PORTSMOUTH AREA AEC PROJECT

OCTOBER 9, 1953

NUMBER 5

NATIONAL FIRE PREVENTION WEEK OCTOBER 4 - 10

SAFETY IS YOUR BUSINESS

Fire fighting apparatus equal to that of a city with a population of approximately 30,000 people, is shown above by the Peter Kiewit Sons' Co. Fire Department on the Portsmouth Area AEC project. Pictured with

the equipment is a portion of the department personnel. The unit has three 750-gallon per minute pumps, one 500-gallon and one 250-gallon. Two of the large Howe make pumpers are equipped with 45-foot

extension ladders. Each of the trucks carry 2½ and 1½ inch hose and all have booster tanks. Standing immediately to the left of the center truck is Fire Chief S. J. "Jack" Cropper.

KIEWIT FIRE COMPANY BOASTS EXCELLENT PREVENTION RECORD

The observance of National Fire Prevention week from October 4 to 10, affords an excellent opportunity to applaud the merits of the Peter Kiewit Sons' Co. Fire Department for its outstanding service and fine preventive program during the nine months the company has been in operation on the Portsmouth Area project.

Since this huge construction job began nearly a year ago, loss by fire has been limited to only \$500. This can be attributed to the untiring efforts of Chief Jack Cropper, Fire Prevention Officer Lt. Bob McNish and the men of the department.

At present the project Fire Department consists of 43 men and five pieces of modern fire fighting apparatus. Most of the department personnel have been members of experienced crews in various city departments.

Chief Cropper, a veteran of 22 years service with the Portsmouth Fire Department, devotes a great amount of time to continually training his men in the newest techniques of fire fighting. Lt. McNish, a former member of the Chillicothe Fire Department before joining PKS, carries on a never-ending program of fire prevention each day. All fire fighting apparatus in buildings, such as extinguishers and sprinkler systems, are checked daily to insure working order in case of emergency.

As a result of the excellent cooperation received from contracting companies on the project and the fine work of the Fire Department, only 20 runs have been made since the company was instituted nearly a year ago. All of these blazes, including troublesome grass fires, were of a minor nature.

Community Chest Drive On Project Will Begin Oct. 12

A message from the General Manager's office announced solicitation for the Community Chest would take place on the project beginning Monday, October 12 and would run through Thursday, October 22. Each employee will be contacted individually and given an opportunity to donate.

Employees, upon contributing, may designate the county in the surrounding area to which they would like to have their donation accredited.

The management and AEC, working together with the Community Chest which sponsors the many Red Feather agencies, request the support of all employees in putting this worthy cause over the top in this year's drive.

OBERBECK INJURED IN WRECK

Nelson A. Oberbeck, chief storekeeper in the Permanent Materials Division, sustained serious injuries last Saturday night when the car he was driving hit a bridge abutment on Route No. 23 four miles north of Lucasville.

Oberbeck was taken to Portsmouth General Hospital suffering head and chest injuries and facial lacerations. Hospital attendants reported his condition as "good" early this week.

DRIVER PERMIT OFFICE MOVED

The Atomic Energy Commission's driver permit office, formerly located at Twin Oaks, has been moved to the west end of Light Equipment Repair Shop in Warehouse "B". Office hours for the issuance of AEC permits will be daily from 7:00 A. M. to 4:30 P. M.

MAHON RAPIDLY COMPLETING LARGE STEEL ERECTING CONTRACT

This group of R. C. Mahon Company top construction personnel on the Portsmouth Area project are pictured outside the company's mobile office unit on the area. The Mahon Company of Detroit is handling the steel fabrication and erection for one of the large process buildings on the job. Left to right are: Yard Superintendent C. H. Freed, Detail Superintendent J. T. Douglas, Detail Superintendent R. F. "Bob" Sigman, Detail Superintendent J. J. Smith, Project Manager J. P. "Jim" Dei, Field Fabrication Superintendent Ralph E. Sigman, Project Engineer L. A. Vabulas, Erection Superintendent J. C. Crabtree and General Superintendent A. V. "Carl" Washburn.

