VOLUME X

PIKE COUNTY, OHIO, WEDNESDAY, JANUARY 9, 1963

NUMBER 7

Review of Labor Relations

The following is a list of the Officers and Division Committeemen elected by Local 3-689 of the Oil, Chemical, and Atomic Workers Union who will be installed for calendar year 1963.

President, C. A. Romine, electrical maintenance department; Vice-President, F. S. Valentine, process area 3; Financial Secretary-Treasurer, B. D. Hurley, process area 4; Recording Secretary, H. R. Sanson, cascade maintenance; Trustees: Q. R. Davis, electrical maintenance department; R. A. Watts, utilities maintenance; and C. R. Ball, process area

3; Sergeant-at-Arms, A. W. Reynolds, utilities maintenance; Guide, J. F. Bailey, Jr., SS materials handling; Committeemen: Maintenance Division — C. F. Ferguson, welding shop; Operations Division — B. Murnahan, Jr., cascade operations; and Service Division — E. E. Wilburn, fire department.

* * *

Effective this month, Local 3-689, has amended its By-Laws and Constitution to provide monthly dues in the amount of \$5.50 for calendar year 1963. Beginning in January, 1964, the dues will revert to \$4.50 per month.

Tenth Anniversary On TV

The Tenth Anniversary of Goodyear Atomic Corporation will be saluted on WSAZ-TV (Channel 3), Sunday, January 27, from 5:00-5:30 p. m. The documentary film is entitled "Ohio Valley Atom".

Romero Wins 1962 Safe Slogan Contest

A. P. Romero, special analysis department, believes in quantity as well as quality when he wins the right to select a safety award.

The Annual Safety Slogan Winner normally qualifies for a merchandise award valued at \$100. Past winners have received portable TV sets, Polaroid Land Cameras, and a portable sewing machine.

Mr. Romero requested and was granted the right to select several merchandise awards as the Annual Winner for 1962.

In all, he carried home seven awards including five clocks, a hair dryer, and two electric blankets.

"You might wonder why I selected so many clocks," said Romero. "We have five children — four of them in school. We all get up at different times in the morning. The clocks help alleviate a problem at our house—that of everyone getting up on time."

Since July, 1957, Romero has won

nine monthly Safety Slogan Contests. Since August, 1961, he has won four Safety Message Contests. In addition, he was declared winner of the Safety Slogan Contest for the second half of 1960.

The winning Safety Slogan for 1962 is: "TOMORROW BELONGS TO THOSE WHO PRACTICE SAFETY TODAY."

—Photograph on Page 2

IN MEMORIAM

Harry H. Stoops, Sr., 90, died December 21, 1962, at Warren, Ohio. A son, H. H. (Mike), is in the standard practice department.

Bloodmobile Will Be Here Next Week

The next visit of the Huntington Regional Bloodmobile will be held on January 15 and 16. Hours for donating are Tuesday, January 15, 8:30 a. m. to 2 p. m. and 4:00 p. m. to 6:00 p. m., and on Wednesday, January 16, from 6:00 a. m. to 12 noon. THE LOCATION WILL BE THE SOUTH WING OF THE X-100 BUILDING.

Each GAT employee should know by now that every visit of the Bloodmobile is important. Your donation to the GAT Blood Bank (YOUR BLOOD BANK) makes it possible

to have sufficient blood available, in time of need, to cover all Goodyear employees, the immediate families of the employees, and the employee's father and mother, and father and mother-in-law.

During calendar year 1962, the GAT Blood Bank provided a total of 108 pints to GAT employees and individuals who qualify under the Blood Bank program. In addition, our Blood Bank was requested to supply a rare type blood for two emergency cases. In each instance GAT employees responded to the emergency request.

The GAT Blood Bank, as a participating agency of the Huntington (W. Va.) Regional Blood Center, is similar to the Federal Reserve Banking System in that, through a reciprocity agreement, blood can be supplied anywhere in the U. S. through other Blood Banks.

Since the beginning, the GAT Blood Bank has supplied blood to approximately 58 hospitals. These hospitals know the VALUE of an active Blood Bank. The GAT Blood Bank program depends upon your participation. If you ever need blood, your previous donation will have

helped assure that it is available. Your blood donation is like paying an insurance premium . . . if the need arises YOU ARE PROTECTED!

