## Valor In Vietnam Displayed By Brothers Of GAT Employees

(Editor's Note: Brothers of two GAT employes recently performed valiantly in Vietnam.

Abbreviated accounts of their heroic deeds are published with the hope that it will enable us to more fully realize the sacrifices required daily of young Americans.

M. Sgt. Richard Childers, brother of Bob Childers, utilities operations, returned from Vietnam in July and currently is instructor of ROTC at Akron University.

S. Sgt. Paul Orlett, brother of Dick Orlett, power operations, is to return from Vietnam in October. Orlett received the Purple Heart award and has been recommended for the Silver Star.)

M. Sgt. Richard Childers, U.S. Marines 4th Division, Charlie Company, led the remnants of his company in a fight for survival after all the officers were either killed or wounded.

Childers, first sergeant for the 150-man company is credited with rallying a counterattack and securing a small knoll in the dense Vietnam

jungle near the Cambodian border.

Nearly half of Childers' company was killed or wounded when an elite communist assault unit man-

## Calendar Of Events

Legion Hall

covered itself into position surrounding the American forces and mounted a suicidal attack.

Childers took over after his company commander was killed. He began shouting instructions and deploying troops against snipers and repeated infantry attacks.

Childers had only four days to go in Vietnam. Shorttimers, as they are called, are often overly cautious. Not Childers, who after receiving shrapnel wounds in both hands prowled the battlefield oblivious to enemy fire. His mind was on one thing - how to save his company.

The encounter was so fierce that half of Charlie Company received wounds and ten Americans were killed. The valiant actions of Childers and his companions turned what could have been a tragic defeat into a decisive victory. One that claimed the lives of 92 enemy soldiers.

S. Sgt. Paul Orlett (Portsmouth) was in Vietnam as a member of 3rd pl. command "K" Co., Fifth Marine Regiment.

He and his platoon were on a routine search and destroy mission when about 50 of the enemy were detected trying to flank the Americans from the rear.

Orlett, with 10 companions, waited until the communists got within a few yards of them and launched a surprise attack.

(Continued on Page 3)

ONE GIFT WORKS MANY WONDERS. Co-Chairmen of GAT's All-In-One Campaign, Dee Hughes, Labor and Community Relations Coordinator, and Bill Murphy, President, O.C.A.W., look over United Fund literature in hopes it will inspire each of us to BE BIG ENOUGH TO GIVE ENOUGH TO HELP ENOUGH.

Monday, October 2 marks the opening of GAT's annual All-In-One appeal for funds to support agencies of the United Fund.

Emphasis this year is being placed on personal contact with all the employees jointly by management and representatives where it is applicable.

Employees handling the appeal in the various departments met recently for an explanation of the mechanics of the drive and for information on services offered by the United Fund. Distribution of pledge cards will begin Monday, Oct. 2.

Co-Chairmen of the 1967 All-In-One Campaign, Dee Hughes, labor and community relations coordinator, and Bill Murphy, president, OCAW, urge each and every employee to actively participate by giving their fair share.

This year the various United Funds in our four-county area are seeking \$462,000.00, money that is vital to maintain the important work of the several volunteer health, welfare and youth organizations affiliated with the United Fund.

GAT employees expressed their generosity in 1966 by establishing a record high when 94 out of every 100 employees contributed a total of \$14,930.80. This, added to Goodyear Atomic's corporate gift, brought the total to \$23,430.80.

You will be contacted during the week of Oct. 2 - 9 by All-In-One representatives. Let's shoot for 100% participation in 1967.

BE BIG ENOUGH TO GIVE ENOUGH TO HELP ENOUGH

## Production Div. Changes Made

Effective Sept. 1, R. A. (Dick) Born was transferred from power operations to the engineering staff, plant engineering.

A. W. (Andy) Ondera was named to replace Born as general foreman, power operations.

Born joined Goodyear Atomic in June, 1953 as a technical staff trainee. He assumed the position of jr. engineer in Aug., 1953 and was promoted to power coordinator in Nov., 1954. Dick was named as cascade power area general foreman in Nov., 1958 and in Sept., 1963 was moved to power operations area general foreman.