The R. C. Mahon Company of Detroit, one of the many fixed-fee subcontractors that will take part in the building of the Portsmouth Area AEC installation, is rapidly completing its phase of steel erection on one of the project process buildings.

The Detroit company was awarded a six million dollar plus contract by the prime contractor, Peter Kiewit Sons' Co., for steel erection and fabrication. A total of 23,000 pounds of steel will have been used by Mahon when the job is completed.

Project Manager James P. Dei said due to transportation difficulties the steel, which was all fabricated in Detroit had to be carried by truck, ship and rail to the jobsite.

Mahon's fine safety record came in for praise by the PKS Safety Department. Only six lost time accidents were chalked up against the ironworkers in their hazardous operation in an estimated 216,000 man-hours of labor.

Mahon's daily payroll on the job runs approximately \$14,000. Since work began, nine tons of welding rod alone has been used up in operation. An estimated 2,500 rivets are used daily. Welding equipment, cranes, air compressors and trucks burn 250 gallons of gas each day in addition to 100 gallons of diesel oil.

The Portsmouth Area job was the first government contract ever bid on by the Mahon Company.

Pictured above is PKS Warehousing Department Director Ralph A. Steigler and members of his immediate staff that are responsible for the handling of the vast amount of materials required in the building of this multi-million dollar AEC installation. Seated left to right are: Bertie Lou Jones, secretary to the director; Superintendent of Central Receiving Bill Vaughan, and Steigler. Standing left to right are: Superintendent of Expendable Materials Charles Tucker, Superintendent of Permanent Materials Jim Matthews, Superintendent of Traffic John Sybyst, Superintendent of Tool Control W.B. Maddux and Senior Administrative Assistant C. D. Samsel.

Published fortnightly by Peter Kiewit Sons' Co., its subcontractors and affiliated companies for all employees and their dependents on the Portsmouth Area U. S. Atomic Energy Commission project. "THE ATOMIZER" is edited and printed as a function of the PKS Recreation Division, Luther F. Poling, chief.

OUR DUAL ROLE

On this project each of us plays a dual role. As employees, we perform work essential to the completion of a plant designed to provide for our future security and well-being. As taxpayers we pay the bill covering salaries, material, and equipment necessary to get the job done.

The more efficiently we do the work, the less the cost will be to us in our role as taxpayers and the smaller indebtedness we pass along to our children.

When we needlessly waste time or material we are robbing ourselves as well as our neighbor.

It is our plant, bought with our money. Let's be sure that we exercise the same care in conserving our assets here that we use in our homes.

George C. Holling, General Manager
 Peter Kiewit Sons' Co.
 Portsmouth Area AEC Project

Shown above are several members of the Ohio State Highway Patrol with project employees active in the patrol's auxiliary force. The auxiliary unit was originated and is sponsored by the Ohio State American Legion. Pictured standing left to right are: W. A. Stetzing, Jr., Patrolman R. T. Fannin, Corporal E. H. Sauner, Corporal C. D. Littler, H. L. Rutherford, Lt. G. D. McConnell and Sgt. Max Lambert. Kneeling left to right are: J. L. Bennett, W. E. Johnson, Don Pettit, Larry Horning and W. D. Miller.

More Apartments Are Made Available At Western Hills

An additional 38 apartments in the new 160-unit Western Hills F. H. A. project in Chillicothe were released last week to salaried employees of the AEC, Goodyear, Architect Engineers, Peter Kiewit Sons' Co. and its three CPFF subcontractors. The announcement was made by PKS Housing and Feeding Chief J. C. Nelson.

Several weeks ago the first group of 72 apartments were made available for occupancy. The remainder of the space at Western Hills is expected to be ready within the next two or three weeks.

Persons securing certificates for F. H. A. and P. H. A. Housing are required to advise the Housing and Feeding Division, within 15 days, of any change of address or of any intention not to accept the assigned space.

Employees who request listings from the Housing Division to obtain living space are asked to contact the division upon taking residence at any of the addresses supplied by the housing office.

