekeeping and payroll department, replacing Reed.

Scott came to Goodyear Atomic Corporation in May, 1953, as an accountant.

He was promoted to supervisor of accounting and budget in May, 1956. On July 1, 1959, he was elevated to assistant manager of the finance division. Before joining GAT he was an accountant with the McBee Company, Athens, Ohio.

He is a graduate of Ohio University with a bachelor's degree in accounting. Mr. and Mrs. Scott and three daughters reside in Waverly.

C. V. Scott

R. J. Reed

J. W. Carver

Reed, who is a twenty-five year veteran with Goodyear, joined the company on April 12, 1937, as a trainee in the accounting division of Goodyear's Kansas City District. He served in the capacity of accounting clerk, audit clerk, and retail office manager trainee. He was promoted in 1941 to office manager in St. Louis, Missouri.

In 1943, he was named retail operating instructor for the South Central Division.

A World War II veteran, he was assigned to Oklahoma City following his Navy discharge in 1946.

In 1947, he was transferred to Akron where he was assigned to the comptroller's foreign department. This assignment resulted in some

world-wide travel to the various Goodyear plants outside the continental United States.

He transferred to Goodyear Atomic Corporation on April 1, 1953, as cashier in the finance division. He became supervisor of the accounts payable & cashier's department July 1, 1956. On October 1, 1960, he assumed the duties of supervisor of the timekeeping & payroll department.

Reed lives in Jackson with his wife Freda, and daughter Susan. He is an active member of the First Baptist Church in Jackson.

Employees Establish Gaseous Diffusion Plant Safety Record

"When a professional athletic team is defeated by an opponent, the set back is analyzed and strategy is planned which they hope will bring victory the next time they meet. . . . We have a well-balanced team of seasoned competitors who have shown they have the desire to win."

G. H. Reynolds, general manager, made the above statement recently concerning GAT's latest manhour safety record.

The statement bears repeating at this time because of the disabling injury which occurred on August 24, 1962. As of August 25, 1962, Goodyear Atomic's current safety record returned to ZERO.

Our employees still recognize that safety is an integral part of the work program and that a failure or disappointment means that greater determination and greater desire to fulfill the safety program is necessary.

The latest safety record by the employees of this plant stands at approximately 7,968,967 manhours. This is a record that took two years, two months, and 16 days to achieve. We now have the challenge to beat our own record which earned this plant the title — THE SAFEST PLANT IN WORLD-WIDE GOODYEAR.

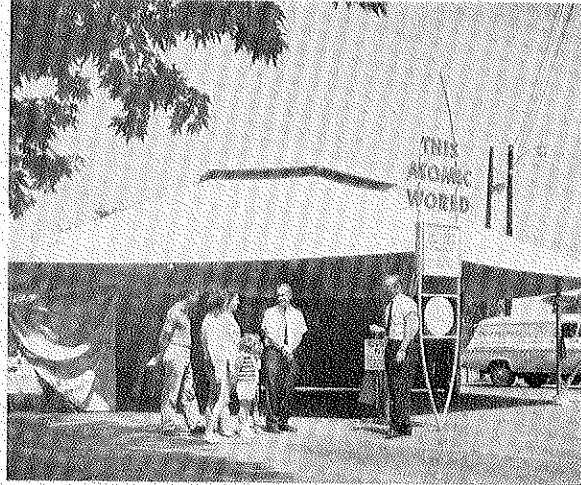

The disabling injury happened at 2:45 p. m., August 24, 1962. The injured employee was doing routine electrical maintenance work on an

"Unto the least of these . . ."

Last Sunday the churches of America offered their greetings to the labor movement of this country, affirming their common concern for the aspirations, needs, and responsibilities of those both within and without their memberships who either work or seek work.

Church and Labor do well to remember with penitence the words of One who says, "Inasmuch as ye did it not to one of the least of these, ye did it not to me." The measure of a society lies not in what it does for the affluent and strong, but in what it makes possible for the poorest and weakest of its members. It is judged by what it does to prevent poverty, injustice, and needless suffering.

The resources in which our land abounds, inventive and technical skill, efficient management, the influence of organized labor, democratically forged institutions and public policies — all these have combined to produce unprecedented plenty. This must be said not boastfully but in humble recognition of our common stewardship. It is estimated that within the last two decades, the American economy reached the point where it can produce sufficient goods and services to do away with poverty in our land.

At the same time many persons in other lands do not have access to the abundance which we enjoy. This is conspicuously true among less favored peoples, whose knowledge of our affluence adds bitterness to their want. Both the churches and the organizations of labor have urged that the United States should be bolder in sharing its resources with those of other countries in programs of world economic development.

All segments of our American community—the church and the labor movement no less than government, industry, and agriculture—share a grave responsibility for the underprivileged, the "least of these" whom Christ regards as brethren. Both the churches and the organized labor movement must acknowledge that we have been far more effective in serving the interests of the relatively secure than in coming to grips with the problems of these most exposed, vulnerable and disadvantaged groups.

