

# The ATOMIZER

BE SECURITY CONSCIOUS

## TRAILERS ARE HOME FOR THOUSANDS OF PLANT WORKERS

Shown above in the top picture is one of the numerous trailer villages that dot the countryside in the area surrounding the Pike County atomic energy project. These villages house hundreds of project employees. The above photo shows Sun Valley Trailer Village located on U. S. Route 23, south of Wake-

field. In the lower three pictures is a view of a typical family residing in one of the area's 27 trailer courts. In the left hand picture are the Canons, Jim, his wife Violet, and daughters Joan and Karen (on floor). Another daughter Carol was at school when the picture was taken. In the center photo Jim heads for

work at the plant with his hard hat and lunch bucket. The right hand picture gives a view of the Canor's 33-foot Star trailer at the Dawson Trailer Village, one mile north of the jobsite just off U. S. Route 23. (See story below).

### NEARLY 2,000 MOBILE UNITS ARE PARKED IN AREA VILLAGES

A survey conducted last week by "THE ATOMIZER" revealed a total of 1,744 house trailers located in 27 licensed trailer villages located in the immediate area surrounding the Pike County AEC project.

This figure, however, does not include some courts in outlying areas and the great number of trailers parked in private lots that house project employees.

The report showed a total of 5,317 persons residing in the 27 camps that were canvassed. Of the camps visited 23 were located in Pike County, three in Scioto and one in Ross.

The three villages with the largest number of trailers were: Wakefield 183, Piketon 143 and Sunset 115. In the total number of residents Wakefield also was first with 549, Schmidt's second with 361 and Dawson third with 340.

Typical of the thousands of employees and their dependents living in trailer courts are the Jim Canons (See pictures above) who reside in their 1952 33-foot "Star" trailer at Dawson Trailer Village just north of the jobsite on Route No. 23.

Jim, a PKS carpenter employed in the Building Services Division, his British war bride Violet, and three daughters Carol eight, Karen four, and Joan one and one-half, have lived at Dawson Village since December of last year when Jim came to work at the Portsmouth Area A-plant.

Jim hails from Cochran, Pa., and Violet from Southampton, England. They met and were married in England in 1944 when Jim was overseas for three years with the United States Army's 29th Infantry Division. Jim saw active combat in both Belgium and France during the Allied invasion of Europe.

In addition to his work at the jobsite, Canon doubles as court manager for the owner at the trailer village. Jim takes a just pride in his own little home which he has beautified with a fenced-in yard and fireplace. The Canons and their three daughters certainly represent one of the typical American families living in "Trailer Village, U. S. A."

— THINK SAFETY —

### Area Bloodmobile To Visit Project December 28-29

Tentative plans have been announced for the Huntington, W. Va. Regional Red Cross bloodmobile to make a two-day visit to the Portsmouth Area AEC project on December 28 and 29.

Details as to time and place are to be worked out and complete information will appear in the next edition of "THE ATOMIZER" on December 4. Arrangements are being made for each employee on the job to have an opportunity to donate.

Donor cards will be distributed to all department and division heads which will in turn be placed at the disposal of all employees.

### "THANKSGIVING HOP" NOV. 26

Project employees are reminded of the first annual "Thanksgiving Hop" sponsored by the PKS Recreation Division to be held at the Elks Club in Portsmouth on Thursday, November 26, from 9 until 12.

### Kiewit Field Recruiting Plays Important Role In Employment

In order that the highest type non-manual personnel available might be obtained for work on the Portsmouth Area AEC project, Peter Kiewit Sons' Co., working in conjunction with Geo. Koch Sons, Reynolds-Newbery and the Grinnell Corporation, is operating a Field Recruiting Section which has covered over one-half of the states in its search for employees.

Since its inception the Field Recruiting Section, under Chief Recruiter Stewart Coyne, has conducted interviews in 27 states and the District of Columbia, covering 62 cities.

Coyne stated an estimated 5,600 applicants have been interviewed as prospective employees. Field recruiters normally operate from state employment offices in the area in which they are visiting.