Project Employees Are Members Of State Patrol Auxiliary Unit

An acute need for Ohio State Highway Patrol personnel in the early days of World War II led to the formation of an auxiliary organization sponsored by the Ohio American Legion in 1942. The auxiliary was instituted under State Highway Patrol Superintendent Colonel George Mingle.

The paramount purpose for organizing the group was to supplement the greatly depleted ranks of the State Patrol throughout the duration, however, the merits of the auxiliary during the war years were so great that the organization was continued and has grown from an original group of 500 members to approximately 5,000 at the present time.

Some 12 to 15 auxiliary patrolmen, of an estimated 300 in the surrounding four-county area, are employees at the Portsmouth Area EC project.

Each member of the group completes 60 hours of class work in regular patrol techniques before becoming active auxiliary members. Classes are instructed by State Highway Patrol personnel and all individuals must be Legionnaires to be eligible for membership.

Auxiliary duty includes work in all emergencies, road patrol and various other special details designated by the detachment commander of the patrol served by an auxiliary unit.

SOCIAL SECURITY OFFICE IS OPENED IN WAVERLY

Portsmouth Area employees desiring information or advice regarding their Social Security accounts are invited to contact the representative of the Portsmouth Office of the Social Security Administration, who holds office hours in the Fire Station at Waverly on the 1st and 3rd Fridays of each month between 1:00 and 3:00 P. M.

If more convenient, employees may visit the Portsmouth Office located at 612 Masonic Building, Portsmouth, Ohio, Office hours are from 9:00 A. M. to 5:00 P. M., Monday through Friday.

— THINK SAFETY —

ENGINEERING'S OFFICE VOCABULARY

1. It is in process — So wrapped up in red tape that the situation is almost hopeless.
2. We will look into it — By the time the wheel makes a full turn, we assume you have forgotten about it too.
3. A program — Any assignment that can't be completed by one telephone call.
4. Expedite — To confound confusion with commotion.
5. Channels — The trail left by inter-office memos.
6. Coordinator — The guy who has a desk between two expeditors.
7. Consultant — Any ordinary guy more than 50 miles from home.
8. To activate — To make carbon and add more names to the memo.
9. To implement a program — Hire more people and expand the office.
11. Under Active Consideration — We're looking in the files for it.
12. A meeting — A mass mulling by master minds.
13. A conference — A place where conversation is substituted for the dreariness of labor and loneliness of thought.
14. To negotiate — To seek a meeting of minds without a knocking together of heads.
15. Re-orientation — Getting used to working again.
16. Reliable source — The guy you just met.
17. Informed source — The guy who told the guy you just met.
18. Unimpeachable source — The guy who started the rumor originally.
19. Clarification — To fill in the background with so many details that the foreground goes underground.
20. We are making a survey — We need more time to think of an answer.
21. Note and initial — Let's spread the responsibility for this.
22. See me, or let's discuss — Come down to my office, I'm lonesome.
23. Let's get together on this — I'm assuming you're as confused as I am.
24. Give me the benefit of your present thinking — We'll listen to what you have to say as long as it doesn't interfere with what we've already decided to do.
25. To give someone the picture — A long, confused and inaccurate statement to a newcomer.
26. Will advise you in due course — If we figure it out, we'll let you know.

Reprinted from the "Alumni News" published by the Alumni Association of Indiana Technical College.

SAFETY CHIEFS VISIT AREA

N. H. Marsden, chief of Safety for Oak Ridge Operations and Humphrey Gilbert, assistant to Atomic Energy Commission Safety Director Dan Hayes made a general periodic inspection of the Portsmouth Area AEC installation last week. Marsden and Gilbert were accompanied on the project tour by W. C. Crozer, chief of Safety for the AEC on the Portsmouth job.

Huge Pipeline Will Carry Water 4 Miles From Piketon To Plant

Construction is well under way by the Central Construction Company of Oshkosh, Wisconsin in the building of a \$1,647,650 raw-water pumping station and four-mile pipeline that will supply the project with the 40,000,000 gallons of water that will be needed each day when the plant goes into full operation.