He is a graduate of St. Mary's High School, Portsmouth, and holds a BS degree in electrical engineering from Dayton University.

Dick and Mrs. (Marilyn) Born live in New Boston with their six children.

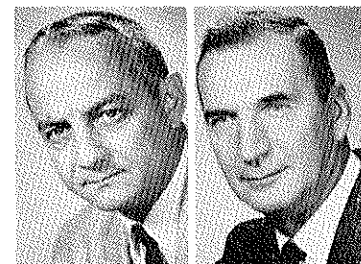

Andy Ondera joined the power operations section at Goodyear Atom-

ic in 1953. He was power foreman from July, 1954 until his current promotion.

Andy is a graduate of Tilden Tech High School in Chicago and is a three-year veteran of the U.S. Air Force.

He and Mrs. (Marge) Ondera have eight children and are residents of Jackson.

Additional moves in production saw John Delabar transferring from utilities operations, replacing Ondera, and Wayne Mace was promoted from utilities operator to utilities foreman.

R. A. Born

A. W. Ondera

 and the Association of Nuclear Editors.

A stream of editorials have been written about the irresponsible actions of the nation's teenagers.

Newspapers and magazines carry an almost daily account of youthful, teenage antics, misdemeanors, demonstrations and restlessness.

One seldom sees comments of praise for the contributions that our young people make to the Peace Corps, churches, arts and sciences and our nation's defense.

We adults wonder just where today's youth — tomorrow's adults will lead our nation.

The famous Greek philosopher, Socrates (470-399 B.C.) must have had many of our modern day anxieties when he wrote:

. . . Our youth now love luxury. They have bad manners, contempt for authority; they show disrespect for elders, and love to chatter instead of exercise.

. . . They no longer rise when elders enter the room. They contradict their parents, chatter before company, gobble up their food, and tyrannize their teachers.

Doubts concerning the future are dispelled when you read the heroic accounts of two of our soldiers fighting in Viet Nam, (see Page 1), and realize that they, too, represent our youth.

Their heroic deeds are strangely similar to those of the Sergeant Yorks and Nathan Hales of yesteryear.

One inevitable fact remains, the youth of our nation are serving now just as they have for generations.

## Company Dances Planned For The Coming Holidays

Goodyearites will have an opportunity to put on their dancing shoes during the holidays. Company co-sponsored dances are scheduled, Oct. 21 and Dec. 2.

GAT- Foremen's Club Halloween dance is set for Oct. 21. Joe Lavinger and The Tunetimers will furnish an array of entertainment from 9 p. m. til 1. a. m. Tickets are priced at \$3.00 per couple and can be purchased from Foremen's Club trustees or recreation.

The Goodyear Women's Club of Portsmouth is finalizing dance plans for their traditional Poinsettia Ball.

The annual affair is set for Saturday, December 2 at the American Legion Hall in Portsmouth.

Music for the dance will be fur-

nished from 9 p.m. 'til 1 a.m. by the Bobby Clinton Sextette.

Tickets at \$4.50 per couple will include special prizes, entertainment and refreshments. Tickets may be purchased from members of the Portsmouth Women's Club or at the recreation office.

Members of the 1967 dance committee are: general chairman, Mrs. Bill (Betty) Beaumont, laboratory services; decorations, Mrs. John (Annetta) Delabar, power operations; tickets, Mrs. Paul (Ginny) Briggs, process operations; entertainment, Phyllis Bowling, production; raffle, Mrs. Lou (Miriam) Donini, cascade maintenance; door prizes, Mrs. Dave (Jane) Goodman, utilities maintenance; refreshments, Mrs. Elmo (Joyce) Flianders, process operations; decorations, Mrs. Orlando (Mima) Vita, chemical analysis; and publicity, Mrs. Max (Dortie) Coryell, shift superintendent.

Proceeds from the Christmas dance go to the Happy Hearts School for mentally retarded children.

## Goodyear Spirit Award Nomination Deadline Is Set

Mid-November is the deadline for nominations for the Mildred V. and Edwin J. Thomas Goodyear Spirit Award.