Donors will be scheduled from a list of participating employees on file in the community relations department. If you do not receive a donor card, and desire to give, you will be welcomed as a "walk-in".

. . . REMEMBER — Any type of blood is RARE . . . if needed . . .

APPROVED FOR RELEASE BY:
M. M. Earnhardt

A Look To The Future

(Editor's Note: More wonders will be waiting by the time our children grow up. What will they be? Here are the predictions of one of the U. S. Government's leading scientists — Dr. Glenn T. Seaborg, Nobel Prize winner and Chairman of the U. S. Atomic Energy Commission.)

The one prediction that can safely be made about the future is that the rapid acceleration of scientific progress — the scientific revolution of the past few decades — will continue. The third American Revolution — the scientific revolution — follows in the spirit of the revolution that gave us our freedom and the industrial revolution that gave us our strength.

What does the scientific revolution have in store for us? Looking 30 years into the future, here are some of the advances that can be foreseen.

Travel to distant parts of the world will be possible in an hour or two. Travellers will embark on ultra-high-speed jets or swift rocket transport. All-weather air travel will be routine because man will find a way to control local environment conditions and to eliminate such present-day airport menaces as fog.

Moon-travel will, of course, be commonplace by 1992 and voyages to satellites and nearby planets will be possible.

All of us will be able to wear wrist-watch radios which will keep us in contact with people every-

where. We may sit at home and "dial" the library for any book we want and, using a closed circuit remote-control television system, "read" the book at home.

Electronic computer systems will keep tabs on our household budgets, help us to plan menus, figure out our income taxes, remind us of appointments, and even aid in reaching family policy decisions. Large computers able to translate automatically will crack the world's language barriers.

Ways to farm and mine the seas will increase the abundance of man's food and material goods.

Enormous progress will be made in the prevention and control of

"IT'S TIME FOR SAFETY." One of the group made this remark as the photographer snapped the camera. The scene was the presentation of safety awards to A. P. Romero, Special Analysis Department, for being adjudged the Annual Safety Slogan Winner. From left are: C. R. Milone, Manager, Technical Division; G. H. Reynolds, General Manager; Romero; F. A. Koehler, Supervisor, Special Analysis Department; and D. W. Doner, Manager, Industrial Relations Division.

illnesses, the treatment of the lame, the deaf, and the blind, in the improvement and maintenance of mental health and the expansion of the span of useful life.

Pharmaceuticals which change and maintain human personality at any desired level may be part of everyday life in 1992.

Nuclear power will long since have become commonplace in providing heat and power for homes and industry.

Peaceful uses of nuclear explosions may include the deepening of too-shallow straits and the opening up of mountain passes.

We shall with greater accuracy be able to predict — and possibly control — storms, earthquakes, and other natural disasters.

Man will have to make some substantial adjustments — sociological, economic and physical — in his way of life and thinking within the next 30 years as these new advancements occur. Future citizens, to participate constructively, must be scientifically literate.

January Slogan Winners

Charlotte Webb

Charlotte Webb, industrial relations division, submitted the winning safety slogan for January. Her slogan was picked as the winner from the 30 slogans submitted between November 21 and December 20, 1962.

Miss Webb submitted this slogan:

"KEEP EVERY DAY ACCIDENT FREE THROUGHOUT 1963"

W. S. Fleshman

Consistently a slogan winner, W. S. Fleshman, chemical operations department, submitted the winning safety message for this month.

Mr. Fleshman presented the following winning message:

"Every person who greets the New Year can be both grateful and proud. Grateful that you survived the accidents in homes, at work or play, or on the highways during 1962 that proved fatal to many thousands — perhaps even some of your friends or acquaintances. Be proud that you did faithfully follow good, sound safe practices in all your activities and that by your own example you did help someone reach the New Year safely too. A little sign along the way or a few words you heard or read seem like simple things. Yet a sign or a few words has often saved a life. You will see or hear them all again in the coming year. Observe them with gratitude — practice them with pride."

Both employees will each receive the customary \$10 cash award.

CONGRATULATIONS!