Coyne also said it has been a paramount objective to hire personnel living as close to the plant area as possible. Figures show that Huntington, West Virginia leads all other cities visited by field recruiters, with a total of 58 persons hired through this section to date.

An extensive advertising campaign is conducted through local and area newspapers while recruiters are visiting a city. Each recruiting session lasts an average of one week.

Recruiters are thoroughly versed in the employment requirements of PKS and the three CPFF subcontractors. Applications are filled out, pre-employment checks with former employers conducted and arrangements for tests to be given are made by members of the Field Recruiting Section.

Applicants are either hired directly by the field recruiters or applications are forwarded to the jobsite for further consideration by company department heads.

Coyne said the Field Recruiting Section's efforts to date have been limited to the recruiting of professional and clerical personnel, as adequate manual employees have been available in local areas. (See picture on page two).

FOR THE RECORD

Almost all of us are in some way involved in the keeping of accurate records. For some, record keeping is a major part of the day's work.

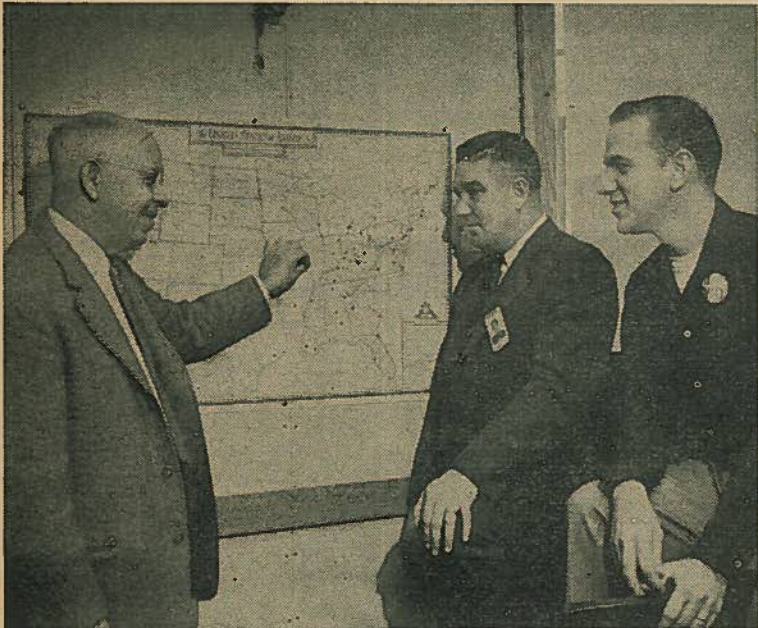

At times, we may feel that this paper work is unimportant, even unnecessary, and certainly of less value than getting ahead with our building efforts.

However, in a project as large and complex as ours, keeping records that are complete, accurate, and according to procedure is a vital and essential function. A major breakdown in our record system would seriously hamper our construction program and each error to some degree slows progress.

When we are charged with the responsibility of reporting information or entering it on the proper forms, let us always remember that accuracy and completeness are of paramount importance.

Good records insure prompt, correct paychecks; a smooth flow of material and equipment; a steady, efficient work schedule; and proper accountability of expenditures. Good records go hand-in-hand with a good job and an on-time completion.

George C. Holling, General Manager
Peter Kiewit Sons' Co.
Portsmouth Area AEC Project

Pointing out one of the cities to be visited by recruiters of the PKS Field Recruiting Section is Chief Recruiter Stewart Coyne. Looking on are Recruiters Jack Hitchcock (right) and Spencer Tiffany. Absent when picture was taken were Ed Colbert and Jerry McGrath of PKS and Walt Aries of Grinnell.

THE TWO SIDES TO SECURITY

Our security until now has been mainly concerned with protecting information. In the near future we will be installing valuable materials and machinery. We must now be concerned with protecting this property as well as Security information.

These pieces of property may not be classified Security interest by themselves. If these pieces should be destroyed by sabotage, the project might be delayed and the monetary loss would be of great magnitude. In this respect the protection of all property is of a Security importance.