The pumping station is located on the Scioto River just outside the Piketon city limit. Water will be forced through a 48-inch concrete pipeline to the jobsite by six eight-million gallon a day vertical-shaft motor-driven pumps.

Prior to the selection of the site for the new plant the Atomic Energy Commission made a thorough study of the amount of water in the Scioto River at low stage. The investigation

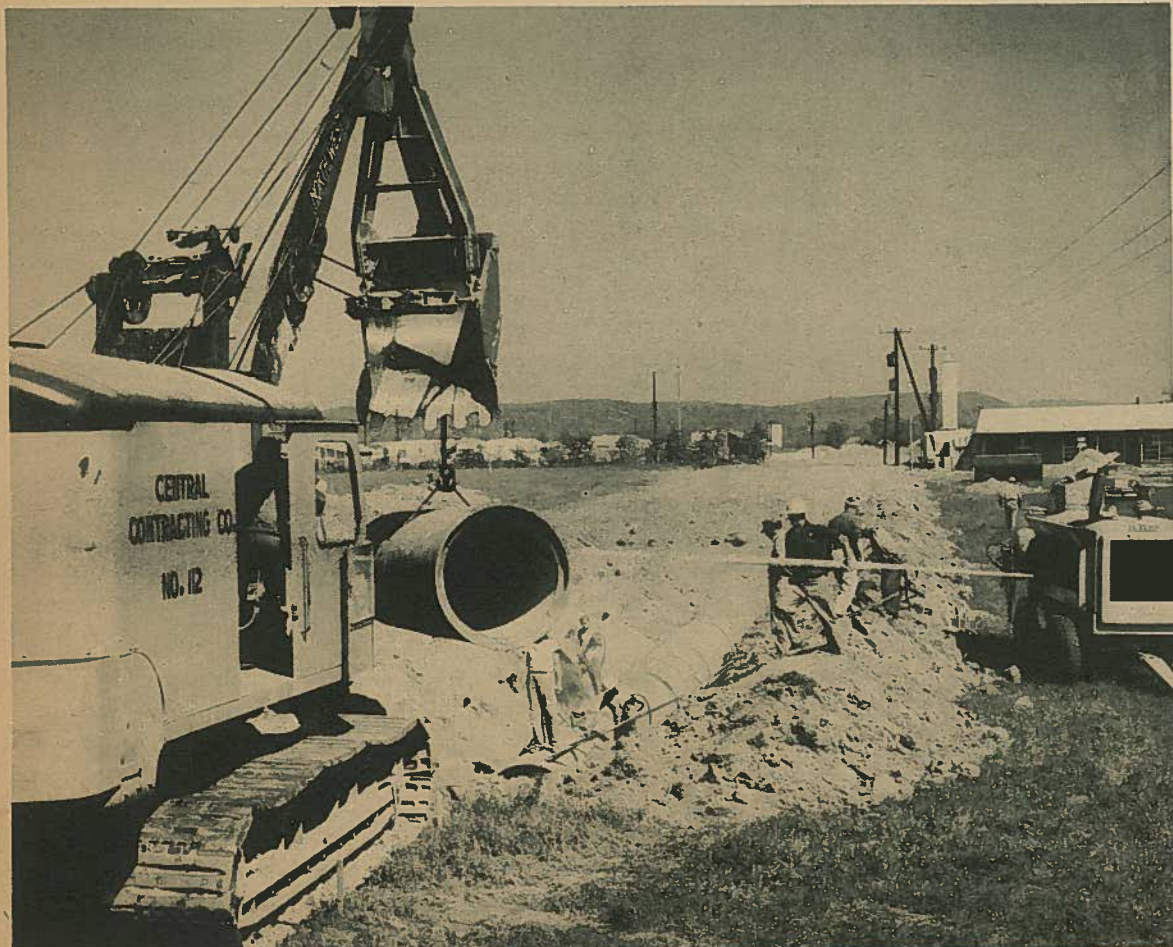

showed that the rate of flow of the river at its lowest stage will provide more than ample water for the plant.