* Calendar Years Without A Disabling Injury.

100 DIV.—3652 days or 1,007,200 injury-free manhours

300 DIV.—3652 days or 1,797,400 injury-free manhours

400 DIV.—3652 days or 3,172,800 injury-free manhours

500 DIV.—3652 days or 6,509,200 injury-free manhours

THESE FOUR DIVISIONS HAVE MATERIALLY ASSISTED GOODYEAR ATOMIC CORP. TO BE RECOGNIZED AS . . .

* Safest Goodyear Plant — World Wide

* Safest Gaseous Diffusion Plant

* Winner of the Slusser Award

* Also assisted in achieving Awards of Honor from . . .

National Safety Council

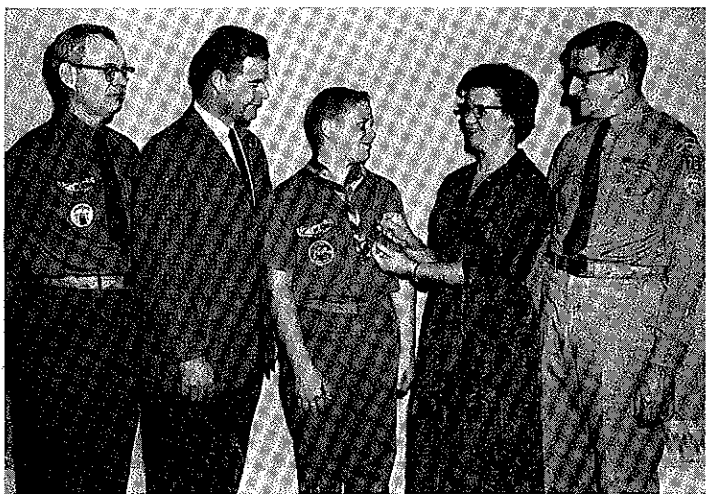

Atomic Energy Commission

Industrial Commission of Ohio

CONGRATULATIONS TO ALL EMPLOYEES OF THESE FOUR DIVISIONS.

The above safety achievements reflect the efforts of the employees of these divisions. Let's all endeavor to again equal this outstanding safety record.

Another Eagle Scout For Post 76

PROUD PARENTS. Mr. and Mrs. H. M. McInerney congratulate their son, Robert, upon obtaining the rank of Eagle Scout. The new Eagle Scout is a member of Post 76. Pictured from left are: F. E. Woltz, Operations Analysis Department, Post Advisor; Mr. McInerney; Robert; Mrs. McInerney; and C. C. Hobbs, Electrical Maintenance Department, Scoutmaster for Troop 76.

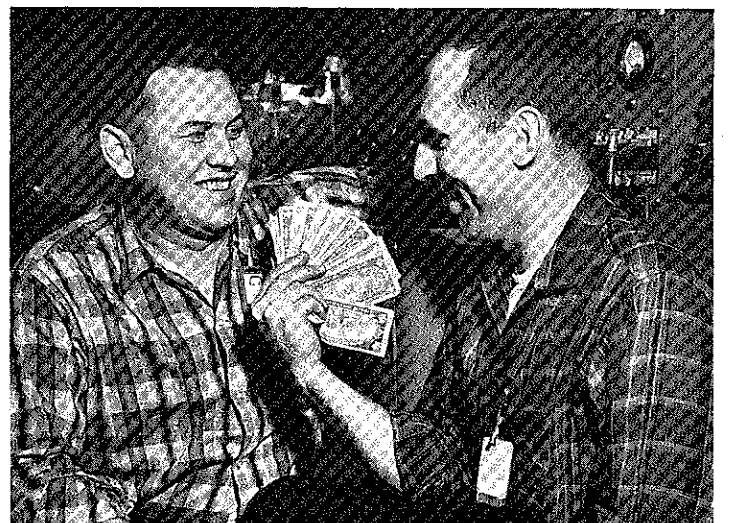

— Photo courtesy Waverly News-Watchman

Robert McInerney, son of H. M. McInerney, industrial hygiene & health physics department, was awarded his Eagle Badge in Court of Honor ceremonies at the Presbyterian Church in Waverly.

