

MEET THE MANAGEMENT:

Grinnell Corp. Resident Manager Serving 30th Year With Company

Over 30 years of service with the Grinnell Corporation since starting as a piping engineer in 1922 has seen Saxby Chaplin rise to the position as resident manager of the company's huge Portsmouth Area project mechanical construction operation.

Except for a brief two-year period of employment with the J. E. Sirrine Company, a Greenville, South Carolina, architect-engineering firm, Chaplin has served continuously with Grinnell since 1922, and prior to taking over his present duties, he was department manager of their Industrial Piping Department at Charlotte, N. C.

SAXBY CHAPLIN

On the Portsmouth Area job, Chaplin is in charge of the Providence, Rhode Island, firm's large mechanical construction contract which covers the tremendous installation of process piping and equipment, in addition to numerous other functions such as the construction of under ground and overhead piping and the operation of the company's weld test and pipe fabrication shops.

Chaplin is a native of Charleston, South Carolina, where he ended high school and The Citadel, the Military College of South Carolina.

The amiable Chaplin came to the Portsmouth project as deputy resident manager in September of 1953. In January of 1954 he took over the reins of resident manager from S. F. Mathes, who returned to the company's home office.

A veteran of both world wars, Chaplin has served in the U. S. Army Engineers' Reserve Corps for over 30 years. During World War II he saw five years active duty, three years of which were with General McArthur's forces in the Southwest Pacific. Still active in the reserve program, Chaplin holds the rank of Colonel.

Chaplin is married and has a family of three girls and one boy. One daughter, Ann, will attend Ohio University at Athens as a sophomore this year. The Chaplins are currently residing in Chillicothe.

A week-end golfer, Chaplin tours the Chillicothe Country Club course in the low 90's.

Project Personnel Will Participate In Fire Prevention Week

At a recent meeting of Good-year Atomic, AEC and PKS fire prevention and safety engineers plans were developed for plant safety activities to be held during National Fire Prevention Week, which will be observed from October 3 through 9.

Plans include the display of exhibits, posters, and fire fighting equipment in prominent places throughout the plant. Fire Prevention literature will also be distributed.

Highlights of the week's activities will be a daily demonstration by the GAT Fire Department showing the use of portable fire extinguishers. The demonstrations will be held at the fire fighting training area near the Training Building. The demonstrations will be under the direction of D. B. Marshall, GAT fire chief.

H. M. McInerney, GAT fire control supervisor, remarked that it isn't enough that we observe Fire Prevention just one week out of the year. "We must observe common sense fire safety rules every hour and every minute of every day," he said.

"Only then will our homes, our communities, our jobs, and our lives be safe from the hazards of fire."

PORTSMOUTH, OCT. 2:

RECREATION DIVISION ANNOUNCES SCHEDULE OF EMPLOYEE DANCES

A series of five dances for project employees and their guests during October, November and December has been announced by Luther F. Poling, chief of the PKS Recreation Division.

Dances have been scheduled for October 2 at the Portsmouth Eagles Hall, October 9 at the Elks Club in Chillicothe, November 20 at the Memorial Building in Jackson, December 18 at the Elks Club in Chillicothe, and December 25 at the Eagles Hall in Portsmouth.

All of the dances will run from nine until one and admission will be free to project employees upon presentation of their employee identification badge.

Playing for the Saturday night, October 2, dance at the Eagles Hall in Portsmouth will be Lou Martin and his orchestra.

Attending a weekly staff meeting with AEC Portsmouth Area Manager Kenneth A. Dunbar (seated extreme right) are top personnel of the commission's office on the project. Seated left to right are: Chief Counsel William J. Minsch, Jr., Administrative Division Chief B. W. Menke, Deputy Manager Robert H. McCulloh and Dunbar. Standing left to right are: Operations Division Chief Walter C. Youngs, Engineering and Production Division Chief Leo M. Buhr and Finance Division Chief A. A. Vergari. (See story).

Atomic Energy Commission Office Here Is One Of Seven Under ORO

Both during and following the construction of the multi-million dollar Portsmouth Area gaseous diffusion plant for the Atomic Energy Commission, a force of AEC personnel is maintained on the jobsite.

The AEC Portsmouth Area is one of the seven area offices under the commission's Oak Ridge Operations Office located at Oak Ridge, Tennessee. Serving as manager of Oak Ridge Operations is S. R. Sapirie.