When employees have knowledge of unauthorized property

destruction or misuse, they should report it to the PKS Plant Protection Division at once. This will enable us to investigate the incident. It is an employee's security responsibility to voluntarily give all the information he has on cases of possible sabotage.

With your cooperation in protecting property we can continue our Plant Protection Program and maintain our nation's security.

Range Fills Post With AEC Here

The appointment of Johnathan Wayne Range of Knoxville, Tennessee, as Public Information Officer of the Atomic Energy Commission Portsmouth Area, has been announced by Kenneth A. Dunbar, the AEC Manager here.

Range assumed his new duties Monday of this week. He succeeds Edwin E. Stokely, who recently was transferred to Oak Ridge as Public Information Officer of Oak Ridge Operations.

In his new post, Range will be responsible for the dissemination of information on AEC activities in the Portsmouth Area.

FIRE PREVENTION
by
LT. ROBERT MCNISH

The wailing of the sirens as the red fire engines come down the street is thrilling to our youngsters but to the adult it means that many times a needless, costly waste of valuable property and lives is about to occur.

Instead of waiting for the sirens to wail, we must maintain a constructive program of fire prevention throughout the project.

Records reveal that a major part of our loss is due to lack of education in: (1) "General Housekeeping", (2) Proper use of fire extinguishers, (3) Storage of flammable materials, (4) Carelessness in welding, smoking, use of cleaning fluids, waste material, disposal, etc.

Fire hurts everybody! It induces business failure—it increases your taxes—it increases insurance costs—it reduces your savings—it sends skilled workers to other jobs—it causes death and injuries—it causes medical bills and it may cost YOUR life.

Shown above in the legal library, shared jointly by counsel for Peter Kiewit Sons' Co. and the Atomic Energy Commission, are members of the PKS Legal Unit under Chief Counsel Joe Lee (extreme left). Others in the picture from left to right are: Attorneys Walter VeHaun, Charles Yungblut, John Hogan, M. G. Johnson and C. H. Smith. Seated are secretaries Margie Terhar (left) and Camilla Broyles.

Project's Fire Alarm System Will Equal City The Size Of Cincy

Nearing completion by the Reynolds-Newbery Joint Venture is the Portsmouth Area's temporary fire alarm system which when finished will be equivalent to that of a city the size of Cincinnati.

According to Robert D. Rose, the engineer in charge of installation of the alarm system for R-N, the project will be divided into nine zones with over 400 alarm boxes covering the entire area.

The system being used here is manufactured by the Superior-American Fire Alarm and Signal Company of Meridan, Conn., and is the standard alarm system utilized by many large cities.

The system's master control board will be located in the PKS Fire Department. The complete fire alarm unit will maintain its own power system, thus being able to continue operating in the case of a power failure.

All boxes situated throughout the area will have red lights mounted above them. In the case of a box being placed outside an exit there will also be a

light located inside to denote the presence of a box.