The new Eagle Scout is a member of Explorer Post 76 where his father is Committee Chairman. Two other GAT employees played important roles in his advancement to Eagle Scout rank — F. E. Woltz, Jr., operations analysis department, is Post Advisor and C. C. Hobbs, electrical maintenance department, is Scoutmaster for Troop 76.

Eagle Scout McInerney is an eighth grade student at East Elementary School in Waverly. Last fall he was a member of the school's football team. He is active in the Pike County 4-H program.

The family attends the Waverly Presbyterian Church.

"IT'S BETTER TO GIVE THAN TO RECEIVE." J. I. Newman, Instrument Maintenance Department, presents \$75 to A. J. Blair, Department Foreman, as a contribution to the 40&8 in Jackson. The money was contributed by members of the Instrument Maintenance Department in lieu of sending Christmas cards to one another. The 40&8 distributed 150 food baskets this year in Jackson County to needy families. Last year the department's contribution was given to the Salvation Army in Portsmouth. Blair is Chef De Gare of the 40&8.

A New Year Message

Dear Goodyearite:

A Happy New Year to you and your family!

In extending best wishes for happiness during the New Year, we take this opportunity to urge you to join us in a "Drive for a Safe 1963."

If each of us will observe the following holiday safe driving tips and bring them to the attention of members of the family and motoring friends, we will help assure a happier and safer year for all.

BE SURE YOUR CAR IS SAFE . . .

Drive with good tires . . . properly adjusted brakes . . . light and turn signals working . . . windshield wipers and defrosters functioning properly.

USE SEAT BELTS . . .

Whenever and wherever you drive. Seat Belts are "Circles of Safety" for you and your family.

PLAN A SAFE DRIVE . . .

Allow plenty of time for your travel. On long trips make frequent stops. Arrive relaxed!

BE ALERT TO HOLIDAY HAZARDS . . .

Drive in keeping with road, weather, and traffic conditions. Remember, most holiday accidents involve drinking and speed too fast for conditions.

WATCH OUT FOR OTHERS . . .

Make allowances for unpredictable driver and pedestrian actions. Give yourself and others an extra margin of safety.

USE COURTESY ABUNDANTLY . . .

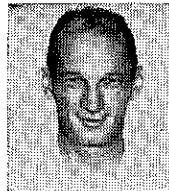

Resolve to "Make Courtesy Your Code of the Road". It pays!

Full enjoyment of the New Year is something to which all of us look forward. With this enjoyment, however, — and we know you agree — goes individual responsibility to protect your family, yourself, and your community. Let's all STRIVE for a safe 1963!

Cordially yours,

Baughman Completes 15 - Years Service

A. L. Baughman, cascade coordination department, completed fifteen years continuous service on January 7, 1963. He was presented an anniversary tie-clasp last Monday by R. M. Rutherford, production division manager.

A. L. Baughman

Baughman, a native of Akron, began his service in 1948 with Goodyear Aircraft, as a supervisor in the production of vinyl plastics. Prior to 1948, he had worked in Goodyear's synthetic rubber program. This experience resulted in his transfer, in 1950, back into the synthetic rubber program for one year to help reactivate the synthetic plant.

He was transferred back to Goodyear Aircraft in 1951, again to production items such as film, flooring, and hose in the vinyl plastics departments.

Baughman transferred to Goodyear Atomic Corporation on January 15, 1953. He was a member of one of the early groups of employees who were trained at Paducah and Oak Ridge prior to start-up. When he arrived on plantsite, he assisted the training department in setting up training courses for GAT employees in training.

Mr. and Mrs. Baughman and family live at Coalton.

THESE DOOR PRIZES will be awarded to lucky winners at the Atomic Employee's Credit Union Annual Meeting in the Waverly High School. The date is Friday, January 18, 1963, beginning at 8 p. m.

Annual Meeting January 18

Atomic Employees Credit Union Announces Five Percent Dividend

The Annual Meeting of the Atomic Employee's Credit Union will be held Friday, January 18, 1963, in the Waverly High School beginning at 8 p. m.

All members are urged to attend this important meeting. Credit Union membership provides many valuable privileges. Membership benefits are the primary objectives of the Credit Union.