In addition to Portsmouth, other area officers under ORO include: Paducah, Dayton, Cleveland, St. Louis, New Brunswick, New Jersey and Fernald at Cincinnati.

Heading the Portsmouth Area office is Kenneth A. Dunbar, a veteran of 11 years with AEC and the Manhattan Engineering District. The commission's job on the project is to advise and consult with contracting firms on contractual matters, and the administration of contracts from a government view point.

A native of Meade, Kansas, Dunbar calls Lafayette, Indiana, his home town. He is a graduate of Purdue University with a B. S. degree in electrical engineering. Before joining the U. S. Ar-

my Corps of Engineers in 1941, Dunbar spent nine years with the Public Service Company at Vincennes, Indiana.

In 1943, Dunbar went with the Manhattan Engineering District, where he remained until becoming manager of the commission's Dayton Area in 1947.

During the ensuing years he served as director of Production and Operations at Oak Ridge and manager of the Paducah Area. Early in 1952 he returned to Oak Ridge from Paducah to assist in the planning and development of the new Portsmouth Area. He came here as manager in August of the same year.

With a total employment of approximately 140, the AEC Portsmouth Area office is divided into four major divisions and 11 branches, in addition to Deputy Manager Robert H. McCulloh, Chief Counsel William J. Minsch, Jr., and Robert E. Rose, Office of Community Affairs, all of whom serve directly under Manager Dunbar.

RIVERVALE COUNCIL ELECTED

Residents of the Waverly PHA subdivision at a recent election selected new civic council officers of the project's Riverdale Community Association.

The new president, succeeding Harold Clark, who served during the council's inaugural period, is Lee Roy Latham, a pipe-fitter employed with the Grinnell Corporation.

Pictured above is the evening shift PKS Concrete Crew in the X-333 Process Building. The concrete operation is a part of the PKS Building Division under Superintendent John Brust. Shown in the picture are: Assistant Superintendent John Florer, (kneeling second from left), Superintendent E. A. Chesney (third from left) and Assistant Superintendent H. Bolton (fourth from left).

Published fortnightly by Peter Kiewit Sons' Co., its subcontractors and affiliated companies for all employees and their dependents on the Portsmouth Area U. S. Atomic Energy Commission project. "THE ATOMIZER" is edited and printed as a function of the PKS Recreation Division, Luther F. Poling, chief.

STATEMENT OF POLICY

WE RECOGNIZE A RESPONSIBILITY TO THE CITIZENS OF THE UNITED STATES AND TO THEIR APPOINTED REPRESENTATIVE, THE ATOMIC ENERGY COMMISSION, TO PERFORM OUR WORK AT THE LOWEST POSSIBLE COST CONSISTENT WITH PLANS, SPECIFICATIONS AND CONTRACTUAL AGREEMENTS. IN THE CONTINUING EFFORT TO FULFILL THIS RESPONSIBILITY, WE FURTHER RECOGNIZE THAT CONSTANT ALERTNESS TOWARD CAUSES OF WASTE IS NECESSARY ON THE PART OF EACH OF US.

YOUR COOPERATION IN FINDING AND ELIMINATING CAUSES OF WASTE OF MANPOWER, TOOLS, EQUIPMENT OR MATERIALS IS EARNESTLY REQUESTED. AS REPRESENTATIVES OF MANAGEMENT, WE PLEDGE OUR WHOLE HEARTED SUPPORT TO ANY QUESTIONS OR REMEDIES WHICH ARE FOUND PRACTICAL AND WHICH WILL AID IN ACHIEVING OUR GOAL OF LOW-COST, EFFICIENT OPERATION.

SIGNED,

George C. Holling
GEORGE C. HOLLING, GENERAL MANAGER

SECURITY RESPONSIBILITY

Any security organization is just as strong as the weakest individual unit. Who makes up the security organization of this plant? The answer is, we all do. You and I, no matter how large or how small our jobs may be, have equal security obligations.

The uniformed Guard Force is the visible means of security. We also have Security Investigators and other persons who are actively concerned with the maintenance of security on the project. However, the activities of the security personnel is effective only as long as each individual on the project recognizes and accepts his individual security responsibility.

Since the beginning of this project, the Security Education Section and the Security Investigation Section of the Plant Protection Division, along with others, have continuously reminded employees of their security responsibilities. This vast job has been done by posters, articles in this paper, and when possible, lectures. In many cases, the individual employee has been told of his security responsibilities. This has been especially true when there has been evidence of a violation of a security regulation.