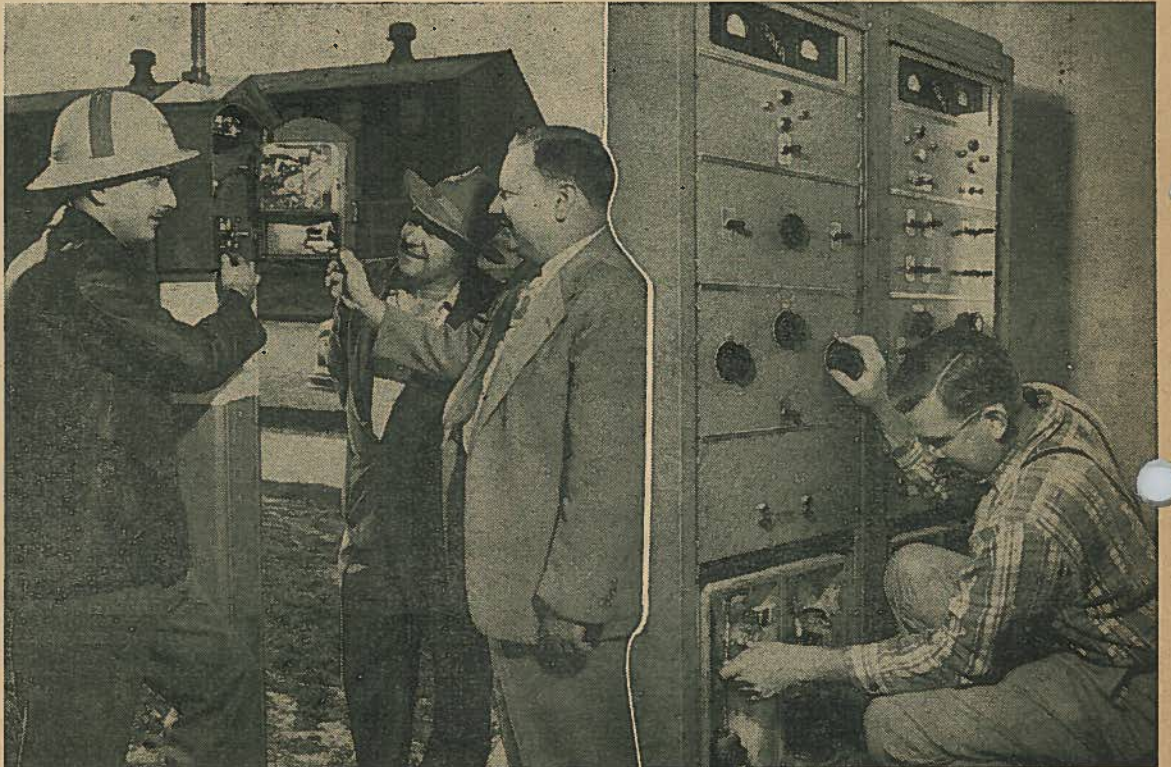

When signals are received at the central station the same alarm will be transmitted simultaneously to the Medical Division, Guard Force, Water Treatment Plant and the Plant Control Facility Building.

The alarm boxes are also coordinated to work with the sprinkler system in the area. If a water flow occurs, the nearest box will automatically be set off.

The alarm system can also be used for telephone service in emergency either between boxes or a box and the central station, and used to operate evacuation horns.

LOST, STRAYED OR STOLEN

One blue handled, red flapper, plastic, perforated-type fly swatter, approximately eighteen inches long and in excellent condition. Cost 29c at Albers Super Market in June, and has been in continuous service since. When retired to a desk drawer last Friday had 1,876 confirmed kills and 678 possibles. Please return to C&M Division.

Looking over one of the nearly 400 fire alarm boxes being installed by Reynolds-Newbery Joint Venture over the area, are from left to right: Robert D. Rose, engineer in charge of the Fire Alarm System, Wade D. Wilson, R-N engineer in charge of Temporary Facilities and R-N Feature Communications engineer R. E. Bond. In the right hand picture Electrician N. S. Bittner is shown making an adjustment on the master control board located at the PKS Fire Department station.

## Employee Wives Form Newcomer's Club At Jackson

In an effort to make the never-ending job of meeting new acquaintances easier and to find new and constructive uses of leisure time, several Portsmouth Area employee wives headed by Mrs. John F. Harris, Jr., have organized a Newcomer's Club in the city of Jackson.

In the short period of five months since the club was formed membership has grown to nearly 150. So successful was the group that native residents of Jackson asked to be and were placed on the club's membership roll.

The Newcomer's Club meets at the Cambrian Hotel on the first Thursday of each month for a combined luncheon and business session.

Mrs. Harris urges any employee dependent interested in the club to contact her in Jackson or to attend the next meeting that will be held at the Cambrian on December 3.

Mrs. Harris points with pride to the first civic service project completed by the club. The group organized and is operating the first nursery school in the history of Jackson. A full-time teacher was employed and is being paid by the club from fees taken in by the school.

Mrs. Harris also announced plans for the Newcomer's Club to sponsor the annual polio drive "Mother's March of Dimes"; and a move is under way by the group to organize a "Little Theater" in Jackson during the winter months.