Approximately 10 per cent of the water coming to the plant through the huge pipeline will be treated for sanitary use. The remainder will be clarified and used for process purposes.

The pumping station is expected to be in operation sometime next year.

ED STOKELY TRANSFERRED

Edwin E. Stokely, public information officer of the Atomic Energy Commission's Portsmouth Area, has been transferred to Oak Ridge, Tennessee, where he will become public information officer of the Oak Ridge Operations Office. Stokely assumed his new duties October 5.

Shown above is a section of the huge 48-inch concrete water pipeline, under construction from the Scioto River at Piketon to the jobsite, being put into place by employees of the Central Construction Company. The one large shovel shown in the picture does all of the ditching and then handles the laying of pipe. The section of work being completed is just south of the Piketon Trailer village.

WESTERVELT POSTS 70 TO WIN PROJECT TOURNEY AT ELKS

J. W. Westervelt, Grinnell Corporation senior engineer, fired rounds of 41 and 52 to cop low-net honors with a 70 in the 18-hole Project Golf Tournament sponsored by the PKS Recreation Division at the Elks Country Club course on Saturday, October 3.

Westervelt's handicap, under the Callaway system that was employed, was 22. Assistant to Manager George Ellenwood and Jim Smallwood of Grinnell tied for second low-net with 72.

John Schuerman of the PKS Construction Engineering Department won low-gross prize for the match with rounds of 41 and 39. Al Larsen, of the PKS Building Division, posted a 40-42 for and 82 to gain second low-gross.

Other prizes went to Schuerman and Larsen respectively, for the most pars, Smallwood and Larsen for the most birdies and Ellenwood and Dick Fleming for posting high-gross totals.

Prizes will be awarded to all of the above-mentioned winners by the Recreation Division.

— THINK SAFETY —

Pictured above is some of the action that took place in the Project Golf tourney sponsored by the PKS Recreation Division last Saturday. In the top photo General Manager George C. Holling sinks putt on the eighth hole at Elks Club course, while (left to right) Virgil Lynn, George Ellenwood and Joe Lee look on intently. In the middle picture Jerry McGrath "tees off" on the first hole. Next up is W. D. McDonald (extreme right) and waiting their shot are Bob Keegan (left) and Al Larsen. In the lower photo on left to right are: R. G. Peterson, T. R. Hill, Joe Brumley and Howard Clark. Clark appears to be getting a little advice from Brumley on how to get around his ball.

Structural Ironworker Doubles As Professional Wrestling Star

Bill Hiers, a structural ironworker with the R. C. Mahon Company on the Portsmouth Area job, has found rough steel erection work a fine conditioner for the wrestling profession he turns to during the winter months.

The 6-3, 220 pound Hiers has been in steel work since 1939 and has wrestled as a pro for the past five years. Bill began his ring career at the age of 12 as an amateur in the Y. M. C. A. at Savannah, Georgia.

Since turning professional, Bill prefers to work on steel erecting jobs during the warm months and to devote full time to wrestling throughout the winter and early spring.

won all three of his bouts since joining Mahon on this job. His next match will be this coming Tuesday at the CIO Steelworkers Hall against an un-named opponent.

Bill had a brilliant war record serving as a lieutenant with the Marine Corp in Europe and the South Pacific for three years. Hiers wrestles under the management of Al Haft of Columbus. He has had TV bouts in California, Maryland and New York and was amateur champion in California.

WOMEN BOWLERS FORM EIGHT TEAM LEAGUE AT WAVERLY

An eight-team women's bowling league, made up of dependents of project employees living in trailer villages in the area, plan to begin competition at the new Weiss Recreation Lanes in Waverly on October 20.

Members of the league held a practice session on October 6, and plan another this coming Tuesday before actual loop play begins on the 20th.

