

THE WINGFOOT CLAN

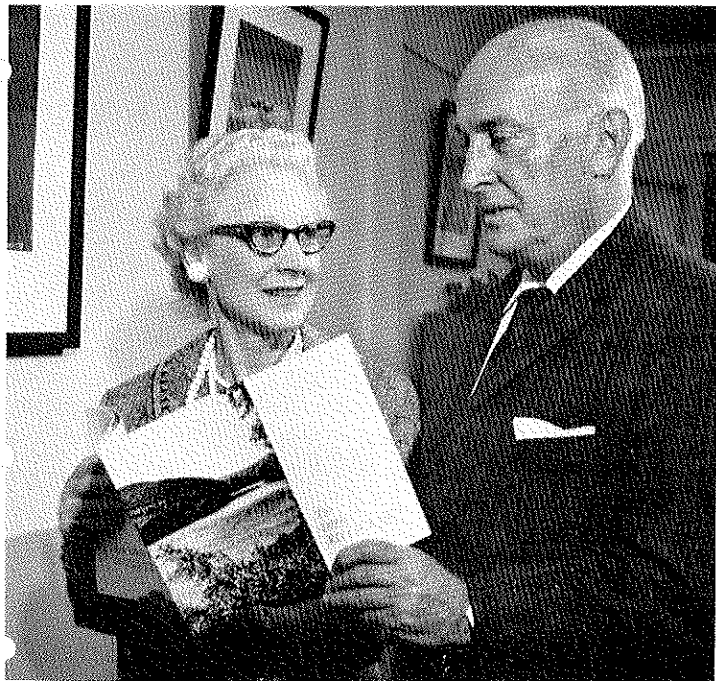

GOODYEAR ATOMIC CORPORATION

A Subsidiary of THE GOODYEAR TIRE & RUBBER COMPANY

VOLUME XI

PIKETON, OHIO, WEDNESDAY, JUNE 3, 1964

NUMBER 18

G. H. REYNOLDS, General Manager of the Goodyear Atomic Corporation, was presented a copy of "The Ohio River Basin" by Mrs. Margery Nance, wife of R. J. Nance, Superintendent of Shops Maintenance. The book was prepared by the Inter-League Survey Committee of the Ohio River Basin and published by the League of Women Voters Education Fund. The book covers the history, navigation, recreation, economy, water supply uses, flooding, pollution, conservation, government agencies, maps and charts of the Ohio River Basin. Mrs. Nance is Treasurer of the League of Women Voters of Ohio. All area high schools will receive a copy of the booklet.

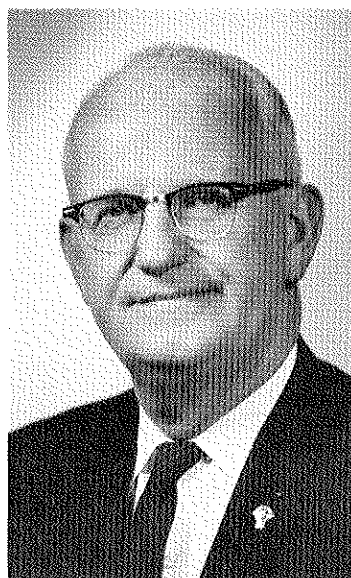

Treasures On Earth

The "Clan" recognizes J. M. Duncan and J. A. Brackey of the plant engineering department for the part they played in a recent life saving attempt.

These men were at the Girl Scout camp, Molly Lauman, performing voluntary work on a camp improvement project.

A bolt of lightning struck a young girl. Mr. Duncan and Mr. Brackey were notified that help was needed. They responded immediately and

worked steadily to revive her. Unfortunately, their efforts were in vain. In this instance, as in many others, Goodyear people have shown their willingness to extend a helping hand.

W. H. "BID" EDMUND, Executive Consultant of The Goodyear Tire & Rubber Company, addressed the graduating class of Waverly High School on May 28, 1964. Mr. Edmund is well known to many GAT employees.