## December 6 Set For Next Turkey Shoot At Wakefield

The Wakefield Gun Club and the PKS Recreation Division sponsored their second successful Turkey and Ham Shoot last Sunday afternoon at the Gun Club range at Wakefield.

A large turnout participated in the six target and five trap shoots throughout the afternoon. One of the target events was a ladies match won by Anna Robinson.

Officials announced plans to hold another shoot on December 6. Tentative plans call for several high-power rifle target events for the next shoot upon completion of a barricade at the range. Definite plans will be announced in the December 4 edition of "THE ATOMIZER".

Sam Crout of Wakefield took top honors at last Sunday's shoot, winning three of the afternoon's five trap shoot events. Crout copped his second and third matches after being given a handicap.

Winners of the target shoots were: R. W. Benner, R. Cassidy, R. Dixon, J. Keever, Anna Robinson and W. M. Green. Trap events were copped by: Charlie Jones and William Roberts in addition to Crout.

**SAFETY IS FREE  
USE IT GENEROUSLY**

Pictured above at their November luncheon meeting at the Cambrian Hotel in Jackson are members of the Newcomer's Club, organized for Portsmouth Area employee wives. In the lower photo club officers are shown with Judge James E. Kennison of Jackson, who spoke to the group at the November session. Pictured left to right are: 2nd Vice-President Mrs. R. M. Kenady, Judge Kennison and President Mrs. John F. Harris, Jr. Standing left to right: Secretary Mrs. Lloyd Venable, Treasurer Mrs. John Damron, Publicity Chairman Mrs. Gene Morton, Parliamentarian Mrs. Robert Hoyt and Mrs. E. E. Jones, Jackson County TB chairman, who also addressed the club at the meeting.

## YOU CAN HELP — JOIN A CAR POOL

Project employees interested in forming car pools or finding rides to the jobsite are urged to fill out the application below and forward it to the PKS Housing and Feeding Division or "THE ATOMIZER" office, both located in the Personnel Building. Remember—by forming more car pools many vehicles can be taken off crowded highways leading to the plant. Do your part to speed up the flow of traffic and make driving to and from work easier, safer and faster for all.

### APPLICATION FOR RIDERS AND CAR POOLS

- I am interested in forming a car pool
- I would like to ride to and from jobsite

Name .....

Residence Phone ..... Jobsite Extension .....

Shift ..... Employer .....

## Flying Club Members Begin Training

The newly formed Atomic Flying Club got off to a soaring start last week-end holding its first training session at the Raven Rock airport west of Portsmouth. The group is composed of Portsmouth Area project employees.

The club recently purchased a 1946 model Taylorcraft plane at Chesapeake, Ohio, for training purposes. At the present time 15 employees make up the club's membership. Plans call for the group to enlarge in the future and for the addition of another plane.

At last week's business meeting Stan Spaulding, "THE ATOMIZER" editor, was elected president of the club. Ken Cunningham was chosen as vice-president and William Walters as secretary-treasurer.

## Grinnell Bowlers Post New Record

Grinnell Corporation's five-man bowling team competing in the Portsmouth National League at the Classic Lanes, set a new high single-game mark when they hit for a total of 1,012 pins on November 6. The Grinnell keglers posted their record score against Bennie's Cafe.

Grinnell is currently coasting along in second place in the 12-team league as the loop's first half is coming to a close. Members of the Grinnell team and their high game scores are: Si Bickle (243), Ed Powell (205), Leo Byrne, (203), Harold Blair, (196) and Del Johnson (166).

## Officials Needed For Cage Leagues; Girls Loop Possible

Project employees with some previous experience that are interested in serving as game officials for the PKS Recreation Division basketball leagues this winter are asked to contact Jack Feck at Extension 171.

An opportunity to place several teams in the Chillicothe Industrial Basketball League this season has also been made available to the Recreation Division. Persons interested in entering a team should contact the Recreation Division at the earliest possible date.

All games in the Chillicothe league will be played at the National Guard armory.

Women employees or dependents that are interested in the possibility of forming a woman's basketball league are also asked to contact the Recreation Division immediately.