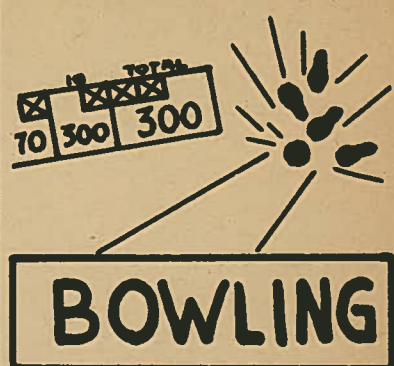

Other trailer village activity being sponsored by the PKS Recreation Division includes instruction in square dancing which will be given at the Jolly Spot at Givens, Ohio, on October 22, from 8:00 until 10:00 P. M. The Jolly Spot is located on route No. 124, east of Piketon.

A newly formed Women's Club plans to hold its initial meeting at Zohn's Corner in the Westminster House on Wednesday, October 14, at 1:30 P. M. An organizational meeting will also be held to form a Home Demonstration Club at Zohn's Corner on the Monday, October 12, at 1:30 P. M. Zohn's Corner is located at the intersection of state routes No. 124 and No. 220, east of Piketon.

WAKEFIELD GUN CLUB MEETS

"Red" Farris of Portsmouth, nationally-known authority on firearms and member of the National Muzzle Loading Rifle Association, spoke to members of the newly organized Wakefield Recreation and Gun Club at its weekly meeting held at "The Barn" last night. Farris' interesting and informative talk was enjoyed by the large turnout.

The new club was formed by employees living in the Wakefield Trailer village and is open to all project workers. The club meets at "The Barn", just off

FOR SALE — 1952 all-aluminum mobile house trailer. 40 feet, completely furnished and modern. Reasonable price. Phone *Mr. Arbuckle*, Ext. 521

FOR SALE — 1953 32-foot Continental Trailer. TV antenna plus 50 gallon drum of fuel oil 3/4 full. Located 3 blocks from downtown Portsmouth. Call *Roger Fisher*, Portsmouth 5-1301 after 7:00 P. M.

BIRTHS

Mr. and Mrs. Harold Blair announce the birth of a seven-pound 12-ounce son, David Eugene, in Portsmouth on August 24. Blair is employed in the PKS Requisition Division.

Mr. and Mrs. William Oliver announce the arrival of a daughter on September 20 in Portsmouth. The baby was named Joyce Lynn. Oliver is an AEC employee.

Mr. and Mrs. William M. Vaughan announce the birth of a seven-pound nine-ounce son named Joseph Kevin on September 9, in Portsmouth. Bill is Superintendent of the Central Receiving Division of the Warehousing Department.

Mr. and Mrs. Murrell Jones announce the birth of a nine-pound 11-ounce son, named Kimmel Craig, at Portsmouth General Hospital on October 6. Murrell is lecturer of the project Security Education Program.

MARRIAGES

Donald Brown of the PKS Requisition Division and Tillie Bable of Chillicothe were married September 5. The Browns are residing in Chillicothe.

"Choraleers" Set Waverly Program

The Kiewit "Choraleers" will make their first appearance since Memorial Day this coming Wednesday evening, October 14, in the Waverly High School auditorium at 8:00 P. M. The choral group is sponsored by the PKS Recreation Division and is directed by Ray Weisenfluh.

Several added attractions will feature the night's entertainment. Weisenfluh will render three violin solos, Barbara Thorpe will play several accordeon selections, Neil Ekberg will present a piano solo and Bob Garner will render a vocal solo.

One of the highlights of the program will be the mystery and magic of "Deejal", the project's own maestro of magic.

Included in the program of songs by the "Choraleers" will be "The Lord's Prayer", "I'm Walking Behind You", "Swing Low Sweet Chariot" and "When Day Is Done".

All project employees and their dependents are cordially invited to attend the performance. There will be no admission charge.