In the past few months, there have been approximately one hundred employees terminated for bringing cameras, firearms or intoxicants on the project. Where does this fit into the individual security picture? It means simply that if one of us

brings a camera into the area, however innocent our intentions may be, another person could conceivably use the camera for his own purpose and return it unobserved.

We all know that intoxicants are conducive to loosening tongues no matter where they are used, and also contribute to careless workmanship. A firearm could be seized by someone other than the owner and used for purposes other than those which the owner would have permitted. These things as listed could easily set this project back for quite a length of time.

In view of the number of terminations taking place for such security violations, it seems obvious that we as individuals are not accepting our security responsibilities.

Will Live longer Says

"I ALWAYS USE A CASE OPENER WHEN I'M OPENIN' CARTONS. It's easier, AND BESIDES YOU DON'T GET YOUR HANDS CUT AND RUN THE CHANCE OF GETTIN' A BAD INFECTION."

RECREATION DIVISION OFFICE WILL HANDLE TROJAN GRID DUCATS

The PKS Recreation Division has announced reserved seat single-game tickets will be on sale at the Recreation Division office in the Personnel Building for all Portsmouth High School home football games.

Reserved seat ducats are priced at \$1.75 and will be on sale the week of each home encounter. General admission tickets will be available but will go on sale at the stadium only on the evening of the game. Kickoff time for all Trojan home games is set for 8:00 P. M. at Riverside Stadium.

Last season's Trojan team recorded an undefeated season of 10 straight under Coach Bob Brownson. This year ex-OSU grid great Tom Watson will take over the head coaching job, replacing Brownson who went to Ashland College as grid mentor.

The Schedule:

Sept. 24—Ashland, Ky.	Away
Oct. 1—Springfield	Away
Oct. 8—Cin. Elder	Home
Oct. 15—Middletown	Home
Oct. 22—Cin. Woodward	Home
Oct. 29—Hamilton	Home
Nov. 5—Mansfield	Home
Nov. 12—Ironton	Home
Nov. 19—Fremont Ross	Home

MRS. N. H. MILLER AWARDED POSITION ON TOP RIFLE TEAM

Mrs. N. H. (Mary) Miller of Eden Park has been selected as a member of the U. S. Randle Trophy team for 1954. The announcement was made by officials of the National Rifle Association at the annual championship matches held from August 28 through September 5 at Camp Perry, Ohio.

MARY MILLER

Mrs. Miller is the wife of N. H. "Nate" Miller, assistant superintendent of the PKS General Fixed Price Subcontracts Department.

To be eligible to compete for one of the 10 berths on the Randle Trophy team, Mrs. Miller had to rank in the top three shooters in one of the nation's eight regional matches. At the national she copped both a first and second place award.

Each year the U. S. Randle Trophy team vies with England to retain possession of the coveted trophy which is now in U. S. hands after an all-time record score in 1953.

Looking over one of the hundreds of boxes of records compiled on the project that are now on file in the PKS Records Storage Center is Records Manager F. L. Sward. In the lower picture Sward, (right) is shown with Records Management Division personnel R. L. Huffman and Pearl Watts. (See story).

RECORDS MANAGEMENT IS BIG JOB:

Thousands Of Cubic Feet Of Records Being Compiled During Construction

A little known fact to many of the thousands of personnel employed on this project is the tremendous amount of records that are being compiled throughout the course of construction progress, and the manner in which they are handled.

Responsible for the procedures effecting the control of the voluminous amount of project records is the Administrative Department's Records Management Division under Records Manager F. L. Sward.

This division is in charge of setting up disposal schedules at the earliest possible date for records no longer needed, and the operation of a Records Storage Center where semi-active and inactive records are kept until specified retention periods expire.

Recommended disposal schedules are formulated by Records Management personnel in conjunction with record custodians, department and division heads and others directly concerned. Following this, the disposal schedules are submitted to the Atomic Energy Commission for approval, since all project records are AEC property.

All records sent to the storage centers are checked in and placed in boxes on open steel shelves. A reference service is then maintained by the center through charge out, telephone or examination at the center.

Currently in files on the job are an estimated 19,000 cubic feet of records compiled by PKS and the three CPFF subcontractors. This amount of records alone would be enough to fill 3,160 standard four-drawer, letter-size file cabinets.

