ATOMIC ENERGY COMMISSION General Manager John A. Erlewine announced the publication of a report entitled "The Nuclear Industry-1974." The publication traces the growth of the private nuclear industry in the United States. Primary government contractors and utility companies involved with the development and utilization of nuclear energy are cited for their contributions. "The Nuclear Industry--1974," WASH-1174-74, can be obtained from the Superintendent of Documents, U. S. Government Printing Office, Washington, D.C. 20402, at \$1.90 per copy.

DR. ALBERTOWICZ of our Plant Medical Staff selected the following article from "Today's Health" for your consideration.

"Whenever you break the cigarette habit--even late in life and after many years on the weed--your chances for survival increase, according to a new report by the National Heart and Lung Institute, Bethesda, Maryland. Studying nearly 300,000 U.S. service veterans, over a 16-year period, the NHLI epidemiology branch found that nonsmokers among them had the lowest probability of death, cigarette smokers the highest, with cigar and pipe smokers between. Among those who had stopped smoking, the mortality risk was lower, and the longer the period of abstinence, the nearer the risk approached that of nonsmokers. In men ages 45 to 54, the mortality rate for the 16-year period for nonsmokers was 14.7 percent, for ex-smokers 21.4 percent, and for those who smoked a pack a day 32.3 percent. In the 55-64 age group, the rates were 49.6 for pack-a-day smokers, 37.3 for ex-smokers, and 28.5 for nonsmokers."

PLANT ENGINEERING Subdivision of Goodyear Atomic for the tenth time at Christmas made a contribution to Children's Hospital in Columbus, Ohio. The check for \$176.00 was contributed for the worthy cause instead of exchanging Christmas cards with employees in other departments to whom they can personally wish season's greetings.

MAURICE TROWBRIDGE, Assistant Supervisor of Office Services, retired with over 21 years of service for health reasons on December 1, 1974.

THE BOARD OF DIRECTORS of GAT's Credit Union decided to discontinue cashing pay checks. This change in policy will be effective February 1, 1975. The annual meeting will be held January 26, 1975, at 2:30 p.m. in the Waverly High School Auditorium.

WHO'S WHO IN MANAGEMENT

ELVA J. JENNINGS, D-112, has a dual responsibility at GAT. He is a Locksmith and an "R" Shift Police Sergeant. Mr. Jennings is responsible for maintaining a lock shop stocked adequately to provide service on all security and non-security locking devices on plantsite. His "R" Shift Police Sergeant duties require him to work relief assignments as necessary.

Mr. Jennings graduated from Portsmouth West High School. He was in the Army from January 1943 until January 1946. He previously worked for the Selby Shoe Company, Prudential Life Insurance, and the Norfolk and Western Railway Company. Jennings joined GAT in April 1953 as a Police Officer. He was promoted to Police Sergeant in October 1954, to Locksmith in April 1966, and to combined duties in August 1973. He reports to O. F. TUSSEY, Chief, Fire and Police.

Elva, his wife, Colleen, and their three children, Sandra (25), Stan (16), and Ruth (11), live in McDermott, Ohio. They are members of the McDermott Methodist Church. His hobbies include gardening, golf, and bowling.