## SCIOTO CLUB TO HOLD SHOOT

A handicap Turkey Shoot sponsored by the Scioto County Sportsman Club will be held on Sunday, November 22, at the club range three miles west of Lucasville on State Route 348. Both target and trap shoot events are on the schedule and Portsmouth Area project employees are invited. The shoot will begin at 1:0 P. M.

Additional information may be obtained by contacting C. J. Parkinson, Ext. 683.

## CLASSIFIEDS

The following classified ads are free to any Portsmouth Area project employee but must be confined to items on housing, transportation and lost and found.

Phone 171 or 469

**WANTED**—Ride for two to Nashville or Chattanooga, Tenn., November 25. Contact A. C. Rhodes in Concrete Dept. or phone 276-L New Boston.

**WANTED**—Four riders from vicinity of 1139 Fourth Street, Portsmouth, on 8:00 to 5:30 shift. Contact Cecil Cade, Ext. 889-R3.

**WANTED**—Riders from Ashland, Ky., to jobsite on 8:00 to 5:30 shift. Contact Don Marsh, Ext. 971.

**WANTED**—Three room apartment with kitchen furnished. Portsmouth area preferred, before December 12. Contact Bettie Jean Rose, Ext. 808.

**WANTED**—To form car pool from Western Hills Apts., Chillicothe, on 8:00 to 5:30 shift. Call A. Hatcher, Ext. 535.

**WANTED**—Ride to Paducah on weekends. Contact Pat Glazier, Ext. 230.

**WANTED**—Riders from Kingston or Chillicothe, on 8:00 to 5:30 shift. Contact L. H. Warner, Ext. 552.

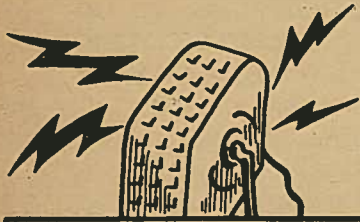

**FOR SALE**—33½-foot trailer, one year old, four rooms with bunk beds in one, all modern. Will trade for smaller trailer or sell. Contact W. O. Hill, Bridge Street, Waverly, or call Ext. 508.

**FOR SALE**—1953 35-foot Anderson house trailer, complete and in excellent condition. Call C. J. Grumme, Ext. 640, or see at Old Scioto Trail Trailer Park.

**FOR SALE**—Four room house with bath, built last July. Will sell furnished (\$8,500) or unfurnished (\$6,600). Contact Emily Vannicola, Ext. 578, or see at 2498 Mabert Road, Portsmouth.

**FOR SALE**—1951 35-foot Roadmaster house trailer with awnings and picket fence (\$2,600). Call Donald Puckett, Ext. 943, or see at Cloverleaf Trailer Park, Lot 125.

**LOST**—14 carat white-gold Masonic ring. Finder please leave message at Building Services Division, Ext. 18 for Archie Wilson.

## ANNOUNCEMENTS

Mr. and Mrs. R. H. Roe announce the birth of a daughter named Sherry Denise on October 7, at Portsmouth General Hospital. The baby weighed eight-pounds and eight-ounces. Roe is employed on the PKS Guard Force.

Mary Lyons and Clifford Lyons were married in Richmond, Indiana on October 17. Mary is employed by Geo. Koch Sons in the Requisition Division.

Mr. and Mrs. Bob Days are announcing the recent arrival of a son named Michael Lynn in Portsmouth. Mary Lou was employed in the PKS Requisition Division.

Caught by photographer Don Landstrom as they were about ready to clock out after a hard day's work are these members of the PKS Paint Department. Pictured seated left to right are: Foreman Charles Mollett, L. W. Arms, Harry Schreiber, Ken Rutledge, Bill Elliott, C. H. Hewitt and George Anderson. Second row: Foreman Robert Pool, "Doc" Savage, Robert Livingstone, "Bus" Kettell, Fred "Fox" Tindall, Leroy Meade, Les Rodgers, Tom Kinney and Paint Superintendent E. L. Sample. Third row: Foreman Roscoe Lundy, Vernon McSpadden, Ray Miller, Linton Mattox, Dave Stone, Johnny Field, Clyde Apparius and Clerk Bob Filler. Holding Paint Department sign are: Elmer Bowersox (left) and "Pop" Eaton. Absent when the picture was taken were: Foreman Charles Kuntz, Boonie Hale, Joe Shipman, William Beard, Fletcher Benton, Lloyd Pelfrey, "Jiggs" Thompson, Mason Johnson, Earl Russell and Elliott Spradlin.