Weatherman Misses; Accredits Superior Forecasting Ability

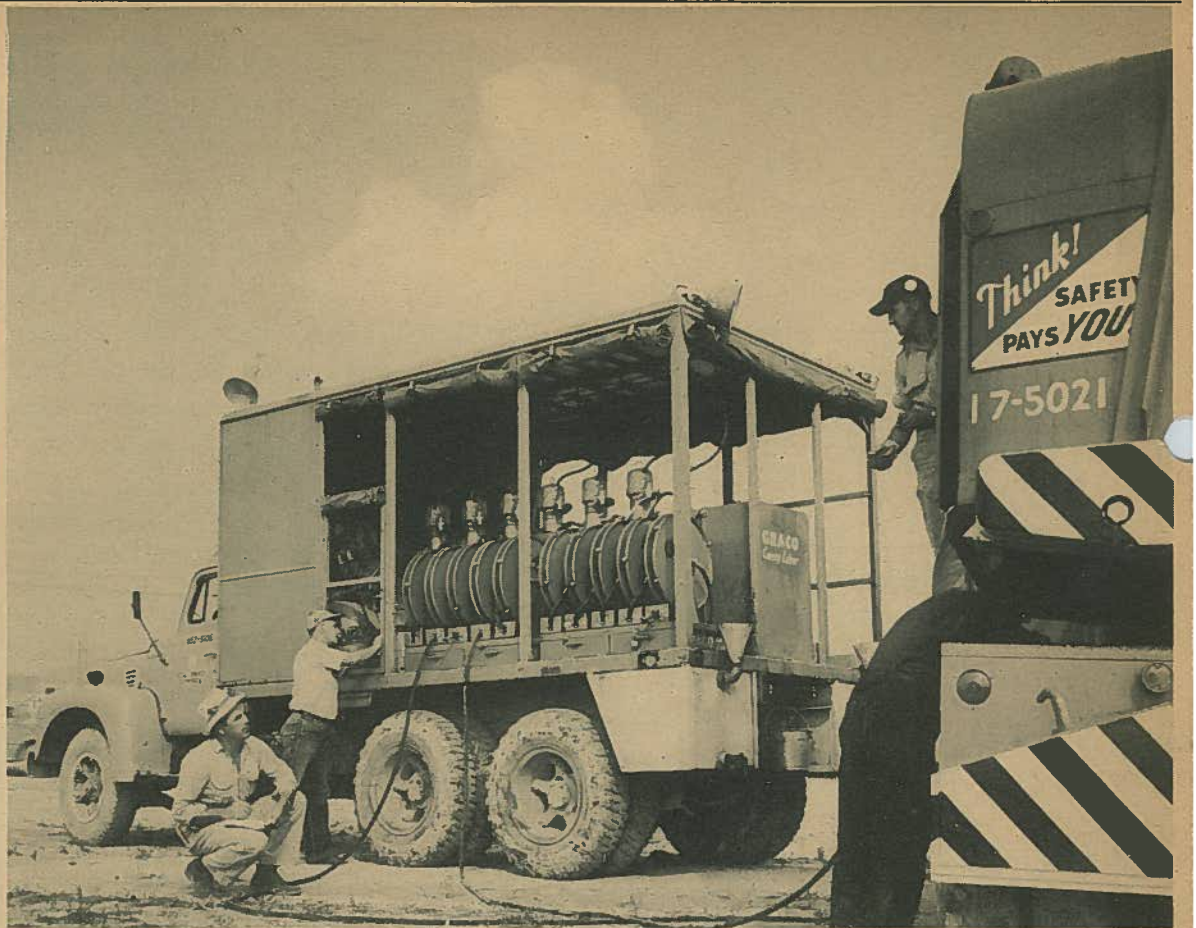

As a result of the recent extended heat wave and the ensuing cool weather, Larry Haynes, an engineer in the AEC Construction Branch, was prompted to bet AEC Meteorologist Don Pack that the temperature at the jobsite would again climb over ninety degrees before the end of the year. Pack readily accepted the wager and settled back to await collection.