BLOODMOBILE VISIT

The next plantsite visit of the Tri-State Red Cross Bloodmobile Unit will be July 7 and 8, 1964.

The proposed hours will be as follows: Tuesday, July 7, 8:30 a. m. to 2:30 p. m.; Wednesday, July 8, 6:30 a. m. to 12:00 noon.

Appointment cards will be distributed to the Volunteer donors. Walk-ins will be welcomed.

Everyone is asked to make a note of these dates as it will take a 100% effort for GAT to reach its goal of 200 pints.

Two Former AEC Men Here Given New Assignments

Bernard W. Menke, formerly with the Atomic Energy Commission staff, has been named Assistant Manager for Administration for the AEC's Nevada Operations Office.

Menke first became associated with the Atomic Energy programs during World War II with Manhattan Engineer District as Intelligence and Security Officer, and became Director of the Security Division for AEC when the Commission assumed responsibility for the programs in 1947.

Mr. Menke was transferred to the Portsmouth Area Office in 1952 to head administrative activities.

Will Hay of the Organization and Personnel Division of the AEC's Oak Ridge Operations will transfer to AEC Headquarters, Germantown, Maryland, early this month.

Hay has been appointed deputy director of the Division of Labor Relations.

Mr. Hay was chief of the Organization and Personnel Branch at Portsmouth from 1952 to 1957.

Surplus Property Sale To Be June 18 At Warehouse 15

Goodyear Atomic Corporation will offer for sale by "Spot Bid" over 80 lots of used and unused property. The date is June 18, 1964, at GAT's Surplus and Salvage Sales Warehouse No. 15.

The comparison of bids and award of each lot will commence promptly at 10:00 a. m. Bids may be submitted anytime during the inspection period and one does not have to be present at the bid opening.

Up for sale are: 20 Pickup Trucks, 5 Carryalls, 6 Sedans, 1 Panel Truck, 3 Electric Welders, 1 Two-wheeled Trailer, 4 Oil Furnaces, 1 Chlorinator, 50 Fluorescent Fixtures, 800 Fluorescent Ballasts, 1 Lot — Bridge Crane Parts, 1 Lot — Valves and Parts, 1 Lot — Pipe Fittings, 4 Motion Picture Projectors, 1 Slide Projector, 1 Film Processing Machine and 1 Clothes Washer. Miscellaneous items include several lots of office furniture, metal duct, scales parts, hand tool parts, welder parts, insulators, window screens, pumps, wire rope, scaffolds, and electronic, electrical and mechanical parts and supplies.

The property items will be available for inspection at Warehouse 15

from 8:00 a. m. to 3:00 p. m., Monday, June 8 through Friday, June 12; Monday, June 15 through Wednesday, June 17; and from 8:00 a. m. until bids are closed on June 18.

Mailed bids will not be accepted and no invitations or descriptions of property will be mailed. Bidding instructions, property listing and bid forms will be furnished at the inspection site only. Do not call and ask that bid forms be mailed to you. No deposit is required. This sale is subject to the general and special terms and conditions posted on the bulletin board at the sale site.

Successful bidders will be allowed until 3:00 p. m., June 30, to pay for their property. Property must be removed within the time limit set for each lot as posted on the bulletin board at the site. Payment must be in full, in the form of cash, certified check or money order made payable to Goodyear Atomic Corporation. The Purchaser may pay for and remove his property between 1:00 p. m. and 3:00 p. m. the day of the sale. The vehicles are sold "as is — where is"; the remainder of the lots are sold "as is — f. o. b. conveyance" at the inspection site.

Tomorrow's Tires Are Tested Today

If man fails in this decade to launch a supersonic jet transport, explore the moon or break his previous world land speed records, it won't be for lack of tires capable of doing the job.

John Hartz, Goodyear tire development manager from Akron, Ohio, made this point at an April press conference in Tokyo.

"Tomorrow's tires are being tested today," Hartz said. "At Goodyear we've learned that when we hear of someone dreaming up a new means of transportation, we'd better start planning the tires right away. We don't want the progress of mankind held up by a flat tire!"