An estimated 48,000 to 50,000 cubic feet of records are

expected to be created by the completion of the project, based on the fact that approximately one cubic foot of record material is accumulated for each employee, both manual and non-manual, each year on the job. Of this figure approximately 15 per cent are expected to be retained after the end of the job, the remainder being destroyed.

Records stored in the center on the project are kept in cardboard file boxes. Currently on file are 2,700 cubic feet. If this amount were to be placed in steel file cabinets, 450 four-drawer units would be required, each costing an estimated \$70. Using the present method of storage approximately \$10.95 per cubic foot is saved for records in storage rather than having the records on active file in steel cabinets.

CLARK-SACKETT WIN

Project employees completely dominated play in the Portsmouth Elks Club's annual best-ball handicap golf tournament that finished September 11 at the Elks County Club course. Two Reynolds-Newbery employees, Resident Manager John Clark and Al Sackett, defeated Don Wedge of PKS Recreation and Walt VeHaun of the PKS Legal Unit in the final match 4 and 3. All four finalists were awarded prizes by the club pro.

FEWER BROKEN MARRIAGES—divorces have followed the marriage curve downward since the '46 peak. But there are still about 375,000 divorces per year—nearly one for every four marriages.

Holding the miniature model sport convertible he constructed is Dick Hosey, a draftsman in the George Koch Sons, Inc., Sheet Metal Shop. For the past three straight years Hosey has placed second in the state of Ohio, in the model automobile designing contest sponsored by the Fisher Body Division of General Motors (See story.) On the table are the 1952 and 1953 models constructed by Dick, which also won the second-place awards.

Young Geo. Koch Draftsman Designs Prize Winning Model Cars As Hobby

For the past nine years Dick Hosey, a young 19 year-old draftsman with George Koch Sons, Inc., in the company's Sheet Metal Shop, has been spending his leisure time designing and constructing model automobiles.

Each year the Fisher Body Craftsman's Guild, sponsored by the Fisher Body Division of the General Motors Corporation, holds junior and senior group model automobile designing contests open to boys between the ages of 12 and 20 all over the nation.

During the last three straight years Hosey has placed second in the senior division in the state of Ohio with his originally designed models. In 1952 and 1953 Dick entered hard-top convertible models, and this year was the state's runner-up with a flashy sport convertible.

Model entries are judged on the originality of design and must be constructed on a one-inch to one-foot scale. Specifications include maximum and minimum lengths, width and height, ground clearance, front and rear overhang, wheelbase, vision angles, fender clearance, passenger space and location of dash panel and steering wheel.

Actual judging is based on artistic merit, fidelity to scale, practicability, painting and finish and craftsmanship, in addition to the originality of design.

Dick's prize winning models are constructed of balsa wood, aluminum, plastic and rubber. As many as 15 coats of primer and 12 coats of paint were applied to each of the miniature automobiles. Dick estimates he spent between 350 and 400 hours of his spare time building each of his three prize-winning models.

An avid automobile fan, Hosey plans to enter the designing field after a coming "hitch" in the service. He is a native of Richwood, Ohio, where he was an "A" student and starred in athletics in high school.

Dick received a scholarship to Oberlin College on the basis

of his scholarship and athletic ability. He played football and basketball, ran track and still holds five high school records. Dick has been employed with GKS since September of 1953.

RECREATION DIVISION BOWLING LEAGUES BEGIN COMPETITION

The PKS Recreation Division announced a six-team women's bowling league, sponsored by members of the Chillicothe Cimota Women's Club, began competition at the 20th Century Lanes in Chillicothe Wednesday of last week.

League officers are: President Ruth Hormberg, Vice-President Iva Wilson, Treasurer Letha Roda, Secretary Alice Officer and Sergeant-at-Arms Loy Hagan.

Several couples are still needed to fill out this league. Persons interested in bowling are urged to call the Recreation Division on Extension 3442 or appear at the 20th Century Lanes this Sunday at 4:00 P. M.

A six-team mixed couples league also began bowling in Jackson last Sunday. This league will roll a 25-week season. Officers of the league are; President Jim Rutherford, Vice-President Al Fisher and Secretary-Treasurer Virginia Jernigan.