Mr. and Mrs. E. S. Enz, (document accounting), daughter, Valerie Kay.

Mr. and Mrs. W. J. Bloss, (process area 1), son, Douglas Wayne.

Mr. and Mrs. F. T. Horton, Jr., (electrical maintenance department), son, Brett Douglas.

The success of a credit union depends upon its members. The final authority rests with the members. Active participation in the services provided by the credit union assures continuation of the various services.

Attendance at the annual membership meeting should be a primary concern to all members.

The Board of Directors of the Atomic Employees Credit Union have authorized a 5% dividend.

The dividend will be paid to all members who have paid up shares deposited prior to November 5, 1962, and still on deposit as of November 30, 1962.

Dividend credit was posted to each member's account after December 1, 1962.

Maurice Trowbridge, reproduction department, President of the Credit Union, urges all members to attend the annual meeting. "The meeting will be short. Refreshments will be served. A prize will be given all who attend and several valuable door prizes will be presented," stated Trowbridge.

"Baby-sitters will be provided for parents with small children. In addition, a full-length Walt Disney technicolor movie entitled "Dumbo" will be shown in the auditorium for the boys and girls."

During the meeting four employees will be elected to the Board of Directors; 1 to the Credit Committee; and 3 members to the Auditing Committee — 1 for a 1-year term, 1 for 2-year term, and 1 for 3.

New Arrivals

Mr. and Mrs. N. F. Reiter, (special analysis department), son, Timothy Franklin.

Mr. and Mrs. G. D. Harris, (instrumentation development department), son, James D.

Mr. and Mrs. V. E. Hughes, (chemical analysis department), daughter, Catherine Lisa.

Mr. and Mrs. D. L. Hicks, (process area 3), daughter, Barbara Lynn.

Mr. and Mrs. Alva Evans, (police department), son, Timothy Farrell.

Mr. and Mrs. A. L. Sutton, (industrial relations division), daughter, Carol Lynn.

Defense Jobs To Those Who "Measure Up"

Industry will be rewarded or penalized on its ability or inability to measure up to carefully defined standards of cost performance, Col. Joseph S. Bleymaier told members of the American Rocket Society at its meeting in Los Angeles last month. The importance being placed on the industries' ability to do a job efficiently and economically in order to receive major contracts, was stressed by the speaker who is Titan III Program Director, Headquarters Space Systems Division (AFSC).

Col. Bleymaier told the delegates that the first contract for the Titan III and all subsequent contracts to

be awarded in the Titan III program, are cost-plus-incentive-fee contracts. In the past, he said, industry has been judged by the reasonable standard of "who could make the better corkscrew." "Today," he continued, "the level of industrial competence has risen to the point where many companies appear equally capable in the handling of technical requirements. The emphasis now has shifted to management and firm's capability to manage wisely, efficiently and economically, will be clearly spotlighted under incentive-type contracts.

"Because the Titan III program

management concept will be the model for future development programs, you will find that the success of that concept, and your success, will depend directly on the performance of people and on their ability to manage well.

"Now we must put up — or shut up. Now is the time to prove the validity of our forecasts and soundness of our management techniques. This is a joint Air Force-Industry team responsibility of the greatest importance," the speaker stated.

What Col. Bleymaier told the delegates is nothing new in regards to the Government's program of ef-

iciency and cost consciousness in the multi-million dollar programs ahead. His remarks show the government's continuing concern regarding the cost of these programs and getting its money's worth. The industry that can do the job without waste and costly errors is the one that will keep going and get more orders.

It is up to everyone to make sure that work is done efficiently and without waste. As the Colonel stated, the rewards will be enjoyed by those who measure up!

GAT Foremen's Club Presents

Goodyear vs Phillips Next Week At Clay High School Gymnasium

The Goodyear Wings, which will play in the area Wednesday, January 16, recently concluded a Far East tour with 24 wins against only two losses.

The team posted its 18th victory over an All-Star team from Luangplabang, Laos, 112-73, with the Crown Prince and Princess of Laos in attendance. Benny Coffman dumped in 32 points for the Goodyears while Terry Deems scored 22 points and Dick Davies had 20.