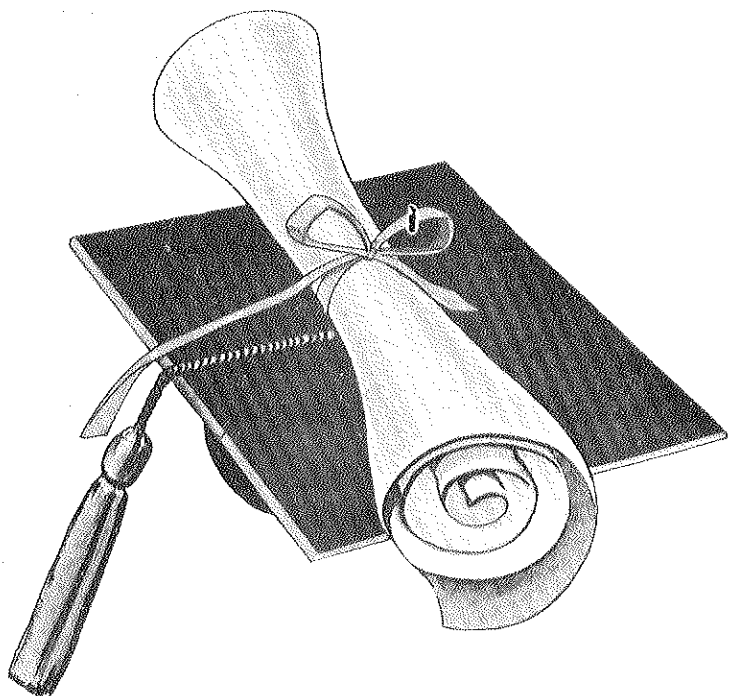

Hartz described Goodyear's multi-million-dollar testing facilities through the medium of a 20-minute color movie with Japanese sound track.

The development manager also discussed progress on a series of revolutionary tires, including one made entirely of wire with a fine mesh tread. This unusual design is for surface exploration on the moon. Intended to be carried in a rocket vehicle, the tire is ready to roll as soon as it is unpacked.

THE TWO PICTURES ABOVE show part of the property that will be sold June 18 at GAT's Surplus and Salvage Sales Warehouse No. 15.

PART OF THE GROUP that will make the trip to French Lick, June 12, is pictured above. Prior to having the picture taken, Dick Jones of the Recreation Department gave a description of the hotel facilities and activities that will be available at the famous Sheraton Hotel where the employees and their wives will stay. From left, sitting: W. E. Ellsesser, R. F. Jones, and V. J. Tovine. From left, standing: V. J. DeVito, R. E. Schillinger, E. L. Canterbury, C. R. McNish, and D. E. Easter.

GAT Safety Department Announces Monthly/Annual Contest Winners

The winning slogan for the June, 1964, Safety Slogan Contest was presented by W. S. Fleshman, department 858.

Mr. Fleshman presented the following slogan:

"STOP FLIRTING WITH HAZARDS — GO STEADY WITH SAFETY."

The winning caption for the June, 1964, Safety Caption Contest was presented by H. McClelland, department 226.

Mr. McClelland presented the following caption:

"KEEP A SHARP LOOKOUT FOR SAFETY HAZARDS."

There was a total of 28 slogans and 36 captions presented during the period of April 21, 1964, through May 20, 1964, which were entered in the June, 1964, contests. The winning employees will each receive a \$10.00 cash award.

The annual Safety Caption Contest winner was E. E. Wilburn of

department 265. The winning caption was:

"SAFETY IS NOT A HIT OR MISS PROPOSITION."

Mr. Wilburn will be presented merchandise valued at approximately \$100.00.

BETTASSO WINS

Mike Bettasso won Nationwide's Second All-Ohio Handicap Bowling Tournament and walked away with first prize money of \$750.00.

Bettasso competed for the championship on Sunday, May 31, before a television audience.

His scores for the three games were 123, 141 and 211 for a series total of 475. This score combined with his handicap for three games of 135 gave him 610. His opponent bowled 592.