CANASTA GROUP TO MEET

A canasta club sponsored by the Cimota Women's Club in Chillicothe has announced plans to hold its first meeting on October 5 at 1:30 P. M. at the Chillicothe YMCA. Persons interested in attending the canasta party should call Mrs. M. J. Shaw 2-4171, Mrs. O. W. Rush 2-4456 or Mrs. George Bernard 2-4459. Tentative plans also are underway to conduct a nursery for children during the party.

Heavy Construction Only One Step Away From Softball Title

A powerful PKS Heavy Construction team moved another step nearer to the PKS Recreation Division project softball championship September 9, when they shut out the Grinnell Operators 8-0, at Riverside Park in Portsmouth.

Heavy Construction won both the Portsmouth League championship and the post season tournament. Grinnell performed the same feat in the Jackson-Wellston League. During regular season play Heavy Construction won 15 and lost three, while Grinnell posted a 9-1 mark in Jackson-Wellston competition.

In the 10-team Portsmouth League tournament, Heavy Construction chalked up wins over Geo. Koch 11-1, Grinnell Engineering 6-0, and Steel Supply 17-6 in the finals. In the Jackson-Wellston tournament, after drawing a first-round bye, Grinnell defeated Reynolds-Newberry Estimating 8-0 and Giffels and Vallet 10-2 for the title.

Heavy Construction will now meet the winner of the Piketon A-Plant Area League at Riverside Park this week for the project championship. A total of 25 league teams participated in softball play sponsored by the Recreation Division.

In the 8-0 blanking of Grinnell, Heavy Construction's Bill Newman tossed a neat two-hitter. After walking the first batter in the first inning only hits by Harris and Ritchie placed Grinnell runners on base, as the crafty righthander struck out seven of the 24 men he faced.

The only threat to Newman's shut out came in the top of the seventh when with two men out Ritchie doubled, however Newman struck out Zimmerman to end the game.

Ed Schmidt led Heavy Construction at the plate, smashing a double, triple and a home run in three appearances against loser "Dutch" Rankin. Ray Bauer and Newman each had two hits in the 10-hit attack on Rankin. One of Bauer's hits carried for a home run in the sixth inning.

FENCING-WEIGHT LIFTING BEGIN

Fencing and weight lifting clubs sponsored by the PKS Recreation Division have announced plans to begin activities during the fall months. Both groups will meet at the National Guard Armory in Portsmouth. The weight lifting club will meet Tuesday and Wednesday of each week at 6:00 P. M. and the fencing club every Tuesday at 7:30 P. M. Project employees interested in joining either of these clubs are urged to contact the Recreation Division. Both are scheduled to hold initial sessions next week.

WAVERLY COUPLES LEAGUE SET

The PKS Recreation Division has proposed a mixed-couples bowling league in Waverly to roll on Sundays at either 4:00 or 6:00 P. M. Interested persons should call the Recreation Division on Extension 3442 or write Recreation Division Chief Luther F. Poling.

Pictured above are the winning teams in Little League softball competition sponsored by the PKS Recreation Division for youngsters of employees at the Portsmouth Area project. In the top photo is the league-winning Wakefield team. Front row, left to right, are: Ronald Holbrook, Lewis Patsel, Ronald Lawson, Ronald Chapman and Ted West. Back row, left to right: W. C. Driver, Jim Leeper, Phillip Kinley, Bill Clark, Mgr., Jerry Rabey, Stanley Chapman and Robert Chapman. Shown in the center picture is the Piketon PHA entry which copped the post-season tournament. Front row left to right are: Lawson Latham, Tom Parsley, Russell Latham, Wayne Addington, Bob Carroll and Bill Salyer. Back row left to right: Willie Whittington, Pat London, Jim Pou, Larry Peters, Leonard Pendergraph, Melvin Pendergraph, Monty Hinton, Jerry Kelley and Bill Parry. In the lower photo is the Little Beaver Trailer Court nine which finished second in both league play and the tournament. Front row, left to right: Ralph Green, John Lowery, Allen Kidd, Terry Marsh, Richard Degenhardt, and Reed Creath. Bottom row: Dee Dee Tschopp, Ken Maxwell, Ronnie Stephens, Chuck Thompson, Mrs. Audrey C. eath, Pete McClary, Mgr., Richard Stevens, Tom Crump, Phillip Clay and Smiley Tschopp.