The church through the years has extended its ministries to the weak and unfortunate. The labor movement, grounded in a tradition of mutual aid, has made significant contributions in this regard. Government likewise has had an important role in implementing the community's concern.

Today, when for the first time in human history it is possible to do so, let us work together in an all-out effort to abolish poverty both at home and abroad. Poverty is no longer necessary; it is ethically intolerable. This is the opportunity and responsibility God has put into our hands. We dare not refuse or postpone our response.

—Approved by the Executive Board of the Division of Christian Life and Work, the National Council of the Churches of Christ in the United States of America.

L. E. Parker Promoted By GAT; Urich & Dunnington Transferred

L. E. Parker, engineering costs & property records department, was promoted to supervisor of the department September 1, 1962. Parker replaces H. D. Baumgardner who became supervisor of the accounts payable and cashier's department. Baumgardner replaces P. E. Rodecap who resigned from the company.

L. E. Parker, a member of the "25-year Club" at Goodyear Atomic Corporation, began his Goodyear career as an accountant at Clearwater Mills, Cartersville, Georgia, in 1936. Except for two and one-half years in the U. S. Air Force, all of his Goodyear service had been at Cartersville until his transfer to GAT August 1, 1953.

His major hobby is bowling. He is past president of the GAT Men's Bowling League in Chillicothe. He will captain the Finance Team entry for the 1962-63 season.

He is a past-master of the Cartersville Masonic Lodge. He also is a member of all the Masonic bodies in the York Rite and a Shriner.

Mr. and Mrs. (Leila) Parker and three daughters, Susan, Louise, and Helen live in Chillicothe.

Transfers To Parent Company

R. L. Dunnington, data processing department, is being transferred to The Goodyear Tire & Rubber Company, Akron, Ohio, September 16, 1962. He will be associated with the machine methods group involving the use of high speed electronic computers.

R. L. Dunnington, a native of Kentucky, Dunnington joined Goodyear Atomic Corporation September 30, 1954. He is a graduate of Bath High School, Fairborn, Ohio.

Following a two-year tour of duty in the Navy, he began a specialized Civil Service training course in tabulating equipment with the Air Materials Command, Wright Patterson Air Force Base, Dayton, Ohio. Prior to coming to GAT he was employed by Peter Kiewit Sons, general contractor for the Portsmouth Area Gaseous Diffusion Plant.

Five-year service emblem awards in September are as follows:

- J. S. Murrell
- N. C. Shane, Jr.
- B. L. Fannin

Mr. and Mrs. (Clara) Dunnington have three children. They live in Waverly where the family is active in the First Baptist Church. Dunnington is Church Treasurer and a member of the Board of Deacons. Mrs. Dunnington is Financial Secretary and general Sunday School Secretary.

Assistant Purchasing Agent

B. L. Urich, purchasing department, transferred to Goodyear St. Mary's September 1, 1962. He assumed the duties of assistant purchasing agent. Goodyear St. Mary's manufactures moulded and extruded rubber goods and film.

B. L. Urich, The promotion returns Urich to St. Mary's where he started his career with Goodyear on April 2, 1951. He was a buyer at St. Mary's when he transferred to Goodyear Atomic Corporation on April 26, 1954. He transferred to GAT as an expeditor in the purchas-

FINANCE PROMOTIONS

(Continued from page 1)

Carver joined Goodyear Atomic Corporation February 1, 1955, as an accounting clerk. He was promoted January 16, 1958, to section head of hourly payroll in the timekeeping & payroll department.

He is a graduate of Portsmouth West High School and Portsmouth Interstate Business College. He also attended Ohio University - Portsmouth Branch.

A Navy veteran, he formerly was stationkeeper and recruiter with the U. S. Naval Reserve Training Center in Portsmouth.

Active in the Scioto Area Council of Boy Scouts, he is a former Cubmaster of Pack 38 sponsored by Central Christian Church in Portsmouth. He is President of the Highland Elementary School PTA for the 1962-63 school year.

Mr. and Mrs. (Helen) Carver have four children . . . Joseph, Janet, James and Carolyn.

SAFETY RECORD

(Continued from page 1)

auxiliary panel in the X-326 building. A breaker was grounded causing an electric arc. This arc resulted in severe electric arc burns to both eyes.

The injury is classified, at present, as a temporary total disabling injury in accordance with American Standards Association (ASA) Code Z16.1-1954.

The injured employee, upon the advice of the GAT physician, was taken to Grant Hospital in Columbus. He remains under the care of an eye specialist.

ing department. On July 16, 1960, he was promoted to senior buyer.

A native of Wapakoneta, Ohio, he is a graduate of Ohio State University with a bachelor's degree in marketing.