Nominations may be made by any Goodyearite for any employe of the company, retired or active, or a member of their family. A selection committee will pick the award winner from the nominations and the Thomases will present the award to the Goodyearite who best exemplified the "Goodyear Spirit." Nominations should be sent to the office of Nelson G. Ball, vice president, Goodyear-Akron.

The award is presented to the person who is judged to have greatly contributed to the creation, maintenance and growth of what has come to be known as the "Goodyear Spirit." It is presented at the annual gathering of employes for the Christmas program in Goodyear Theater, Akron.

The award is a bronze medallion, three inches in diameter, suspended in a diamond-shaped form mounted on a black Carrara glass base. A \$1,000 cash grant, financed by the Thomases, accompanies the award.

## Banquet Date Set

All champions planning to attend GAT's 1967 annual Banquet of Champions should hold Saturday, Nov. 4 in reserve. Plans are rapidly being completed to hold the banquet at the Portsmouth Elks Country Club.

The 1967 banquet committee composed of Phyllis Bowling, Rhetha Massie, John Thompson, Marty Redden, Andy Clausung, Ed Hartnett, and Dave Goodman are working hard to make this year's banquet a good one.

## E. L. Salazar Joins GT&R

E. L. (Ernie) Salazar, former member of operations analysis, was transferred to Goodyear-Akron, Sept. 18, 1967. Ernie will join GT&R's systems research division, reporting to former GAT employe Ray Newell.

Ernie joined Goodyear Atomic in June, 1962, as a technical man and was promoted to staff technician, Oct., 1965.

While at GAT he was a trustee of the Foreman's Club, a part-time instructor at Ohio University-Chillicothe Branch, active in the Waverly Jay-ces and a member of St. Mary's Church.

Ernie holds a BS degree in mathematics from New Mexico Institute of Mining and Technology and a master's degree in mathematics from New Mexico State.

Ernie and Mrs. (Rita) Salazar have three daughters.

**XXV YEARS SERVICE.** R. H. Gillespie, SS Materials Handling, received a 25-year tie clasp and hearty congratulations from G. H. Reynolds, General Manager, at a luncheon held in honor of his 25 years of continuous service with Goodyear.

## R. H. Gillespie Joins Quarter Century Club

Bob Gillespie, SS materials handling, notched his 25th year of continuous service with Goodyear Sept. 5, and was initiated into GAT's 25-year club at a luncheon held in his honor. G. H. Reynolds, general manager, acted as master of ceremonies.

Reynolds presented Bob with his 25-year service award and welcomed him as the club's 30th active member.

Bob began his career with GT&R in 1942 when he joined the plant engineering stores and receiving department.

After spending a 2½-year hitch in the U.S. Navy during World War II, he returned to Goodyear as office manager of the Market Street garage.

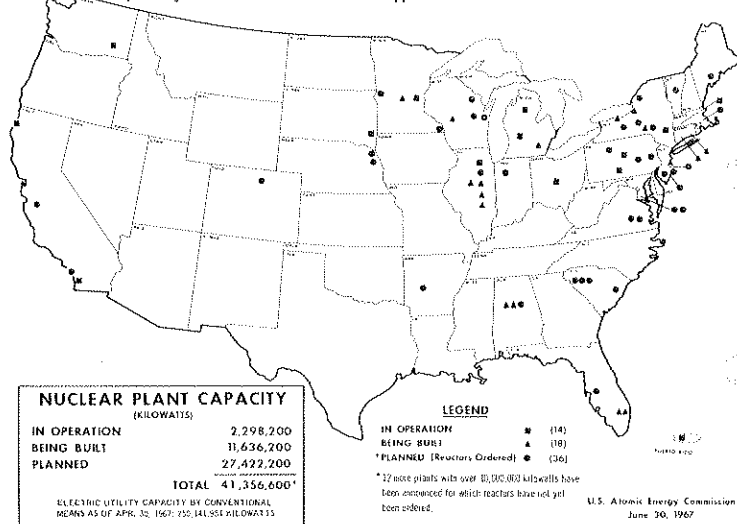

In 1949, he was promoted to foreman in the outside transportation department.

Bob transferred to GAT in Sept., 1953, and is currently supervisor in SS materials handling.