Only one step away from the PKS Recreation Division project softball championship is the Portsmouth League's Heavy Construction team shown above. (See story). Pictured kneeling left to right are: Bill Apel, Ron Coriell, Bill Newman, George Barber and Prather Fultz. Standing left to right are: Don Plummer, Al Smith, Ray Bauer, Howard Wigit and Ed Schmidt. Absent when the picture was taken were: Dick Hopkins, Les Bradford, Harvey Walker and T. C. Briggs.

Shown above are roofing crews employed by the PKS Building Division on construction at the Portsmouth Area project. This group was selected to appear in THE ATOMIZER on the basis of excellent job performance and safety record. Bottom row, left to right, are: Halbert Evans, T. V. George, Wilbur Scott, Don Roe, Ralph Eckelberry, Leonard Perkins, James Brumley, Jim Ruppel, M. F. Tackett, and James Dickison. Seated, second row, are: Bob Bigelow (left) and Harris Wallace. Top row, standing left to right, are: Area Superintendent Art Foster, Auxiliary Area Superintendent Charles Updegraff, W. M. George, Edward Hickle, Foreman James Silvey, Foreman Paul Teager, Ray Hay, General Foreman Marvin Knece, Charles Sullivan and Foreman Robert E. Knece.

CLASSIFIEDS

The following classified ads are free to any Portsmouth Area project employee but must be confined to items pertaining to transportation and lost and found articles.
Phone 3442 or 2887

WANTED—To form car pool or riders from Chillicothe on 7:30 to 5:00 shift. Call Charles Donham, Chillicothe 20179.

WANTED—Riders from New Boston or vicinity on 7:30 to 4:00 shift. Call Carl Pierce, Ext. 2708.

WANTED—To join car pool from Sciotoville to Adm. Bldg. on 7:30 to 4:00 shift. Contact Julio Martinez, Ext. 2638.

WANTED—Riders from Portsmouth on the 8:00 to 4:30 shift. Contact Jim Bevins, Ext. 3380.

WANTED—Riders from Sciotoville or New Boston via Route 139. Contact Glenn Dearing, Ext. 3432.

WANTED — Two drivers to join car pool from Jackson to Adm. Bldg. on 7:30 to 4:00 shift. Call Jim Allen, 3245 or 3247.

WANTED—To form car pool from Chillicothe on 7:00 to 4:30 shift. Call Frederick Magee, Chillicothe 2-4173.

WANTED—Riders or to form car pool from West Portsmouth on 7:30 to 4:00 shift. Call Frank Turman, Ext. 3676 or West Portsmouth 6566.

WANTED Riders from New Boston or Portsmouth on 7:00 to 4:30 shift. Call C. Jameson, Ext. 3338.

WANTED—Ride from Portsmouth to X-330 Bldg. north clock alley on 7:30 to 4:00 shift. Contact D. R. Porter, Ext. 253.

WANTED—To join car pool or riders from Sciotoville via Minford on 7:30 to 4:00 shift. Contact Les Parke, Ext. 2855.

WANTED—Ride or to join car pool from Huntington, Ironton or Ashland on 7:00 to 3:30 shift. Contact Elmer Schaffranek, 2132, Ext. 232.

WANTED—Riders from Portsmouth on 8:00 to 4:30 shift. Contact Russ King, Cost Engineer in X-326 Bldg.

WANTED—Riders from Sciotoville and New Boston to Adm. Bldg. on 7:30 to 4:00 shift. Contact Ralph Wheeler, Ext. 3326.

WANTED—Riders or to form car pool from Portsmouth or New Boston on 8:00 to 4:30 shift. Contact Don Adams, Ext. 3338.

LOST — 21 jewel Lord Elgin wrist watch, broken strap, in Adm. Bldg. Call H. E. O'Bryant, Ext. 2294.

ANNOUNCEMENTS

Mr. and Mrs. M. D. Kiley are announcing the arrival of a baby boy named Michael, born in Chillicothe Hospital September 1, Kiley is a pipefitter in Grinnell's Instrument Testing Department.

Mr. and Mrs. W. T. Jackson, of Piketon Trailer Court, have announced the arrival of an eight-pound four-ounce son named Lewis Bartram, on September 6 at Ashland, Kentucky. Jackson is assistant superintendent of the Grinnell Corporation's Weld Test Lab.