However, on September 29, the mercury soared to 95.4 at the jobsite and Pack was forced to pay, which he did with the accompanying statement:

To All Who See These Presents—Know ye not that Lawrence M. Haynes, by the exercise and possession of superior ability in the divination of meteorological parameters, to wit, maximum temperature; and by the endowment through the process of random selection with the blessings of dame fortune has this day caused the undersigned untold anguish and chargin by his fortuitous prediction of a maximum temperature greater than ninety degrees fahrenheit, since be it known to all and sundry there did occur September 29, anno domini 1953, a temperature of ninety-five point four degrees fahrenheit. In Witness whereof we reluctantly set our hand and seal—Donald H. Pack, O. M. (Overconfident Meteorologist). Accompanying this document, as a tangible token of his achievement find a silver metal, the bearer of which may use to obtain entrance to street cars, parking meters or men's washrooms.

DINNER DANCE SET TONIGHT

The General Fixed Price Subcontracts Department will hold a dinner-dance tonight at the American Legion Hall in Portsmouth.

Checking and servicing of heavy construction equipment in the field is made easier by the use of one of the mobile "GRACO" field lubrication units pictured above. Shown servicing a piece of heavy equipment are Foreman Albert Steed (kneeling), General Foreman Jack Stutler (next to unit) and oilers Eddie Baker (upper right) and Harold Scowden.

CONTROL DIVISION EMPLOYEES ATTEND OSU - INDIANA GAME

Thirty-four employees of the Procurement Control Division attended the Ohio State—Indiana football game played in Columbus on Saturday, September 26. The Buckeyes won the opening tilt by an impressive 30-12 score.

The group left Portsmouth at 9:15 A. M. Saturday morning and stopped in Circleville for lunch. On the return trip, made by chartered Greyhound, the stop for dinner was made in Chillicothe.

Frank Cummings, division engineer of the Procurement Control Division, worked in obtaining the block of tickets through Luther F. Poling, chief of the PKS Recreation Division. Other arrangements were handled by "Chuck" Watts of PKS and Don Slattery of Geo. Koch Sons'.

FLYING CLUB PROPOSED

Project employees interested in forming a flying club, for both beginners and experienced pilots, are urged to attend an organizational meeting at Raven Rock Airport on Route No. 52 west of Portsmouth, on Wednesday evening, October 14, at 8:00 P. M.

Interested employees not able to attend the coming Wednesday session should contact Bob Williams, Extension 547. A club of the type being proposed here proved very successful on the Paducah Area AEC project.

Tentative plans call for the group to buy an airplane with the shares being equally divided among all members of the club.

PAINTING CLASS TO BEGIN

Classes in beginning oil and textile painting will begin on Wednesday October 14 at the Presbyterian Church in Waverly. Classes will start at 9:30 A. M. and will run for an hour and a half. The course will be conducted by Mrs. Dorothea Rhinehart of Chillicothe.

NRA Leadership Training Course To Be Conducted Oct. 12 - 22

The National Recreation Association, in cooperation with the United Community Defense Services, will sponsor a Recreation Leadership Training program in the Pike County A-plant area from October 12 to 22.

The instructor for the program will be nationally-known Miss Mildred Scalon of the NRA. Miss Scanlon is a graduate of Lowell (Mass.) State Teachers College and has done graduate work at the University of Vermont. She has also served with the Red Cross and the Special Services Branch of the Army.

The two-week course will be open to all employees and their dependents of the Portsmouth Area project.

The highlight of Miss Scanlon's visit will be an area party for project employees and their

families at Piketon High School on Saturday evening, October 17, from 8:00 until 10:30 P. M.

Miss Scanlon's schedule for classes will be as follows: October 12, 9:30-11:30 A. M., Jolly Spot, Givens and 1:00-3:00 P. M., Redman's Hall, Wakefield; October 13, 9:30-11:30 A. M., Jolly Spot, Givens and 1:00-3:00 P. M., Redman's Hall, Wakefield; October 14, 9:30-11:30 A. M., Grade School, Waverly and 1:00-3:00 P. M., Methodist Church, Piketon; October 15, 9:30-11:30 A. M., Grade School, Waverly and 1:00-3:00 P. M., Methodist Church, Piketon; October 19, 20, 21 and 22, 9:30-11:30 A. M. and 8:00-10:00 P. M., Grade School, Waverly. October 16, 8:00-10:30 P. M., Area Party, Piketon High School.