He and Mrs. (Maxine) Gillespie are residents of Jackson. They have three children and are members of the First Methodist Church in Jackson.

### NUCLEAR POWER PLANTS IN THE UNITED STATES

The nuclear power plants included in this map are ones whose power is being transmitted or is scheduled to be transmitted over utility electric power grids and for which reactor suppliers have been selected

AEC STATISTICS RECENTLY RELEASED reveal that, as of June 30, 1967, the U.S. civilian nuclear power program reached 51,356,600 kilowatts (KW). Fourteen nuclear power plants were in operation generating 2,298,200 KW, eighteen plants (11,636,200 KW) were under construction. Thirty-six planned power plants (24,422,200 KW) have placed orders for reactors and twelve additional plants with a capacity of 10,000,000 KW have been announced for which reactors have not yet been ordered. During the first half of this year, 21 electric utilities announced plans for 23 nuclear power plants with a total capacity of about 18,325,000 kilowatts. Reactors were ordered for 16 of these plants, and for four plants previously announced. (Twenty-one reactors were ordered for all of 1966.) During the first half of 1966, 17 utilities announced plans for 17 nuclear power plants with a total capacity of about 13,500,000 kilowatts. Reactors have been ordered for 16 of these plants. The map of the United States shows the location of all present and proposed civilian nuclear power plants.

**ANN CASEY**  
Women's Company Champion

**DOROTHY BICKETT**  
Women's League Champion

**ON THE BALL** are the winners of company championship tournament flights. (L to R top) Bill Craycraft, D-513, fourth flight; Charlotte Yates, D-201, second flight; (L to R center) Jerry Komlos, D-222, sixth flight; Ruth Mangus (Ray Mangus, D-711), first flight; Bill Hockenheimer, D-732, third flight; (L to R bottom) Dave Goodman, D-732, second flight; and Don Arnett, D-816, fifth flight.

## '67 Company Golf Season Ends With Championship Tourneys

The largest number of golfers to participate in recent years dotted local golf courses to vie for honors in GAT's company golf championships.

The women's tourney, consisting of two, nine-hole sessions, was held at Skyline Golf Course in Waverly.

Ann Casey, wife of Bob Casey, electrical maintenance, successfully defended her 1966 title by repeating as women's 1967 company champion. Ruth Mangus, wife of Ray Mangus, cascade maintenance, won the first flight and Charlotte Yates, industrial relations, was second flight winner. Dorothy Bickett played steady golf throughout the season and emerged as winner of the women's golf league. A company playday and cookout was enjoyed on the final night of the tourney.

One hundred and fourteen golfers took advantage of perfect weather Sept. 16 to try for men's championship honors and enjoy the golf playday.

Six separate flights were established in accordance with league or club averages. All golfers were eligible for championship honors.

Joe Thoms, mechanical development, shot a fine 78 to capture men's championship trophy. The runner-up slot was decided in a sudden death play-off between defending champion Dick Entler, equipment design, and Chuck Trivisonno, chemical analysis. Entler emerged as runner-up winner and Trivisonno won first flight honors. Other flight winners were: second flight, Dave Goodman, utilities maintenance; third flight, Bill Hockenheimer,

utilities maintenance; fourth flight, Bill Craycraft, SS accounting; fifth flight, Don Arnett, process operations; and sixth flight, Jerry Komlos, technical squadron.

The final outing of the season, the mixed two ball tourney and dinner was held September 24. Champions of the event were Fred and Marge Pickens, industrial relations division.

All golf champions will receive trophies at GAT's annual banquet of champions to be held Nov. 4 at Portsmouth Elks Country Club.