Though the score was not impressive, it was enough to win.

Attention Bowlers!

The delegates attending the 1964 American Bowling Congress convention adopted twelve amendments. One which deserves special attention reads as follows:

"Require the written consent of a parent or guardian before a boy under the age of 18 may participate in ABC sanctioned leagues or tournaments where cash or merchandise prizes are offered."

This is aimed at alerting parents or guardians of the possible loss of a boy's scholastic eligibility if he bowls for cash or merchandise and thereby jeopardizes his amateur status.

Foremen's Club Plans Two June Outings

The Program and Entertainment Committee for the Foremen's Club is planning two outings for the month of June.

The first event is a dance. It will be held at the American Legion Hall in Portsmouth on Friday, June 5, from 9:00 p. m. to 1:00 a. m.

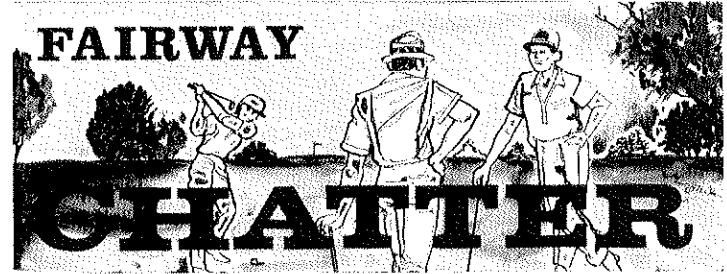

Joe Childers and his orchestra will furnish the music.

The cost is \$4.00 per couple and tickets will be sold at the door.

The second event will be the Annual Summer Barbecue. It will be held at the Scioto County Fairgrounds on Saturday, June 20. Activities will start at 10:00 a. m. and continue throughout the day. Numerous sporting events will be held with prizes awarded to the winners.

A transistor radio and a Zelco spinning reel will be given away as door prizes.

All club members are urged to attend these events.

Bim Walder, playing in the Monday Night League in Portsmouth, shot an even par 36. He had one birdie, one bogey and seven pars. It was unfortunate for Charlie Trivisonno that he was Bim's opponent.

At the end of the first round of play in the Waverly Wednesday Night League, the team of Joe Thoms, Bob Holland, Jim Spriggs and Lou Miller held a 10 point lead over Bob Owens, Howard Galloway, Fred Cashman and Cliff Thomas. In third place 12 points behind was the team of Vince DeVito, Lou Bickett, Jim Jones and "Shug" Owens.

Bob Holland, playing the best golf he has ever played, has defeated each of his opponents and has won 20 out of a possible 20 points.

Jim Sellars shot a 36 at the Jaycee course in Chillicothe. His par round included one bogey, one birdie and seven pars. His opponent during league play was Leo Woods. Jim is a member of the Thursday Night League.

RULES

Lost or Out of Bounds

If a ball be lost outside a water hazard or be out of bounds, the player shall play his next stroke as nearly as possible at the spot from which the original ball was played by him, adding a penalty stroke to his score for the hole. If the original stroke was played from the teeing ground, a ball may be teed anywhere within the teeing ground; if from the green or hazard, it shall be dropped; if on the putting green, it shall be placed.

Exception for out of bounds: When conditions justify, the Committee may adopt a Local Rule to read as follows: If a ball be out of bounds, the player may drop a ball, under penalty of one stroke, within two club-lengths of the place where the ball last crossed the boundary line. A player has the right at any time of ascertaining whether his opponent's ball is out of bounds.

A player may stand out of bounds to play a ball lying within bounds.

Unplayable

The player is the sole judge as to whether his ball is unplayable. It may be declared unplayable at any place on the course.

When a ball is declared unplayable, play his next shot from where the previous shot was made; drop a ball, under penalty of one stroke either within two club-lengths of the point where the ball lay, but not nearer the hole or behind the point where the ball lay, keeping that point between himself and the hole, with no limit to how far behind that point the ball may be dropped.

1964 GRADUATES