Mr. and Mrs. Jack Hitchcock of Portsmouth have announced the birth of a six-pound 12-ounce daughter named Lisa, on August 14, at Mercy Hospital in Portsmouth. Hitchcock is employed in the PKS Employment Division.

Mr. and Mrs. Frank Guisto of New Boston have announced the birth of a six-pound eight-ounce daughter named Margaret Mary, on July 16 at Mercy Hospital in Portsmouth. Frank is employed in the Grinnell Corporation Accounting Division.

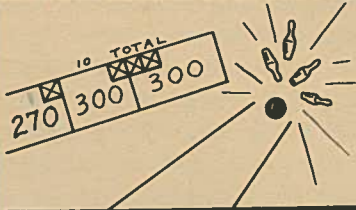

Mr. and Mrs. R. Prather Fultz have announced the birth of a seven-pound nine-ounce daughter born September 6, in Portsmouth. Fultz is employed in the PKS Heavy Construction Division.

FOUND—Set of five keys at X-530 clock alley. Also on key ring is 1949 Indiana State Moose Bowling Tournament emblem. Owner may call Ext. 219.

LOST—Gruen precision shockproof watch, in vicinity of Piketon PHA store. Finder contact R. A. Wiseman, 7 Overlook Drive, PHA, or Ext. 2241. Reward offered.

WANTED — Ride from Richmondale, Ohio on 7:00 to 4:30 shift. Contact D. W. White, Ext. 217.

WANTED—Riders from Jackson on 8:00 to 4:30 shift. Contact Jim Reynolds, Jackson 2046-M.

PREVENTION
IS THE
KEY
TO
SAFETY

ACCIDENT + PREVENTION

OBSERVE NATIONAL FIRE PREVENTION WEEK OCT. 3-9

Somewhere in North America a needless fire breaks out every two seconds—right around the clock. You may think "it can only happen to someone else, such a tragedy will not affect me!"

Every fire, whether it consumes a whole city or only the roof or other portion of an individual house, has to be paid for. A burned house does not replace itself. Food, clothing and shelter are produced only by human effort. Every fire makes every man's struggle for a living harder, by compelling him to spend for his neighbor's waste what he might otherwise spend for his own comfort.

The man in the street—the ordinary man—does not know how this fire waste is paid. You may not realize that when you buy a hat, or a pair of shoes, or a suit of clothes, or anything which goes through the regular channels of living—you pay this tax.

Will you be one of the more than 40,000 Americans who this year will die in flames or be disfigured for life by fire?

Will your home be one of the 775 which will be attacked by fire before the sun sets today?

When your youngster goes to school tomorrow morning, will his school be one of the eight that catch fire in this country daily?

Will that hospital where one of your loved ones may now be, be one of the three hospitals that fire daily seeks out for its special target?

Strangely enough, the answer is largely up to you. You will have it in your power, individually and collectively as part of the community team, to prevent 90% of all fires. There is no mystery to fire. We know what causes it, we know why it happens and we know how to control it. The trouble is that this simple knowledge is not shared by enough people.

IT TAKES "sense" to avoid fires, "dollars" to repair damage.

CIMOTA BRIDGE CLUB SETS MEETING DATES DURING FALL MONTHS

The Bridge Committee of the Chillicothe Cimota Women's Club has announced a list of dates for afternoon and evening bridge parties during the fall months.

The Cimota Club is composed of wives of Portsmouth Area project employees living in the Chillicothe vicinity. One of the club's bridge groups will meet the second Tuesday of each month at 1:00 P. M. at the Chillicothe YMCA, with a second group scheduled to meet the fourth Tuesday of each month at 7:30 P. M. at the K of C Hall.

The club has also announced plans to hold a mixed bridge party at the K of C Hall from 7:30 to 11:30 P. M. on Saturday, October 2. A 50 cent charge per person to cover refreshments will be collected at this session.

Persons interested in joining either of the club's groups are urged to contact Bridge Committee Chairman Ogarita Fockler, Chillicothe 4-4041.

LIBERACE IN HUNTINGTON

Area employees will have an opportunity to see and hear the famous Liberace when the renowned pianist makes a public appearance at Memorial Field House in Huntington on Saturday, October 22.

Tickets for the Liberace Show are on sale now and may be obtained by writing Ticket Manager, Memorial Field House, Huntington, West Virginia. Tickets are priced at \$2.40, \$3.60, and \$4.80. All checks should be made payable to Memorial Field House.