Here at Goodyear Atomic, Urich was very active in the GAT bowling and golf programs in Chillicothe. At the time of his transfer, he was treasurer of the GAT Foremen's Club.

Mr. and Mrs. (Mary) Urich, and two children, Rochelle, 9, and Gregory, 8, were residents of Chillicothe. Mrs. Urich was a physical education teacher in the Chillicothe school system.

Dearth Transfers To Kelly-Springfield

John F. Dearth, Jr., safety department, is transferring to the Kelly-Springfield Tire Company, Cumberland, Maryland, effective September 16, 1962. Kelly-Springfield is a wholly-owned subsidiary of The Goodyear Tire & Rubber Company.

Dearth, who has been a safety inspector, equipment and parts, will assume the duties of technical service engineer in his new assignment.

A graduate of Ohio State University, he joined Goodyear Atomic Corporation June 29, 1953, as an operator trainee. In August, 1953, he was made an assistant process foreman in vacuum testing. He was promoted to foreman October 1, 1954. On April 1, 1955, he transferred to the production division as a member of cascade operations, and assigned to process area 5 on July 1, 1955. He transferred to the mechanical inspection department September 24, 1956. Since March 16, 1959, he has been a member of the safety department.

Since 1955, he has worked toward a degree in mechanical engineering. He has attended Ohio University - Portsmouth and Chillicothe Branches. In addition, he has taken engineering courses on plantsite through the Company's Educational Assistance Program.

Mr. and Mrs. (Maxine) Dearth live in Chillicothe with their daughter, Anne Elizabeth.

Paul H. Sanders, Professor of Law, Vanderbilt University, has been selected as the Arbitrator to hear six cases on September 6-7, 1962.

- G. E. Electric Clock—Orville L. Gammon, Dept. 732
- Uni-Float Lantern—Earl A. Bauer, Dept. 545

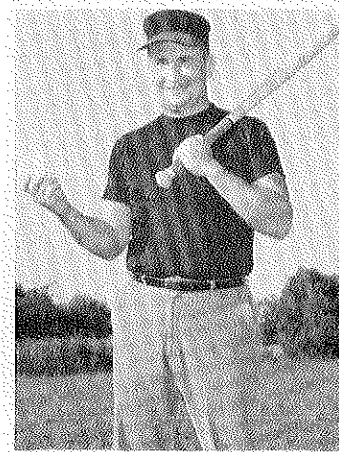

Interleague Golf Match

Portsmouth golfers were winners in the Third Annual Interleague Golf Tournament. They edged the Chillicothe golfers 1037 to 1040. Waverly finished third with a team score of 1078. The match was played at the Portsmouth Elks Course.

The Portsmouth team included: Bill Smith, Dick Pray, Chuck Trivisonno, Wayne Pollard, Frank Voss, Dave Zelinski, Lloyd Fuller, Glenn Russell, Dave Goodman, Marty Collier, Lee Cormany, Peg Ellsesser, Hugh Ruel, Gordon Williams, Walt Bridwell, and Jim Spriggs.

MEET THE CHAMPS. Kneeling from left: O. A. Vita, F. E. Caldwell, C. D. Scott, and B. Murnahan. Standing: E. D. Kessinger, W. C. Masters, C. L. Kinker, K. D. Chapman, and C. F. Armstrong.

THE TOOLS OF HIS TRADE. Hony Armstrong, Stores Department, displays a softball and bat. One of the better softball players at GAT, his record this summer proves that he knows how to use both.

ACES Win Company Softball Crown With Excellent 13-1 Season Record

The ACES won the Company Softball Championship with a 13-1 record. This record included the final game against the ALL STARS representing members from each of the other league teams. The "All Star" game concluded a very successful softball season with keen competition all the way.

In the final analysis, it was probably the strong arm of Hony Armstrong, more than any single factor, that contributed to the championship efforts of the ACES. He supplied the pitching skill that is so necessary to a winning softball team. In addition, Armstrong was a .400 hitter—a respectable batting average in any league. He capped the regular season's performance with a no-hitter against the GAT CATS.

Golf Championship At Granville Course

The Company Golf Championship will be held this Saturday, September 8, at the Granville Country Club, Granville, Ohio. The championship will be awarded to the golfer shooting the lowest score for 18 holes. The second lowest score will be declared the runner-up champion.

The Company Champion and Runner-up will not be eligible for the Flight Championships to be held Saturday, September 15. The First and Second Flights will play at the Portsmouth Elks Country Club; the Third Flight will compete at the Jaycee Course in Chillicothe; and the Fourth and Fifth Flights will play the Skyline Course in Waverly.

Foursomes should be arranged and starting times reserved at the recreation office. Any golfer desiring to move up in flights must report the change to the recreation department.

Shift personnel who are working the day shift on September 8-15, should notify recreation so arrangements may be made to play on a different date.