Eighteen Far East basketball clinics were conducted before over 23,375 cagers and fans, eager to improve their skills and knowledge of the game.

January 16 will mark the second appearance for the Goodyear Wings in this area. Last season Ohio University provided the opposition with the Goodyears emerging on the long end of a 78-69 score.

This year the 1962 AAU Champions, the Phillips 66ers, will furnish

the opposition. Six members of the Phillips team, along with Goodyear players Sharrar and McCaffrey, just returned from the World Games in Manila, where they played with the U. S. squad. Assisting in preparing the U. S. team was Coach Bud Browning of Phillips.

As a team the Goodyears will average 6-5 and Coach Hank Vaughn said, "Despite the loss of four regulars from last year's fine squad, the current Goodyears will be one of our strongest."

The Goodyear schedule of exhibitions began December 28, opening a 23-game slate. Following the regular season, the team will enter the AAU tournament at Denver in March.

The game January 16 between Goodyear and Phillips will be played at the Portsmouth Clay High School gymnasium. The tip-off is scheduled for 8 p. m. Preceding the game, Coach Hank Vaughn and members of the Goodyear team will conduct a basketball clinic. The clinic will get under way at 7:00 p. m.

Fans purchasing a ticket to the game will have an opportunity to win four Goodyear tires, donated by the Chillicothe Service Store. In addition, the Wilson ball to be used during the game will be awarded some lucky fan whose number is selected. The ball will be donated by Newberry Sporting Goods of Portsmouth.

General Chairman, Dick Schneider, central files department, stated: "We feel that this game brings to the area two of the finest basketball teams in the nation. If advance enthusiasm is any criteria, the gym will

BUD BROWNING
Oilers Coach

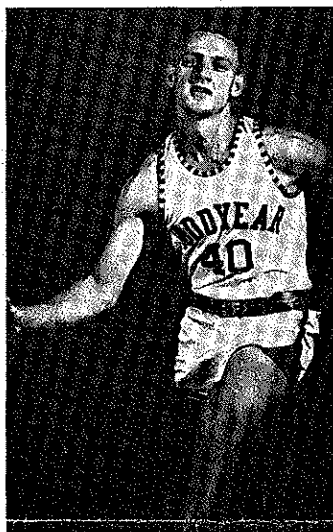

HANK VAUGHN
Wings Coach

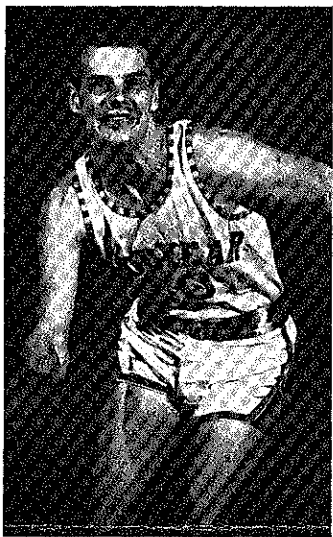

cater to a standing-room-only crowd. Tickets are priced at \$1.50 for adults and 75c for students. Most high schools in the four-county area are bringing the entire squad to the game."

Tickets may be obtained from divisional representatives of the GAT Foremen's Club or at the following locations in the area: Chillicothe — Jennings Sporting Goods, Valley

Sporting Goods, and the Cozy Inn. In Jackson — Stevenson's Insurance Agency. Piketon — Cooper's General Store and the Piketon Drugs. Portsmouth — Newberry Sporting Goods, and Sand's Sporting Goods. Waverly — Jameson Drugs, Valley Hardware, Schmitt's Dairy, and Weiss Recreation Center.

BOB McLAUGHLIN
Goodyear Captain

BENNIE COFFMAN
Goodyear Guard

Hard-driving Bob McLaughlin is extremely fast and aggressive. The 6-2 back-court ace scored 1,003 points in three years of varsity play for Loyola University of New Orleans. Last year with Goodyear he averaged 9.3 points per game and held a 42 per cent shooting accuracy from the field.

An extremely fast, adept ball-handler, Coffman joined Goodyear last season after one year with the Seattle Bucan Bakers. He led the Goodyears in scoring on the recent Far East tour. The 6-2 Coffman is a former University of Kentucky star where he set a single season scoring record with a 52 per cent shooting accuracy from the field.