Putting the finishing touches on one of the eight Security billboard signs he has painted since being employed in the PKS Paint Department, is C. H. "Huey" Hewitt of Parkersburg, W. Va. The Security posters are located in the access roads to the jobsite.

## Injury To Hand Fails To Halt Hewitt's Colorful Painting Career

Colorful proof that handicapped individuals can, and do, overcome their afflictions to become proficient workers is given by 56-year old C. H. "Huey" Hewitt, a PKS Paint Department employee from Parkersburg, West Virginia.

Hewitt, who has been in the sign painting business off and on since 1919, lost all four fingers on his right hand as a result of a steel mill accident in 1933. Refusing to give up because of his loss, Hewitt resumed painting the day after the bandages were removed from his hand. Now he writes as well as paints with the use of only his thumb with almost uncanny skill.

"Huey," appropriately enough, has been married for the past 13 years to a paint contractor's daughter from Parkersburg. He has been employed on the Portsmouth Area project since June of this year and up

to the present time has done all of the vivid art work on the Security billboards placed at the access roads to the jobsite.

## Kiewit Employee Takes Portsmouth Coaching Position

David K. Wetta, a former Peter Kiewit Sons' Co. employee on the Portsmouth Area AEC project, has been named head coach in all sports at Notre Dame High School in Portsmouth. Wetta, who assumed his new position on November 1, succeeds Pat Darone who resigned recently.

Wetta had been employed by PKS since December of 1952. He was serving as supervisor of the Services Section in the Records Division of the Contract Awards Department at the time of his resignation.

## Churches Plan Services In Area For Plant Workers

The Church of Christ has announced services for Portsmouth Area employees and their families have begun in the First Baptist Church at Third and Lucas Streets in Piketon. Services will be conducted by Walter Nichols at 7:30 P. M. on Tuesday and Sunday nights.

Portsmouth Area employees are invited to attend a revival at the First Pilgrim Holiness Church in Portsmouth, beginning November 23, and running through December 6. Services will be under the direction of Rev. Don Humble of Piketon. Special music will be furnished nightly by the Stone Trio of Vanceburg, Kentucky.

All employees, regardless of faith, are urged to attend the church of their choice each Sunday.

— THINK SAFETY —

## PKS Sign Shop Turns Out Wide Variety Of Work

One of the busiest and most fascinating operations on this tremendous construction installation is the daily work going on in the Peter Kiewit Sons' Co. sign painting shop.

Here all types of signs are turned out in an almost continuous flow that play their part in the building of this plant. The employees of the sign shop take personal pride in their work with the realization that in some way it may have contributed toward saving a life or preventing a lost-time accident.

Safety signs are, however, not the only work manufactured by the sign shop. A few of the other regular requirements include painting charts, graphs, illustrations, bulletins, and identification and special announcement signs which expedite work being done by all crafts on the project.

The wording, color, layout and letter style are each given careful consideration in designing to assure a quick and easy understanding of each sign's message.

Through the effort of these specialists in their field, other jobs over the area may become less complicated, easier and safer for many other fellow employees.

## WOMAN'S CLUB ELECTS

Members of the Wakefield Woman's Club, composed of dependents of project employees, announced the election of the following permanent officers at their last meeting at "The Barn" in Wakefield: President Mrs. John Taylor, Vice-President Mrs. George Reinoehl, Secretary Mrs. Jerry Tongue, Treasurer Mrs. Martin Timmons.

The club plans to raise a part of the funds needed to complete and decorate "The Barn", which will be used as a recreation hall for project employees living in the Wakefield vicinity, as its first project.

## Bad Weather RISKS!