## Vietnam

*(Continued from Page 1)*

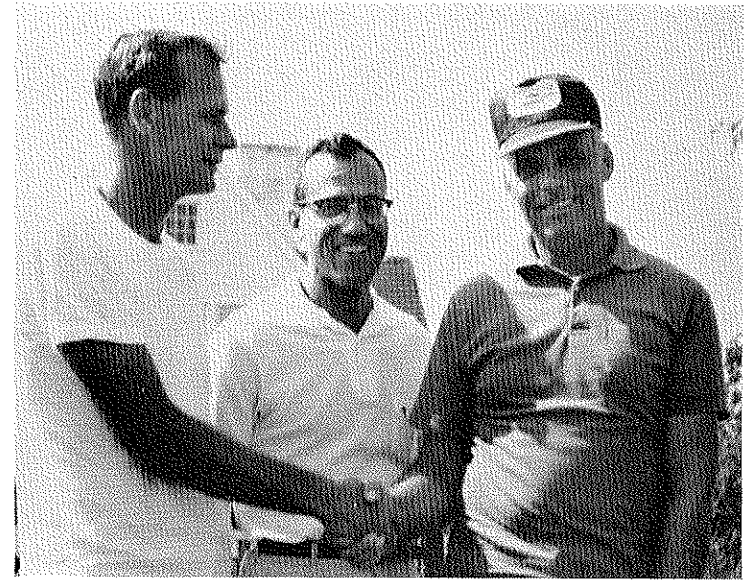

The Viet Cong set up two machine gun positions and attempted to overrun the Marines with repeated assaults.

Although nearly out of ammunition, Orlett and his men rushed forward while their platoon was being bombarded with heavy barrages of Chinese communist hand grenades.

When the enemy retreated, Orlett radioed for reinforcements.

Air strikes strafed the enemy and teams of leathernecks helped get Orlett and his men to safety.

The fierce encounter ended with 38 North Vietnamese dead. Fortunately, no Marines were seriously wounded although Orlett received shrapnel wounds during the encounter.

**GAT'S COMPANY CHAMPION** Joe Thoms (R), Mechanical Development, is congratulated by company runner-up Dick Entler (L), Equipment Design and first flight winner Chuck Trivisonno, Chemical Analysis. Thoms bested a field of 114 golfers in GAT's 1967 company championship tournament.

## Vytacord Tires For Winter

The first winter tire made with Vytacord polyester cord has been announced by Goodyear.

The Suburbanite winter tire — the fourth polyester core tire in Goodyear's passenger car line — features a deep "double-S" traction tread pattern with contoured shoulders, according to Charles A. Eaves Jr., vice president for replacement tire sales.

Goodyear pioneered Vytacord polyester cord in tires, introducing it in the company's top-of-the-line Double Eagle tire in 1962. Late last year the company announced extension of polyester cord into the Custom Power Cushion and Power Cushion tire lines. The Super-Torque farm tractor tire with Vytacord polyester cord has been available from the company for nearly three years.

"The rapid gains which have been made by this outstanding new fiber in the tire field are due to its exceptional performance characteristics," Eaves said. "Vytacord incorporates the durability of nylon and smooth riding characteristics of rayon, while providing the added advantages of superior moisture resistance and dimensional stability."

The Suburbanite Vytacord tire is of 4-ply construction and will be available both in blackwall and extra-narrow whitewall design. A triple-band whitewall also will be available to match the Custom Power Cushion sidewall design.

CHAMPIONSHIP PENNANTS are displayed by members of the Sciotoville Little League All-Star team. Coach Welch (center), Chemical Operations, is flanked by team members Jeff Cottle (left), son of Clay Cottle, Code Inspection, and Bob's son, Jeff Welch. Their skills played an important part in helping the Sciotoville team win four little league titles before being defeated in the U. S. Northern Regional tourney.

## Little Leaguers Enjoy Treat Of A Lifetime

Little league baseball brings fun to young and old alike but it seldom brings the thrills experienced by Bob Welch, chemical operations.

Bob, like a number of Goodyearites, devotes his summer evenings to managing a little league baseball team. These efforts paid off recently when he was selected as coach of the Sciotoville Little League All-Star team — a team that, though small in stature, developed into Ohio's most exciting little league team.

Led by Bob's son, Jeff Welch, a pitcher, and infielder, Jeff Cottle, son of Clay Cottle, code inspection, the Sciotoville club racked up eight straight victories and captured four championship crowns.