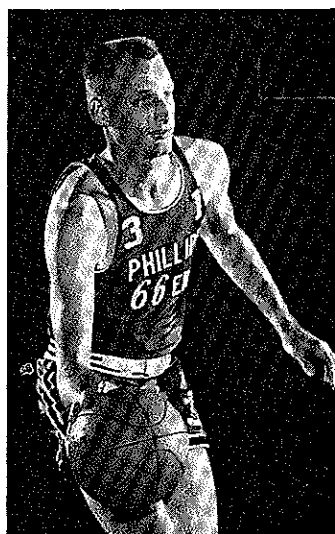

The 19th win was racked up over an All-Star aggregate from Savannakhet, Laos by a score of 82-39.

The Goodyears made it No. 20 with an easy 90-49 romp over Vientiane All-Star team. Thornton Hill paced scorers with 16 points, followed by Leon Hill with 14, and Davies and Coffman with 12 each. In recording its victory, the team scored 45 field goals — no free throws.

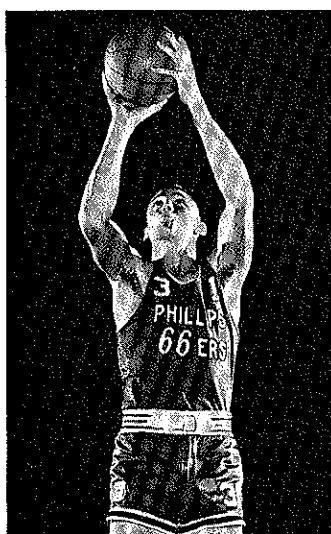

In winding up its Far East tour, the Goodyears waltzed to wins over a Chinese All-Star team, 102-77; a Saigon All-Star team, 109-74; the Quang Trieu All-Stars, 104-74; and a National team from Saigon, 89-53.

The only two losses on the tour came at the hands of the Philippine Nationals, 73-52, and the Philippine YCO Painters 70-57.

Indicative of the tour's success were capacity houses at practically every stop. Through 26 games the Goodyears drew over 130,000 fans for an average of 5,000 per game. Largest single game attendance was 26,000 in Manila.

JERRY SHIPP
Phillips Captain

BOBBY RASCOE
Phillips Guard

Widely regarded as one of the greatest jump-shooters in basketball today, 6-5 Jerry Shipp is playing his fourth season with Phillips. A 1962 AAU All-American, Shipp has led the 66ers in scoring the past two seasons.

A 1962 All-American guard at Western Kentucky State College, 6-4 Bobby Rascoe is playing his first season with the National AAU champion Phillips 66ers. He averaged nearly 30 points a game with Western Kentucky his senior year.

Physical Fitness Books Are Available

Physical fitness includes many aspects of health, one of which is the protection of the human body from the infections that have beset us in the past and that still threaten us.

Of great significance in physical fitness is a regular habit of vigorous exercise.

In his Presidential Message to the schools, President Kennedy said, "The strength of our democracy is no greater than the collective well-being of our people. The vigor of our country is no stronger than the vitality and will of all our countrymen. The level of physical, mental, moral, and spiritual fitness of every American citizen must be our constant concern."

The recreation department has two booklets available for loan to employees on physical fitness. One entitled the XBX PLAN for Physical Fitness for men, and another entitled the 5BX PLAN for Physical Fitness for women.

The Five Basic Exercises in the 5BX Plan are designed to show you how to develop and hold a high level of physical fitness, regardless of where you may be located.

The exercise plan outlined in the XBX booklet provides individuals with the opportunity to achieve

physical fitness in an enjoyable, interesting manner for a total investment of 12 minutes a day.

Reserve the booklets by calling the recreation department, telephone extension 2158.

THE GRANDDAUGHTER of Mr. and Mrs. R. H. Seaman appeared on the inside cover photo of the December 19 Clan, which featured carols of Christmas. Terry Marie is the daughter of Jim and Sally (Seaman) Heckelman. Her father is a member of the GT&R Police Department. Mr. Seaman is a member of the GAT Security Department. Mrs. Seaman is a Telephone Operator.