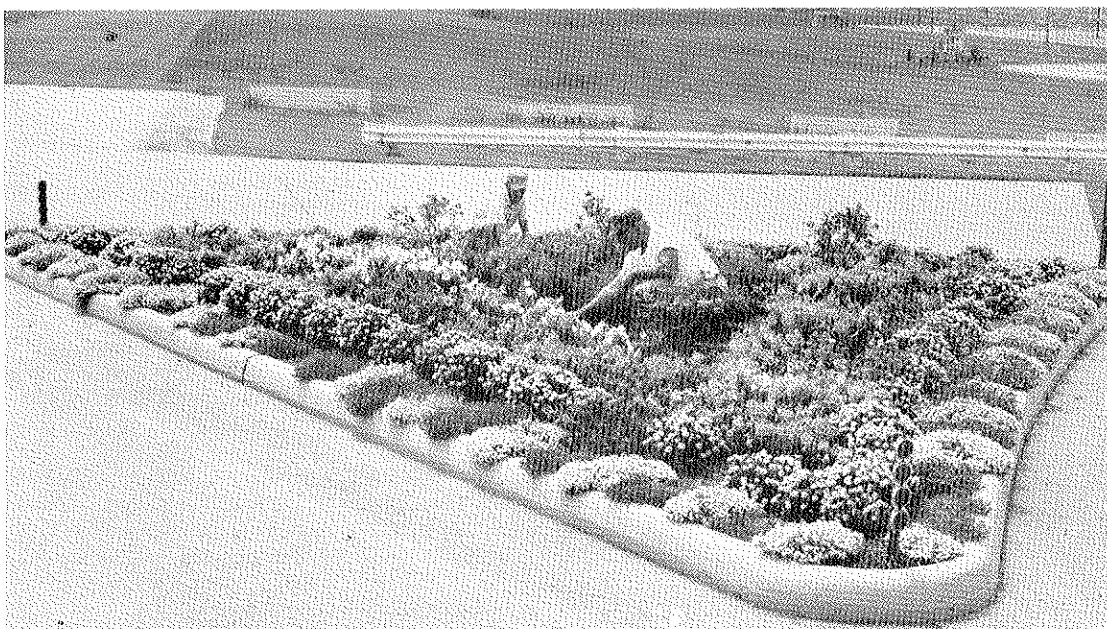

After winning their local district 11 tourney, the team took the southern Ohio regional title and the Ohio State Little League championship.

An additional pennant was added

when they defeated the Michigan State champions and earned the right to participate in the U.S. Northern Regional playoff.

Sciotoville was defeated in the first game of the regional playoff by Roseland, Ill., a suburb of Chicago. However, the team went on to win third place by defeating the Wisconsin entry and establish a record of 9 wins against 1 loss.

Bob recalled that winning the championship was a wonderful experience. However, his greatest satisfaction came in realizing that his son and the other boys were getting a once-in-a-lifetime treat — one that neither Bob or the boys would ever forget.

PLANTSITE BEAUTIFICATION. Only color photographs could do justice to the landscaping recently added at GAT. Within the past two years, shrubs, trees, lawns and beds of flowers have been planted to "dress up" our working areas. The lovely flower beds located on

the access road and at the entrances to the Cafeteria and Administration Building have been enjoyed by all. Tom Kouns (left), Charles Mahle (right) and other members of Buildings and Grounds have certainly done an excellent job making GAT's work areas more attractive.

## In Memoriam

CLARENCE SMITH

Clarence Smith was born Sept. 12, 1908. He was a native of Lawrence County. Previous employment before coming to GAT included a machinist's helper for the N & W Railroad in Portsmouth from June, 1946 to Jan., 1949, and a machinist for the N & W Railroad from June, 1950 to Jan., 1954. He joined Goodyear Atomic on Nov. 17, 1954. Clarence was employed in Dept. 732 at the time of his death on Sept. 9, 1967.

He is survived by his widow, Mrs. Charlene Smith.

ELWOOD MARTIN

Elwood Martin was born at Scioto Furnace, Sept. 14, 1909. He attended South Webster High School and Portsmouth Business College and was a member of the Methodist Church. Elwood joined Goodyear Atomic Oct. 12, 1953, and was employed as a machinist in Dept. 721 at the time of his death Aug. 23, 1967.

He is survived by his wife, Mrs. Roeverna Martin, and a son, Robert.

## In Sympathy

Mr. Walker J. McCracken, age 83, died at the Scioto Memorial Hospital on Sunday, Aug. 20. A son, Albert McCracken, is in Dept. 726.

Mr. James T. Wesner died Monday, Aug. 21, in Clarendon, Arkansas. A son, James W. Wesner, is in salary administration.

## CLASSIFIEDS

### FOR SALE

1963 Chev. Corvair Monza, radio, heater, low milage. Phone Waverly 947-5312.

Registered English Setter puppies, four months, \$50 each. Phone Chillicothe 772-1882.

### CARPOOL

Wants riders from northwest quarter of Portsmouth. "O" Shift Phone Portsmouth 353-2028.

### FREE

Bantam roosters. First come, first served. Phone Piketon 289-3941.

## Sports In Short

While NFL and NCAA football stars are making touchdowns on television this fall, Goodyear TV commercials will be scoring points with the same audiences.

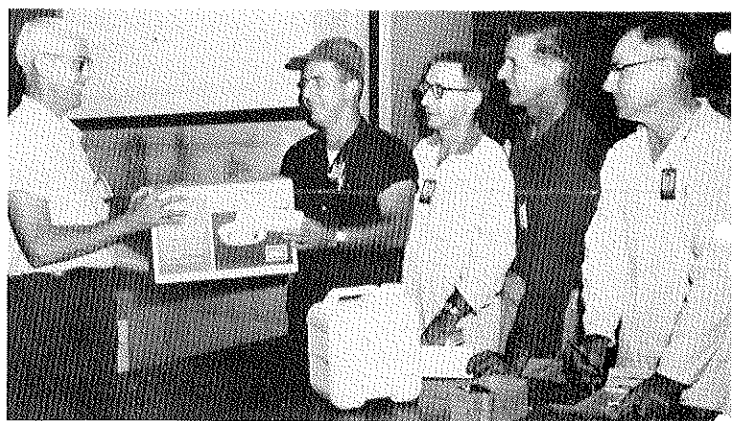

Collegiate football games will be televised on more than 200 stations in the United States. Sixteen games will be telecast, the first on Saturday, Sept. 16.

Goodyear sponsorship of professional football games will start Oct. 1 and continue for nine weeks. In addition, Goodyear will sponsor pre-kickoff shows before each pro game telecast in the Akron-Cleveland area.

Two GAT golfers made a fine showing in the 1967 Columbus District Golf Association pre-senior tournament. Ray Mangus, electrical maintenance, shot a 67 in the handicap tourney to win low net over 203 competitors. Ray received an engraved silver plaque and a \$100 merchandise certificate for his victory.

Cliff Thomas, steam plant, came in fourth in the 40-44 age group by shooting a net 72. He received a \$20 gift certificate for his efforts.

The Gizmos, GAT's 1967 men's bowling championship team, continued their winning ways by copping 52nd place in the 30th Annual Dayton Industrial Tournament. This is the highest finish "ever" by a Goodyear team. Team members Elmer Litteral, D-552; Bill Overman, D-521; Bill Levier, D-552; Carl Walker, D-552 and Paul Slaughter, D-551 received \$365 for their fine showing. A total of 6,502 teams competed in the tourney for prize money totaling \$152,797.

SAFETY AWARDS given for 1,500,000 manhours worked without a lost-time accident were recently distributed to all GAT employees. The gifts, retailing at approximately \$3.00 were dispensed at central locations. Ker Carter, Stores, hands out awards to (L to R) Arthur Ramey, D-424; Burdell Hoffman, D-711; Joe Brant, D-711; and Elmer Dillow, D-731. GAT reached 1,673,575 manhours before a lost-time accident occurred. A new figure of approximately 530,000 hours will be reached by Oct. 1. Let's shoot for 5 million this time.

## New Arrivals

Mr. and Mrs. Lavern R. Jones, (process operations), daughter, Linda Gail.

Mr. and Mrs. R. L. Stambaugh,

(materials sampling & testing) daughter, Tammi Yvette.

Mr. and Mrs. C. J. Slater, (cascade operations), son, David Charles

Mr. and Mrs. A. L. Carden (special analysis), daughter, Elena Cristina.
